

# San Diego Homeless News

March 7, 2017 • San Diego's Underground Newspaper • Our Eighth Year  
A POLITICAL VOICE OF THE HOMELESS RIGHTS MOVEMENT

San Diego's fake parking meters deprive the homeless of money they need to survive. Also, this issue was rushed because of a pending emergency.

(1) News & News Media News (2) Feedback, Organized Crime, Meetings (4) UFO-ET News, Fake News Sites?, Snide Comments, Masthead (Credits)

## Emergency Situation Develops

### City arresting homeless, & forcing them to waive their rights

Persons living on the sidewalk downtown or in "The Bottoms" (East Village, traditionally San Diego's "Skid Row") are now being arrested instead of merely being ticketed. In order to get out of jail, they are being forced to sign an agreement to stay out of downtown, including East Village, for 3 years. Can they? Do they? No, because they need services such as lunch at Father Joe's, connections on the trolley system, appointments within walking distance (doctor, housing navigator, other services), all on-foot. Signed Under Duress, it is unlikely that the paper has any legal value, but this whole new system of approaching the homeless problem is extremely costly to the taxpayers, who end up paying not only incarceration costs, but legal challenges, depositions, juries, prosecutors, and a huge mess more. Currently attorneys Ann Rios and Scott Dreher are adding up what all this costs and what can be done to change it. Supposedly the process is complaint-driven, but none of that has ever been true, because there are secret committees organized to continuously complain. Street homeless are also complaining that Clean and Safe thugs are spitting out sunflower and pumpkin seeds at them for hours, and trying to start fights. These are actually the Genovese Boys enforcers, so don't look to city hall to change any of these Mob-Gone-Amuck tactics anytime soon. Read some of the latest stuff on San Diego's Gangsters in Government.

## News Media News:

Michael McConnell had a nice editorial in CityBeat, Feb. 15, called "San Diego's backward approach to ending homelessness", in which he criticizes the Mayor's policy of destroying homeless encampments and possessions, especially recently during Project Homeless Connect. He also has issues with the Mayor's plan, calling it ineffective and cruel, also quoting the San Diego Union-Tribune's Dan McSwain, who called it "inadequate...(and) either naive or downright cynical." He mentions Tom Theisen's evaluation that 5 other California cities have much better ballot measures than ours, and McConnell concludes with "Ticketing and locking people up has never -- and will never -- solve this problem." My take on this is that we all need to speak to the societies that own the Mayor, namely the

Lincoln Club, and its "Boys" at the Genovese Organized Crime Family. Am I right? - <http://sdcitybeat.com/news-and-opinion/opinion/san-diego%E2%80%99s-backward-approach-to-ending-homelessness/> •

The San Diego Reader had a great cover article by Barbara Zaragoza in its Feb. 23 edition, called "A Dystopia of Sorts", about homelessness in San Ysidro. <http://www.sandiegoreader.com/news/2017/feb/22/cover-dystopia-sorts/> How often have I ever praised a Reader cover story? • James Dehaven had a nice article in the San Diego Union-Tribune (Watchdog) Feb. 19 "Land Not Going For Affordable Housing", about City violations of the California Surplus Lands Act.

**“Right at this point it looks like the City and its nonprofits launder money for the drug cartels.”**

<http://www.sandiegouniontribune.com/news/watchdog/sd-me-surplus-land-20170217-story.html> • The SDSU Daily Aztec had a nice article by Kemi Giwa in its Feb. 22 edition about protests versus real action, called "Protests are fine, but it's action that affects change", <http://www.thedailyaztec.com/81641/opinion/protests-are-fine-but-its-action-that-affects-change/> • Still caught up in the drug wars: The San Diego Homeless News had shots fired and one arrested at its hotel in Tijuana, followed by a street gang taking possession of the building. A neighboring gang was called in to get the building back, successfully. In the end, meetings were held, but eventually pointed to connections between the Mexican drug cartels and Organized Crime in San Diego, plus San Diego news media ownership, control of officials who are prosecutors, and even the City Cabal. Right at this point it looks like the City and its nonprofits launder money for the drug cartels.

## Amikas Presents:

The **Very Affordable Housing** Expo

March 17-31, at St. Luke's Episcopal Church, 3725 30th St., in North Park, San Diego. This is only an exhibit (no one lives in these units). See more information at [Amikas.Org](http://Amikas.Org).

Below, the successful Tiny Houses Program of Madison, Wisconsin: <http://www.wpr.org/occupy-madison-begins-building-tiny-houses-homeless>

## Election News:

Several members of the Democratic National Committee admitted that Bernie Sanders had more support than Hillary Clinton, and even though this was known, was selected against as the candidate, because of his liberal views. It is also likely, but cannot be proven, that Russia may have hacked electoral tabulation computers. This has been routinely done by the US in foreign nations for decades. Currently being investigated is whether or not Hillary lost intentionally to avoid Impeachment and prison. • Regarding the Impeachment of Donald Trump, here is a link on that: <http://www.independent.co.uk/news/world/america/us-politics/donald-trump-impeachment-republican-judge-mark-painter-cincinnati-court-of-appeals-a7583031.html?cmpid=facebook-post> •

[The Supreme Court Just Advanced A Lawsuit To Nullify The 2016 Election](http://www.occupydemocrats.com) This could spell trouble for so-called President Trump. OCCUPYDEMOCRATS.COM BY GRANT STERN • News reports say that the White House asked the FBI to dispute reports about Russian Hacking of the election. Unable to post link, so see the Facebook Page "Election Scam Clearinghouse".

## Feedback, Questions, Answers

Q: What made you write about Organized Crime in San Diego? .....

A: If we accept the truth, that homelessness is caused by politics, then what causes politics? The system of secret conspiracy groups (Jewish Cabals, Christian Gnostic Groups, Moslem Halal Associations, and Pagan Guilds) is, of course, key to any local politics, and so is the News Media. When you then look at who controls the secret groups and the media, you cannot escape Organized Crime as the cause of politics. So, Organized Crime causes the politics

which cause homelessness. **How do you fight wealthy people who have partnered with Organized Crime?** Can that be fought at all? They say you can't fight city hall, and now you know why. You could fight Organized Crime using the news media, but they know that, so they either own or control most of that. Remember the San Diego Reader being forced to move out of Little Italy? There are a few Wikipedia web accounts, and even some articles, regarding Organized Crime in San Diego, but mostly ancient stuff, leaving out anything important. I finally linked the City Cabal and the Genovese Organized Crime Syndicate to an attempt to kill me over 7 years ago, about the time I published my first edition of this newspaper. I do write on Organized Crime "probably" laundering money using the City and its nonprofits, below. ....

**Q: Is your biography for real? How did you do so many things at the same time? ....**

A. Every bio of me raises more questions than it answers, and I need to either leave most of it out (or nobody would believe a word of it), or I need to lie a lot, making it believable but not as true. Did I really date Janis Joplin? Yes, but that was a blind date and could have happened to anybody. And, I attended a march of grade-school children with Martin Luther King. What I quoted him as saying was said to a group, not just to me. I always did many things at the same time, which allows failure at some of them and keeps me from getting bored. My private police agency, for example, was part-time for me, but full-time for my employees. ....

**Q: Is your Mental Health stable? After all, you write about alien beings and such. ....**

A. Unfortunately, my mental health is very stable. I was born with a small touch of Asperger's Syndrome, but that was just the tendency to not show emotions in my facial expressions. I generally do not smile, for example. I have had many mental evaluations in my lifetime, and always get diagnosed as entirely sane, plus way too intelligent. I tried to enlist in the Army during the Vietnam War, because everyone I know who was drafted got killed, but I was refused enlistment because of being too intelligent. True story. I even asked to serve in Intelligence, but was told I was too intelligent for that. In grade school I scored off the scale on some intelligence tests, and so was given a 3-day exam by 3 nuns. On the third day, one nun told me in secret that if I continue to score so high, I will be given brain surgery and drugs to make me less intelligent. Heeding her warning, I blew the rest of the tests, intentionally. My latest Mental Health test was the result of a 5150 hold being placed on me in San Diego City Hall. That was marvelous, because I got a close look at the psychiatric abuses in use locally. I wrote about that on my Mental Health Page, [NZ9F.com/MH](http://NZ9F.com/MH), and pay close attention to "Strike 3". ....

**Q: Do you really have a Ph.D.? ....**

A: Yes, but it is from a non-standard university, which was necessary to attend because there were no conventional universities offering even a Master's in Applied Psychology. My studies involve the behavior and beliefs of normal people. I agreed to keep my degree a secret, and did so for over 30 years, into my first 3 years of being homeless in San Diego. ....

**Q: What can you do with that degree? ....**

A: Editor, Publisher, News Director, Producer, Sports Coach, Minister, Advertising Executive, Marketing and Public Relations, Editorialist, Political Coordinator, Mentor, Advisor, Substance Abuse Counselor, Weight Loss Counselor, Politician, more. ....

**Q: Is a lot of all that "Why Me?" stuff your fault? ....**

A: Yes, it does seem so. I was always taught to have no limits, so I had the guts to do a lot of things that nobody ever has. Most recently, has any homeless person ever written a viable plan to end homelessness, such as my 5.1 Regional Plan? I am a writer, with 30 years as a Homeless Advocate and 10 years as a homeless person. I needed to write that, because no one else could. I have frequently taken on causes that can only fail, in order to see how far I can take them before they do. I now know what purpose our species and planet serves, and even my role in all of this. ....

**Q: Did San Diego County really adopt your 5.1 Regional Plan? ....**

A: Not exactly, but they did take several pieces from my plan and put them into action, most notably campgrounds for the poor in the South Bay. ....  
**Censored out, Where do we go from here?**  
**[San Diego Homeless News, 03-07-2017, Page 2](#)**

# Organized Crime in San Diego:

**Organized Crime** actually began as early as Ancient Egypt, and involves the secret conspiracy groups that all governments have always used to control and dominate people. These groups were originally called Guilds, which is the Pagan word, but since then have also been called Gnostic Groups (Christian), Halal Associations (Moslem) and Cabals (Jewish). I am in the process of writing an article of how all this developed, for my Unauthorized History column. It may or may not ever be published.

**Both the Los Angeles Times and San Diego Reader** have articles of merit, the former on the **Native American Casino** involvement, and here is a good one from Don Bauder, San Diego Reader, in City Lights Section, called "**What a Tangled Web We Weave**", March 17, 2010:

<http://www.sandiegoreader.com/news/2010/mar/17/city-light-1/> • Is Father Joe's **Paul Mirable** actually one of the mafia gangsters of San Diego? • Tie in the Mafia with Mayor Faulconer's escorts? I wouldn't do that, would I? Besides, we only pick on Democrats for their sexual misbehavior, like Bill Clinton and Bob Filner, right? • The really awful thing I discovered recently is that the City Cabal, the Genovese Organized Crime Family, and the Mexican Drug Cartels, are all in the same organization, so **it looks like the City and County launder drug money, especially using the nonprofits.** You would need an audit to prove that, but no one will give you an audit without having proof, first. And, of course, if you did prove all this, the news media would keep it secret, and no prosecution would ever result, either. The German news agency, Deutsche Welle, handled the news that people went to prison for bribing San Diego City and County officials, and MTS officials, to get their Siemens trolley installed here. No other news media touched it. • There are way more articles on Organized Crime in San Diego, and I will attempt to list a few.

<http://www.gtnewsphoto.com/INVESTIGATIONS.html>

• Don Bauder wrote an Obituary for a person who fought Organized Crime in San Diego, in the Reader. <http://www.sandiegoreader.com/news/2016/may/16/ticker-dave-stutz-disorganizing-san-diego-crime/> • There are a massive amount of things written about Organized Crime in San Diego, enough to warrant a month or more of reading. I have now discovered a journalistic technique to bring it all out, but I am not liking what I find, either. • Currently researching connections between the Italian Mafia and the San Diego television broadcasters, money laundering using Father Joe's and Clean and Safe, the involvement of the Mexican drug cartels importing cocaine and heroin, Governor Jerry Brown, and the California Bar. Probably none of this in time for this edition.

# Meetings:

## First Meeting of the Combined Governing Board of the Regional Task Force on the Homeless and Regional Continuum of Care Council (RTFH-RCCC)

The Regional Task Force on the Homeless and Regional Continuum of Care Council met Thursday, Feb. 16, 3 PM at the San Diego County Health Services Complex, 3851 Rosecrans St., with 65 present, half of them board members, and the other half stakeholders. This is the first meeting of the combined group. • **Announcements:** **Richard Gentry and Nick Marchione** are resigning as chairs to be replaced by **County Supervisor Ron Roberts and City Council Member Chris Ward**. Both spoke of their plans, and **Mayor Kevin Faulconer** was also present, and spoke about his latest State of the City speech. The Mayor said we have a crisis of housing affordability, need emergency help for the homeless, and Permanent Supportive Housing (PSH), **all to be given his top priority**, and better handled with his new Permanent Assessment Center. (Our editorial comment: Salt Lake found that didn't work, and instead they needed many intake points in different neighborhoods.) • **Non-Agenda Public Comment:** Rudy Johnston of the Neighbor House Association spoke of the work his group does. • **Michael McConnell** spoke in praise of the hard work resulting in the merger, said we need a solid, unified plan, using data-based decision making, and that reallocation of resources and Permanent Supportive Housing were the keys. "This is a different approach from the shelters, criminalization, and sweeps proposed by the Mayor." He said we should invest in

what works, and continuously make changes. • **Tom Theisen**, former President of the Regional Task Force, said we need aggressive action, and there were no action items on the agenda (other than the approval of the minutes). He complained that with every new Plan, there were more homeless at the end of the plan than there were at the beginning. • **Treasurer's Report: Deacon Jim Vargas**, CEO of Father Joe's Villages, said this group has \$2.3 million in assets and expenses, and 91% comes from HUD. The Fiscal Year begins each July 1. **See editorial note** at the end of this meeting's information regarding **no longer making the complete agenda available** to attendees. • **Executive Officer Updates:** Dr. Sue Lindsay of SDSU is out of the country, but is expected to attend the March meeting. There will be frequent meetings of the Executive Committee, and the group is currently seeking a new CEO. Nancy of Funders Together said we need to look at what works well in other cities. There is a new "California Homeless Coordinating and Financing Council", which deals with state funding, and this group would like to have a representative on that board. There is also an Advisory Board for "No Place Like Home", which deals with \$125 to \$135 million in state funds for the San Diego Area alone. A Concept Proposal is sought for the \$750,000 in state funding to update our Child Welfare system, called "Bringing Families Home". There is also a new Advisory Committee for DDJI, the Data Driven Justice Initiative, linking police data to HMIS homeless data. • **211's John Ohanian** said they now have a data base of 6,000 resources updated by 4 full-time staff members, and they get 35 thousand calls a year regarding homelessness. • **Currently 40% of all San Diego families are "doubled up", with 2 unrelated families occupying the same house.** •

**Focus Strategies** of Sacramento was hired to develop a Regional Plan to handle the homeless crisis. They stated that they wanted to expand the current contract from 3 years to be a **5-year plan**, with an added Cost Analysis and Modeling for projects underway. That involves determining what impact each element will have, and what approach and procedures must be used. **The objective is to**

**"...we need a one-year plan, 2 years at the...most, so that our present politicians are still in office when it happens, or fails to."** (from next meeting, below)

**use data we have and are collecting in order to understand our successes and failures at using money, and thus arrive at the biggest impact for the least cost.** It will all require help from the local community. The Plan will point to changes which must be made. This was presented as a warning. The plan will be drawn up according to the HEARTH Act, and the Federal Opening Doors Plan. It will have us **re-housing homeless within 30 days**, and shifting away from merely responding to the homeless, after-the-fact. It requires having the right amount of each type of service, based upon our local needs. The parameters: 1. **Housing-focused**, based upon permanent housing. 2. **Person-centered**, what someone needs as opposed to what we've got. 3. **Data informed**. 4. **Effective use of resources** by dropping or greatly improving present programs. Data will show what to target and prioritize. The data quality is extremely important, and an urgent problem. We need to know about utilization, access, lengths of stay, whether or not they are exiting to permanent housing, what our cost-effectiveness is, and what is the percentage of turnarounds, going back into the same system, understanding the dynamics of entry and exit programs. **Problems:** Change is hard, plus there are so many simultaneous programs. This has to be not just "another plan". It is important to follow the results made necessary from what the data shows. Some locally is not going very great, and we need to realize which service providers are "hard to work with, but extremely effective". (**Editor's Note:** Remember the City refusing to deal with the **Isaiah Project** as "hard to deal with", yet they were the most humane group, and accomplished the most?) Tom Theisen asked when there would be **Action Items to vote for** and actually make a change. The answer was June thru September. The plan has to be "Digestible and palatable to leadership and the County". I wanted to ask if that meant it had to be approved by the Godfather, but I did not ask. Housing First San Diego and Project One For All are new, and have to do with mental illness, with 1,250 individuals being identified as mentally ill, and 226 have been helped since July 2016. However, only 94 were placed into Permanent Housing. The goal is to house 250 persons a year who are severely mentally ill. • Jill Spangler of **Abt Associates** spoke of research done by HUD, and what HUD wants is 1. An eligibility evaluation, 2. A decision as to Transitional or Permanent housing, and 3. Determination of what percent of rent will be paid by Rapid Rehousing. Other things required are to

# Basic Dignity Coalition

The Basic Dignity Coalition of **Think Dignity** (formerly called the Girls Think Tank) met per usual the first Thursday of the month, March 2, at 6 PM, in the Monicker Warehouse, 705 16th St., in East Village. Ten were present, including 3 lawyers and 4 homeless persons. • **Meetings:** There was a Housing Luncheon with housing reps and the San Diego Housing Association, and they concluded that there is **NO available affordable housing in San**

## “Affordable Housing” is for people who earn only \$28 an hour, full-time.

**Diego at this time.** • The Downtown Fellowship met with Stacie Spector, the Mayor's homeless housing administrator about future plans. The Mayor plans a large intake center, which Salt Lake says is one of their biggest mistakes, plus our **city intends to keep shipping out the homeless**, which will make ten times that number being shipped here, of course. More emergency beds are also planned, but **none of this stuff happens until after Mayor Faulconer's term of office expires**, of course. That is why **we need a one-year plan, 2 years at the absolute most, so that our present politicians are still in office when it happens, or fails to.** It was pointed out that **“Affordable Housing” is NOT affordable, that is just a fancy name!** It is housing for persons who earn a mere 80% of local Median Income, \$73,500, which is \$35 an hour, 40 hours a week. **That means these “poor people” only earn \$58,800 a year, which on a 40-hour work-week is \$1,130 per week, \$28 an hour.** That, of course, would be a realistic Minimum Wage for San Diego. More simply, **“Affordable Housing” is for people who earn only \$28 an hour, full-time.** • Huge problems currently at PATH (Connections Housing), which is so understaffed as to have only one or two workers at many times. • There was a meeting of the CAHP Subcommittee on Youth, which wants a new VI-SPDAT for youth, but there is no privacy, which is a big problem for those youth. The acronyms refer to data collection, but that data gets spread out all over, and can cause a lifetime of problems. • The East County Task Force is trying to develop a strategy to unify services, key leaders, volunteers, and solutions. They have yet to admit that there are an absolute minimum of 20 thousand homeless in East County, and have only identified less than 800 so far. • There was an open dialogue with Lt. Beason of HOT (San Diego Police Homeless Outreach Team), **and what is currently being done is an emergency violation of the Civil Rights of the homeless**, so look for that as the Lead Story of this issue, Page One. • Healthy food options for EBT are currently not available, just fast-food, but there are beginning to be new menus at Wendy's and Denny's that have healthy food available. • The Women's Subcommittee will be focusing on Domestic Violence, Sexual Assault, a medical clinic at shower sites, and research into how welcoming shelters (other than DV shelters) are for women. The Street Boutique served 20 people when parked outside the Theatre fund-raiser (see next article and editorial). •

## Fund-Raiser a Hell-Raiser

I haven't written a theatre review in something like 30 years. **Finest City Improv's (InnerMissionProductions.Org)** performance of Eve Ensler's play, **“The Vagina Monologues”** was a fund-raiser for 3 nonprofits which deal with violence against women, and dignity issues for both women and men. Their theatre, a block west of El Cajon Blvd. and Texas St., in the Lafayette Hotel, is a venue with something like 65 seats, making any show very intimate, and, of course, this script is very powerful. This is their 16th year and over \$150,000 has been raised. If you have never seen it, it is quite worthwhile, dealing with the experiences that women (and girls) have regarding sexuality and their relationships with men (and other women). It gets political, proves several points, and forces the audience to get emotional. You laugh, cry, moan, frown, smile, and, most important, you learn. At one point, the whole audience is encouraged to yell, **“Cunt!” It is guerrilla theatre at its best, attempting to change society for the better.** “My short skirt is about defiance, not about getting you excited.” (performed by Olivia Zecchini). **Wendy Maples** steals the show, as “The Flood”, “The Vagina Happy Fact”, and “The Woman Who Loved to Make Vaginas

Happy”. A must-see, especially for men. My take on its message: **Every hetero man needs to know how to take a woman to bed in the way that a woman takes a woman to bed.** And, every person must respect the sexuality of all other persons, not only with regard to sexual preferences, but also feelings, emotions, love, pleasure, and in all other ways. Inspirational. With few exceptions, we all came out of a vagina when born, 9 months after a penis went in there. Not suitable for children under age 15 or 17 or so. ••• **Continuation, next, and an editorial.**

## Article and Editorial:

### Inclusion and Exclusion:

**Think Dignity's new “Street Boutique” truck** was parked outside, in order to provide free clothing and hygiene items. I often both praise and criticize the old “Girls Think Tank”, now called Think Dignity, and much of that is on-line. In this case, I admire the work of assembling this, but felt that it was a bit anti-male, too. At the beginning of the Women's Movement of the 1960's, men were welcome. Then, some years later, the movement became “WAM”, Women Against Men, and instead of being about the empowerment of women, became about sexual discrimination against men. At that point, I had to leave. **All movements, really, need to embrace all people, especially those who are not part of the group doing the complaining.** And, of course, anti-White discrimination never solved any problems related to anti-Black discrimination. You do not understand? There is no project for “just us”. It is sexist to make hygiene on the streets a “Woman's Issue”, as it's bigger than just that. Why not, then, food for just women or just men? That's different? No it is not. We must all fight for everybody's rights, not just our own group that we belong to. And, we must never consider our own group to be “better” or “more important” than anybody else. The Nazis, ever since Ancient Egypt, tried to separate races, classes, sexes, cultures, in order to prevent them working together to oppose unfairness. No event should be for Blacks only, men only, women only, Whites only, Jews only, etc. Ditto for any help provided. It is only by understanding and cooperating with everyone that humankind progresses.

## Reproductive Rights Face New Challenges

**Mifepristone**  
Gynestril  
CherryPharmacy.com

30 tablets  
mifepristone 50 mg

**\$195.50** WORLDWIDE SHIPPING

It looks like women will have to resort to other means to prevent children, if they desire prevention. The Underground News media suggested that all women get ahold of at least one Mifepristone (RU-486) dose immediately, and then use a pregnancy test kit (available at dollar stores) every week. Catch an unwanted pregnancy fast enough, and it becomes not a big threat. Also called Gynestril by the Russian Federation, be sure to follow all guidelines.

have written standards, a coordinated entry system used by all agencies (such as CAHP), and evaluation of individual projects. More partners means a stronger system. **Common shared values** include 1. **Housing First**, which is required to fix problems, and 2. **Not contingent upon** sobriety, mental health, income, criminal record, or credit-finance-rental history. 3. The approach used is **harm reduction**, with no contingencies in tenancy beyond those in the lease. Housing First is a State requirement. Some of the big **problems with San Diego:** 3 forms of ID required. Proof of income. Third-party documentation of homelessness. DD214 if a veteran. **None of these is required by HUD**, just by San Diego City and/or County. **There are also huge transportation problems in San Diego**, just to get a VI-SPDAT (universal intake application, used by all agencies), or go to Housing Navigator meetings, Interviews, Food and Shelter lines, and appointments for legal work, benefits work, healthcare appointments, etc., as well as transportation to a mailbox, telephone, or shower. **Typically it takes all day, waiting in line 5 hours or more, just to get a shower, and by that time an employer is no longer interviewing.** • The PITC (Point-In-Time-Count) had 1,679 volunteers counting, including 623 County employees, taking a total of 5,500 man-hours, and involving 1,800 persons surveyed. There were also 460 unaccompanied homeless youth surveyed, as well as a percentage of those homeless currently held in the County jail. Of 924 inmates who came in homeless, 184 were interviewed. \$18.4 million is being awarded by HUD, but they want a huge strategic planning effort. ♦♦♦♦♦

### Editorial Comment on the meeting:

Members of the “public”, which often includes the Mayors of other cities, prominent attorneys, city council members, etc., **no longer receive the Information and Action Package** at meetings, so when we are asked to refer to information in that package, we cannot follow it. Another way to avoid Transparency in government? Supposedly this has to do with cost, but all this could be placed on-line if done sufficiently in advance of the meeting. See my article above at “Organized Crime in San Diego” for what all this looks like.

## Metropolitan Association of Providers of Social Services (MAPSS)

Meeting of the Metropolitan Association of Providers of Social Services, **MAPSS**, Feb. 22, 2017, at Second Chance, 6145 Imperial Ave., the Fourth Wednesday at 10 AM, with 27 professionals present. • **Announcements:** TACO, the **Third Ave. Charitable Organization** at the First Lutheran Church, 3rd and Ash, downtown, is low on money and laying people off. At least one experienced and licensed Social Worker is available. • Molina Healthcare is taking suggestions for its **“volunteers of the year”**, which allows people to donate \$1,000 for the nonprofit of their choice. • 211 San Diego is revamping its website. • **North County needs more homeless veterans**, and keeps opening new programs and housing options, but most vets do not want to live there. • **Agency Highlight, Traveler's Aid Society.** Operates out of 3 locations, including public access at St. Vincent dePaul, which is Father Joe's, main desk, 15th and Imperial Ave. in East Village. 8 AM to Noon and 1-3 PM, **Mondays and Tuesdays only, help getting home** for anyone with a verifiable residence at their destination. **Greyhound:** You must show up between 8 and 8:30 AM, and you can often receive your tickets by noon. **This is a one-way, one-time deal.** Transportation is NOT available to Los Angeles, Orange, Riverside, or San Bernardino Counties. **Local and MTS:** Has **S/D/M** monthly MTS passes available. NO MTS day passes. Also has vouchers for free California **birth certificates**, homeless certifications, rescue mission referrals, domestic violence assistance, and senior transportation. **Phone 619-233-8500, X1157, 8 AM to 3 PM, Mon. or Tues. only.**

**Seniors:** Also (at a different location) operates, **by telephone only, SenioRide**, for low income persons over age 60, and **mails out** bus passes, tickets, MTS Access vouchers, and taxi vouchers. **Only medical appointments qualify for Access or taxi services.** All else must use MTS-NCID bus and trolley service. Contact is ONLY by telephone. **SenioRide is at 619-295-8393, X314.** To be mailed an **MTS Access application**, phone MTS toll-free 844-299-6326, or go to [www.sdmts.com/access](http://www.sdmts.com/access). (There is also an Airport Ambassador Program, which deals with pets, disabled military, and stranded travelers.) • **StreetLinks planning.** What topic would you like a **3-hour college course** taught on? This is for all Service Providers, and a panel is assembled to present it. Some suggestions were VI-SPDAT, youth services, immigration, domestic violence, and homeless data. ♦♦♦♦♦

# UFO and ET News:

A fake view of the Dark Side of the Moon was published recently on Facebook, with the military base missing. Also, fake photos of Mars, and even a fake "Alien Autopsies" clip. The real Alien Autopsies clip is over an hour long, and the fake one 20 minutes. All 6 doctors were killed when they completed their work, for knowing too much. • Lots of ET visitors since the destruction of two major cities using nuclear weapons in 1945. This resulted in Roswell, the crash of the Alien Autopsies, and continues this day. I spoke briefly with an alien on the San Diego Trolley Feb. 22, who was a hybrid, with human hands, arms, and face. I asked if he was here regarding Interplanetary Defense, and he replied, "Not exactly". First time I ever saw one in public, but the hybrids look like a human that has unusual features. I did use correct CIA protocol. Most everything seen on the web is disinformation, especially stuff about reptiles.

Published by San Diego County's 11% (330,000) Homeless Rotation, 15,000 to 40,000 (on any given day) Un-housed, and 2 Million+ Nearly-Homeless\* \*(Official HUD Statistic for what THEY call San Diego's "Cost Burdened". The State of California calls them "Financially Stressed.") San Diego: At Least Triple the Homeless by Percent of Anywhere Else in the World

We go out to 161,000, usually every 20 to 40 days, more often when necessary. COPYRIGHT 2017, ALL RIGHTS RESERVED. Dr. John Kitchin, Ph.D., Publisher. Biography at [NZ9F.com/bio](http://NZ9F.com/bio). FREE by e-mail or on-line.

Being homeless on the sidewalk is a lot like being at the zoo, except you're the exhibit.

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage,

# National News, Fake News?:

The latest to call the truth "Fake News", plus to bring in all sorts of "News" that really is fake, is, of course, Right-Fart (Breitbart). According to Facebook and CBS, Donald Trump's recent speech to the CIA had him bringing into the studio a large group of selected audience members to cheer him. This goes well with the assertion that most Fake News comes from Trump and his sympathizers. Our conventional media have had a lot of fake news for years, sometimes even admitting it eventually, but the Trumpladites take all that to new levels. Trump is the least-popular President in history, or possibly tied with Herbert Hoover, who caused the Great Depression of the 1930's. We anticipate that his own Republican Party will impeach him. Is this a Fake News article, below?

Arizona Senate Passes Bill Allowing The Arrest Of Peaceful Protesters: From The Intellectualist. Arizona Capitol Times: Claiming people are being paid to riot, Republican state senators voted Wednesday to give police new power to arrest anyone who is... Note that ".CO" is the nation of Columbia. Warning: Many persons are being re-routed to ".COM" instead of ".CO". That is NOT the website. You cannot use "WWW" to get there. <https://theintellectualist.co/> Is this a FAKE NEWS site? Maybe. Check it out, and use your brains.

# Snide Comments:

Who let all them skanks outa the mental hospital to publish Breitbart? Oh, they publish it from there? Never mind. • Donald Trump's mother, Mary Ellen MacLeod, was an Unlawful Immigrant in 1929, and if they had deported her, Trump would not have been born in the U.S. • Cancer cures smoking, because once you die, you never smoke again. •

as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.

Knights templar, see The pharaoh show, the swiss nazi templars, url: [octogon.falconscafe.com](http://octogon.falconscafe.com)

## PHARISTOCRACY • SWISS NAZI TEMPLARS

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vinces, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us". Motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Chatzefratz refers to the supposedly reptilian aliens who once controlled this planet. The Nazi leaders are said to have started Eugenics, the control of human breeding, due to these beings. Take some of this with a grain of salt.
