A POLITICAL VOICE OF THE HOMELESS RIGHTS MOVEMENT

Photos: Border Angels has a new computer center in Tijuana for deportees to contact relatives. Trash receptacles still inadequate at the new PedWest border crossing.

Hepatitis Emergency Expands – Mayor De-Funds Downtown & La Jolla – New Homeless Committee Blocked by Mayor will meet anyway – SD County Wants to Fund and Permit More Homeless Programs and Types

Format: Editorials on pressing issues or big problems, Other editorials stressing solutions, Help and ideas for dealing with the homeless situation (both for the homeless and the public), Important meetings, News often censored out of the media, News Media News, and interesting political impact, maybe a cartoon, and ending with Snide Comments. Contributors usually demand anonymity, to avoid being targeted for loss of their job and/or housing. This is done by re-writing stories to conceal the identity of the author, per their request. **In This Issue:** (1) Updates and teases, Editorial. • (2) Meetings, Hepatitis, Electoral Fraud • (3) LGBTQ story, Advice Column, Snide Comments •

This Edition was hastily produced to give timely information, and this resulted in cancelling the Lead Editorial

Hepatitis Update:

San Diego County Public Health Officer Dr. Sayone Thihalolipavan, M.D., said that the Hepatitis A outbreak is far worse than is publicly known, and that as many as 40% of those affected are not homeless nor drug users. See "Hepatitis", Page 2 Column 3.

SD County Board to Help Homeless?

Including those in City of SD Meeting called for 9 AM Tuesday, June 20, at the County Administration Building, 1600 Pacific Highway, Room 310. Topics of discussion will include Tiny House Villages, several different types and tiers of funding, and the use of 11 parcels of County land, some of which are in the City of San Diego, and 2 of which are in downtown San Diego. They want to leverage \$25 million into new units of all types, and will also discuss making available funds to expand current programs. **County Supervisor Ron Roberts asked those interested in low-priced housing and funding of same to attend.**

A word of note is that the San Diego City politicians, even the Republicans, could probably get behind County taking care of the homeless problem.

Homeless Committee to Meet

San Diego City Hall, 12th Floor, 2 PM, Wednesday, June 21. No word on whether homeless storage will be provided. Probably not, because the Mayor vetoed funding for this Committee.

Feedback:

I am currently being stopped frequently on the streets by those who want to talk politics. Good. •

I also want to thank the many **State Legislators** who expressed interest in getting the "Underground News" and "Inside the Government" perspectives we deliver. All responses lately have been positive. And, of course, if we expect to understand the homeless problem thoroughly, the homeless must be represented in that understanding. •

Jacek Lewandowski, who lived in the Soviet Bloc, said that "homelessness in the US is a **scandal of the highest magnitude** that can only be understood as a **structural element of American Society** to wreak fear on all who want to rock the boat by

demanding better pay, better working conditions, better educations, and less police terror, jails, prisons, and liability-accountability for false arrests and false charges leveled by overzealous District Attorneys like Bonnie DuManis in San Diego." He says "we have an Insane Society". He once told me that during the Vietnam Era of the Cold War with the Soviet Union people living there enjoyed a much better and freer Standard of Living than we did in the United States, and that our movies and news contained propaganda that we lived better here.

Brilliant Graphic Artist **Vince Meehan**, of the San Diego Union-Tribune (and formerly with SDCNN, the San Diego Community News Network) asked if there was really a **doubling in the number of sidewalk homeless**. The data comes from HMIS, the Homeless Management Information System, which shows that 5,000 homeless were in jail at the time of the official PITC (Point-In-Time Count) which is used to determine the official number of homeless in a city. And, they came from the sidewalk plus will go back to the sidewalk when released. Jail data is new, so there is no valid comparison to previous years. However, does a sidewalk homeless cease being homeless when they get arrested and are in jail? So, San Diego has 14 thousand homeless, not 9,000, and 4,000 are in shelters, 5,000 in jail, and 5,000 on the sidewalk. This does not count well-hidden homeless, nor couch-surfers, nor the Rural East County homeless, where I spent a year or two. It also does not count the 4,200 San Diegans who are neither working nor going to school, and are over 16 years old. It does not count those persons who will not give their personal data, and does not count women in Sex-Housing, either. Sex-Housing is a trade of sex for housing, no romantic relationship being present, and it is usually women who do this. To calculate the number of women in Sex-Housing, take the number of male homeless and subtract the number of female homeless. This gives the different numbers of males and females who are homeless, and is thought to be the number of women in sex-housing. In reality, of course, there are also men in sex-housing, either with women or with other men. **In summary, yes we have double the number of sidewalk homeless because we now have data on the 5 thousand who were in jail and thus not counted.**

Daniel Smiechowski is running for City Council and would like to engage in dialogue with San Diegans at: <https://www.facebook.com/daniel.j.smiechowski/?ref=ufi> His election page is https://www.facebook.com/Group-of-1000-to-Elect-Daniel-Danny-Smiechowski-to-SD-City-Council-189633484832079/?hc_location=ufi He is most likely to run in District 2 or District 7.

Mayor De-Funds Districts

San Diego **Mayor Kevin Faulconer** responded to the **City Council** turning down funding for his Special Election by eliminating funding for the support staff of District 1 (**Barbara Bry, La Jolla**) and District 3 (**Chris Ward, Downtown thru Normal Heights and Old Town thru South Park**). Many have said that this sort of government "hatchet wielding" is unfair, accomplishes nothing useful, wastes time, and punishes the residents of the City. Barbara Bry at a recent City Council meeting, used the words that the Mayor "Trumped" the City Council, obviously in reference to President Trump's tendency to retaliate against anyone who doesn't see things exactly the

same as he does. See "Meetings", The San Diego City Council, June 12-13, Page 2 Column 1.

Other News:

The **LGBTQ Community** is being harassed by at least one church group attempting to "Re-Program" gays and lesbians to become heterosexual. Being homosexual was once considered a mental illness, but if you go back far enough, women who wanted to become attorneys or ministers were once considered mentally ill, too. Story on Page 3, Column 1. • **Soccer City** fails to get a **Special Election**, despite efforts, and will continue to seek one. The failed override of the **Mayor's veto** on June 13 has had chilling repercussions. Meetings, San Diego City Council, June 13, Page 2 Column 1. • The San Diego RTFH, **Regional Task Force on the Homeless** Governing Board, met June 15, and a lot of information was important. Meetings, RTFH, June 15, Page 2, Column 2.

Electoral Fraud Update:

We need help from the State Legislature

to make sure that all of **California's** ballots are counted. The only County that has a Court Order on how to do that is San Diego County. Ray Lutz, on Facebook, obtained a Court Order, but it only covers San Diego County. We need a State Law that requires an Audit of all ballots, which can then be used as proof that none of the total numbers were altered. That has been ordered for San Diego County. It would also be helpful if a Registrar were required to notify any voter whose ballot was not counted, using their provided mailing address. More on the Facebook page Election Scam Clearinghouse. <https://www.facebook.com/groups/clearinghouse/>

And, in the past **Presidential Election**, there are new findings and even conclusions, some of which have been censored off of the web (or hacked). Story, Page 2, Column 3, "U.S. Electoral Fraud".

What Causes Homelessness? How do we fix that?

Editorial: Homelessness is caused only by politics, not by mental illness, substance abuse, laziness, handicaps, etc. Homelessness can only be addressed by politics, which is its only solution. Lack of cooperation in government, plus the Cash Cow system of raking in State and Federal money, the "crooked" politics quid-pro-quo of political contributions, "bribes" paid to the news media (usually in the form of political advertising), money-laundering for the drug cartels(?), kickbacks from real estate and construction firms, rigged elections, propaganda spread by the lies of Public Relations specialists, all these things hold homelessness firmly in place. So, fixing the problem must be political, and involve spending only on these things:

1. Public Relations Agencies and their associated law firms and media contacts.
2. Buying television, radio, and print advertising.
3. Signature efforts for ballot initiatives.

4. Signature efforts for Recall petitions.
5. The customary bribes, favors, contributions, PACs, internal wrangling and back-room deals.

So, that means supporting **Bernie Sanders**, as well as **Occupy Wall St.** groups in San Diego, as the only real solution so far. The **State of California** recently rejected some of the non-conventional ways of addressing the homeless issue, but do they realize that solving the problem using the same failed methods of the past will cost more money than the entire State Budget?

“We are having people make money on the homeless problem without solving it, and even making it worse, by treating only the symptoms and not the disease. Is that the answer? No, it is ignoring the question.” - Classic “John Schlitz” (1970’s) using his real name, John Kitchin, in 2017.

Meetings:

The Basic Dignity Coalition is one of the committees of Think Dignity (formerly called the Girls Think Tank) and met the First Thursday of June, June 1, at the Monicker Warehouse, 6 PM, 705 Sixteenth St., per usual. Ten were present, which is average for this time of year, and the trend of other meeting groups continued, with fewer lawyers, fewer government employees, and more ministers and religious leaders present. **Michael Johnson** (Board of Directors of Think Dignity, member of the Downtown Fellowship, plus formerly of the San Diego Rescue Mission, and founder of the Burrito Boys) helped to conduct the meeting, along with **Merlynn Tulen**, who is the new Operations Manager of Think Dignity. Persons who run programs at **St. Paul's Episcopal Cathedral**, north of Downtown San Diego were present for the first time, largely because mobile showers are run by both that group and this group, and this is networking. The Facebook group from the San Diego Homeless News connected these two groups, since one of their projects is the same. •

Committee Reports: Dignity Defenders, the newest committee of Think Dignity, is partnering with the **Invest in San Diego Families Coalition** to try to get \$1.7 billion in unrestricted reserves used by San Diego County to be used to help the **Affordable Housing Crisis**. **County's budget hearing** was June 14 at 5 pm, at the County Administration Building on Pacific Highway. Dignity Defenders supports the **SEIU Public Employees Labor Union** in its current negotiations. • Dignity Defenders is also partnering with **Build Better San Diego Coalition**, formerly the San Diego Housing Justice Commission, and all think that a homeless perspective needs to be added to current plans (just like we have been saying for over ten years in this newspaper and earlier in blogs). This committee is also, of course, preparing **lawsuits to deal with Encroachment and Bail Abuses**. The latest bail abuse is that people are being charged with crimes that they did not commit, and must plead guilty in order to get released. This has the problem of accumulating large criminal records on these people.

The **Women's Committee** did not report, but the latest information available is that condoms would now also be provided by the Street Boutique. Their shower and toiletries schedules are now published above, or visit www.ThinkDignity.Org.

The **Funding Committee** reported on having a new office for Think Dignity at 3525 30th St. in North Park, San Diego. It was also mentioned that there are now 363 lockers for San Diego's 14,000 street-shelter homeless. June 8 there was a fundraiser at the Gossip Grill, a lesbian bar, in order to reach out to the LGBTQ Community, and there will be a Membership Mixer June 21, 6 PM at a different location. ThinkDignity.Org. Next meeting July 6. ♦♦♦♦♦

The San Diego City Council

met Monday, June 12 and Tuesday June 13 to discuss the City budget and address Mayor Faulconer's veto. The June 12 meeting is best summed up by John R. Lamb of CityBeat, in their June 14 edition of Spin Cycle, "Chamber of Roarers".

<http://sdcitybeat.com/news-and-opinion/spin-cycle/chamber-of-roarers/>

It had many who were actors, pretending to be San Diegans, several City Council members telling obvious lies, a real ugly meeting. The Convention Center expansion is not really an emergency warranting a Special Election, so adding in Soccer City made it maybe a time-sensitive issue, because the MLS Soccer League's 4-team expansion has to be decided now.

From **Jeannie Criscenzo**, a part of Amikas housing for homeless veterans, and once a candidate for Congress: "They are USING HOMELESS PEOPLE to sell their scheme - That isn't clever publicity - It's lies! Special Interests using homeless people to disguise

real agenda are POVERTY PIMPS!" She continued: "Shame on you! For USING HOMELESS PEOPLE to sell your get-rich-quick scheme. That isn't clever publicity - It's immoral!" She then identified these groups:

San Diego County Hotel-Motel Association
Father Joe's
Alpha Project
Downtown San Diego Partnership
San Diego Lodging Industry Association
San Diego Regional Chamber of Commerce

From **John Kitchin**: "On behalf of the San Diego Homeless, we DO NOT approve of the expansion of the Convention Center, nor do we approve of additional funding for the San Diego homeless until a lot of waste and corruption is first eliminated."

It was all knock-down and drag-out fighting about whose lies are more believable. Really turned my stomach, but not as bad as the following day:

Their semi-secret 5 PM June 13 special City Council meeting had myself as the only homeless activist there, and what I saw both startled and inspired me. I got insulted by both the City Council and the Television News Media. Okay, so be it, but it did result in a re-thinking that the only way the homeless situation can be tackled at all is by politics. This resulted in an Editorial, Page 1, "What Causes Homelessness?"

The Regional Task Force on the Homeless Governing Board

met June 15, 2017 at the County Administration Building, per usual. County Supervisor Ron Roberts, Chairman of this group, spoke about funding for Project One For All, for severely mentally ill homeless, and said that the program would be expanded. There is also an Innovation Fund for new projects, and there will be a June 20 meeting of the County Board to discuss what to do in the upcoming Fiscal Year. It sounded promising. There is a new Director of the RTFH who will replace Dolores Diaz and will be installed at Petco Park June 22nd at 4:30 PM. Diaz will join the Housing Commission. Nick Marchione of County Health and Human Services added that there is \$150,000 in funding for No Place Like Home, which also deals only with those severely mentally ill. • There were new Board members elected to Service Provider positions. • There is a new booklet about the PITC (Point-In-Time Count), a comprehensive report. • The combined websites of the RTFH and RCCC (Regional Continuum of Care Council) will contain searches by keyword and many other useful features. • There is \$900,000 in state grant money available for July 17, plus new Federal money will be available for those needing it soon. • San Diego City Council Member Chris Ward, Vice-Chairman of this group, said there was \$6 million in SMART (Serious Misdemeanor At Risk) funding available thru the office of the City Attorney, plus San Diego is making available \$1 million for Diversion programs. He also said that San Diego has a \$78 million Housing First plan. **The first-ever meeting of the new City of San Diego Homeless Committee will occur June 21st at 2 PM.** •

Next, there was an update on **Organizational Assessment**, by David Tweedi. He suggested slight changes in the organizational structure, dealing with the coordination of CoC (Coordinated Continuum of Care) making it a Department, as well as having a Communications Dept. and having a COO doing internal functions. He also said that Housing Navigators need to be able to access and work with the CoC functions, too. CoC deals with such things as mental health care, medical care, and substance abuse, as opposed to just housing. He said that Tech Enhancements should include GPS location of people on the street, with their consent, for follow-ups of anything from medical care to data, and that reporting access needs to be expanded, too. He suggested hiring 2 more Data Analysts, and teaching the Executive Directors how to access data. He said that there should be charts of how many people are housed by month, and also of completed progress by both month and by project, in real time. There should also from the data be predictions of future resources needed, on an ongoing basis. Regarding Veterans, there should be a special program and data usable for the special needs and funding regarding vets programs, as there is a huge current data problem when helping military veterans at this time. He said that we need to force the local Veterans Administration to use the same data system that we do. In addition, there is usually existing housing that never makes it into the data-base, and the results of what help resulted in good outcomes usually does not get reported either. He said that Transitional Housing that currently exists should be now used as HUD "Interim Housing", which is a "Housing Situation" as opposed to a "Bed Type". He said that much of this will result in per-diem (per day) grants. He said that these needs to be a Mental and Behavioral Health Fund that integrates data with full-service partnerships instead of just in-house referrals. And, while Domestic Violence data could not legally be incorporated into the HMIS (Homeless Management Information System), it could still both be used

statistically and used to find people when necessary if secret number identifiers were used instead of things like the names of people. He suggested that the 4 Housing Navigators should be able to work on all locations, not just their nearest one, so you could see a Housing Navigator in Escondido to find a place in Chula Vista, for example. He said that since the Permanent Supportive Housing plans are not yet into the data system, the group should take advantage of the government SAMSA and SOAR software in order to add drugs and mental illness to other data capabilities, including using private vendors and the private housing market. He said that an MOU, Memo of Understanding, should be developed to ensure data compliance, and we should look at projects for that as opposed to just agencies. He wants to see simpler workflows for housing referrals, because there are now easier ways which allow the computers to do way more of the work. He wants to see the By-Name List enhanced to include a lot more types of data. He likes the present ServicePoint software, saying it is the most versatile available and works well. I did not get to present it, but my idea would be to have "Attributes" for each and every parameter. So, if a service provider must require that a person be between age 18 and 51, per their funding requirements, that can be "Attribute G23" or something like that. He said of the VI-SPDAT, the test used locally to test how much trouble someone is in, is acceptable, and better than asking dozens of more questions. • His Conclusions were that the most pressing things needed are to require standardized data collection, get the \$18 million in federal funding renewed, giving bonus points for self-funding and such, establish a prioritization of various items as necessary, and look at the local aspects before submitting the HUD application. • The Action Items were heard and approved unanimously, dealing with scoring, and not having conflicts of interest, turning Transitional Housing into Rapid Re-Housing in order to reflect HUD's current changes, and there should be additional scoring points for hard-to-serve populations. • Megan Kurteff Schatz, CEO of Focus Strategies, FocusStrategies.net, gave the latest update and report on the new Regional Plan for San Diego City and County homeless abatement. A strategic framework and universal reporting plan is due by June 30, with a Phase Two plan starting to be assembled at that time. Most particulars were given in our report of the last meeting of this group. She did say that more performance (successes and failures) data is going to be needed than currently is making it into the system of data reporting. • After the meeting there was a party regarding the completion of another year, and a farewell to the group's chief Dolores Diaz. ♦♦♦♦♦ END OF MEETINGS SECTION

Hepatitis

Hepatitis A is a virus that spreads by contact with human blood, semen, or feces, making people sick 2 to 4 weeks later. It is usually spread by persons not washing their hands after using the toilet, and then others touching the same railing or doorknob and then eating food (usually a snack) without first washing their hands. Vaccinations are free at County-sponsored clinics, and protect you for at least 25 years. The free clinics have confirmed 160 cases, with 75% hospitalized and 2.5% fatalities. If you are extremely fatigued, with yellowing of skin or eyes, or very yellow urine, possibly with stomach pain, call "211" or see your nearest clinic. City Hall now has hooks instead of doorknobs on the restroom toilet stalls, and that permits opening them with your wrist instead of your fingers. The Downtown Library is now keeping bathroom doors open so that no contacts with the doorknobs are necessary. • Editorial: This is what happens when a city removes 32 toilets from its downtown area in 15 years, plus there is no place for its homeless, living on the sidewalk, to wash their hands or take a shower.

U.S. Electoral Fraud

The **Democratic National Committee, which is being sued for Elections Fraud**, is having many of its members show up dead, the most recent being Shawn Lucas. There are allegations of drug use and overdoses, but that is not likely. "The suspicious deaths of Seth Rich, Shawn Lucas, John Ash, Victor Thorn...break my heart. There has been no credible investigation of any of them." Patricia Gracian on the Facebook Page "Election Scams Clearinghouse".

<https://hubpages.com/politics/Shawn-Lucas-Was-Not-a-Drug-User-Says-Lawyer-Parents-Called-Him-Healthy-Before-Unusual-Drug-Overdose> •

Is any of this related to the KGB (GRU)? • More links on DNC deaths, including Seth Rich being shot:

<https://www.facebook.com/dr.estellasneider/> and <http://vesselnews.io/eyewitness-seth-rich-shot-walked-past-didnt-even-know-shot-no-pain/>

Also on **Election Scam Clearinghouse** (Facebook), Russia is implicated in de-registering voters by hacking, and targeted US voting machine manufacturers before the election. Fake News? No,

look at the source. **Source: KPBS.Org, San Diego.** Way more news on the Russian Electoral Fraud, too, by various news agencies that are respected. Unfortunately there were two videos of exactly how the elections were hacked, and they disappeared from the web. There was also the actual web virus used, to be displayed for techno-geeks to look at, and it also disappeared.

http://www.kpbs.org/news/2017/jun/05/report-russia-launched-cyberattack-on-voting/?utm_campaign=todays-top-stories&utm_medium=email&utm_source=newsletter&utm_term=headline/&utm_medium=social-media&utm_campaign=kpbs-facebook&utm_source=facebook.com

LGBTQ Community Insulted by Churches

Back when I first began the study of Psychology, Homosexuality was considered a mental disease. There was a double standard, however, because many people in history were gay or lesbian, yet obviously not considered mentally ill, and that group contains many kings, queens, popes, and even a Roman Emperor or two. Years ago, any woman who wanted to become a lawyer or news editor was considered mentally ill, too. Mental illness is defined by myself as any behaviors that the rulers of society deem troublesome. For a list of rulers, refer to the two photos of groups at the end of this newspaper. The New World Order (Novus Ordo Seclorum) is not fond of same-sex relationships because they do not automatically produce biological children. The rulers of society operate a pyramid scheme to made money on overpopulation via having extensive holdings in real estate and food production.

The re-programming of gays and lesbians to become heterosexual is both offensive and frightening. I once said that I wouldn't want anybody telling me what Sexual Orientation I must have, would you? A fair series, however, would also contain training for those who are hetero and want to become gay or lesbian, too, or perhaps Transgender, etc.

Shrink My Head, Not My Wallet – Advice on Stuff You're Not Supposed to Know About

Question: Why do so many hetero men insist upon seeking "Significant Udders" (Species Titzus giganticus) rather than real women? What attracts men who are boobs to the boobs of women?

Answer: Genetic Memory. All mammals pass down knowledge to their children and grandchildren via their DNA, and that is because mammals have such short life-spans. Each generation knows more, a little at a time, from previous generations. Sometimes referred to as "Past Lives", this is nothing more than instinct and talent inherited from ancestors. This is why the families of great singers or actors tend to have offspring with similar talents. 98% of your DNA is called Non-Coding DNA, because it does not code for the proteins to build your body. It codes for memory. On-line sources such as WikiPedia do not tell the truth on issues like this, either. In the case of liking boobs, some ancestor had a great time in a whorehouse with such a woman, and the link is then established between big boobs and having a great time sexually. The entire Library of Congress, including every frame of every movie copyrighted, could be fit into 3 or 4 human brains. Genetic Memory can also be inherited by eating the DNA of a talented person, and that causes the grandchildren of the diner to be born with some of that talent. It is why young women (and men) go backstage at concerts to swallow the semen of the band. It is also why human blood and semen is added to foods to make them kosher, and added to bread and wine to make them Holy Communion. All talent acquired via foods skips one generation, and is not present until the diner has children, and then grandchildren. I did research on this topic in the 1970's, and all of it was Classified above Top Secret, which is called Cosmos. – Dr. John Kitchin, Ph.D., Applied Psychology

Snide Comments:

Think of Cultural Diversity as an Ecclectical Outlet. • PBS News proving the Russian hacking of the Clinton-Trump election is one reason why Congress wanted to de-fund Public Broadcasting. • I like to spell "Bridal Bazaar", "Bridle Bizarre". • Diamonds are wampum, same as gold and silver, common and worthless on other planets, but sparkly, attractive to us human apes. • I want to thank the Mexican Immigration Authorities for granting me a VIP visa. • Medi-Cow, Wisconsin's health plan for dairies. • The blood pressure machine at the pharmacy said mine is way too high, and then tried to sell me a cemetery plot. There's a discount until next week. • I called Uber-Lyft Burial Service and they offered to take my

body out over the Pacific Ocean in a small aircraft and dump me in. Saves on caskets and cremation when you use Uber-Air. • MBA, Master of Business Annihilation. • MSE, Master of Scientific Excuses. • Social Custom eats Planning Strategy for breakfast, but usually has a bad case of diarrhea by lunchtime. • Cats: Be sure to train your human as to when to feed you and how to observe proper obedience etiquette. • Mexico now has Donald Trump toilet paper, so you can wipe your ass with the Chief Twitter, which the British call the Big Twit. • Human love is a radio wave on a very low frequency. When you do the radio engineering as to what antenna would be appropriate, the answer is the Earth's iron core. It means that in space, love probably does not exist. • For a real rush, go to an extremely dark location, take the fluid out of a bright-stick (cyalume) and put it into a squirt gun. • The red dragon said, "I really love little children. They're crunchy, and great with salsa." • Spudweiser genuine potato beer. It's the beer that made Idaho famous. There's tater in every swaller of Spud. • I wanted some soy milk but couldn't find the teats on a soybean. Oh, it was a male soybean? • Think of the Alpha Project and Father Joe's Villages as a no-kill animal shelter for stray humans. • At Dope-Mart, when you buy a 75,000-pound box of Medical Marijuana, you get 50 pounds of heroin, 25 pounds of cocaine, and an assault rifle. Repeat customers also get a grenade launcher and 50 rocket-propelled grenades. Dope Mart. Your one-stop shop for all your non-pharmacy drugs. • Many pets are Estruating right now (in heat) so "doggie cantinas" are forming in alleys so that the Zeta males and females (opposite of Alpha) can get into some hump action. It's the pet equivalent of a singles bar, but with all interactions hetero. Only humans and bonobos (pygmy chimps) engage in same-sex sexual relationships. Our DNA is a gene-splice which is 98% Bonobo and 2% of a particular alien species, plus a small amount of the voice DNA of a gray whale thrown in to give us our voice. Nuts? No, standard Mormon religious teachings from decades ago. • Always eat food from the 4 Basic Food Groups: Pretzels, Beer, Twinkies, and Candy Bars. If you get addicted to Twinkies, join Twinkies Anonymous. • I thought Tortellini was a famous Italian composer. • Stand squarely on the soap-box when giving your speech, because it makes it easier for someone in the audience to shoot you. • Win at any cost, no matter how stupid you're being? I thought the Mayor didn't back Donald Trump. •

Published by San Diego County's 11% (330,000) Homeless Rotation, 15,000 to 40,000 (on any given day) Un-housed, and 2 Million+ Nearly-Homeless* *(Official HUD Statistic for what **THEY** call San Diego's "Cost Burdened". The State of California calls them "Financially Stressed.") San Diego: At Least Triple the Homeless by Percent of Anywhere Else in the World

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.

PHARISTOCRACY • SWISS NAZI TEMPLARS

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vincas, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us", motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.
