Correction, Thanks, Apology, Feedback

Correction: We gave the figures of the tents not helping any more than 1% of the homeless, which was a typographical error and should have been 10%. The figure of the community was being helped by any current plans, not because they refuse help, but because those plans were designed only for people who “fit” about a dozen different “plans”. There is currently NO help for over 50% of our homeless, nor is there currently any new proposed help for those who do not fit the “plans”. These plans deal with drug addiction, alcoholism, mental illness, veterans, children, the elderly, handicaps, violent crime, and a few more causes, but most homeless do not fit into any of those categories. People are homeless because the cheapest rent is more than jobs pay.

Thanks to all those donated money and/or useful items to help recover from the major fire at our offices. Thanks especially to Kathryn Rhodes, Think Dignity, Jim Lovell, and Mark Smith.

Apologies that I have been far behind in my work here, with some loss of interest in it. I lost interest in being alive nearly a year ago, which is how homelessness goes. Much has to do with my being prevented from getting my prescribed psychiatric medicines for Dementia-Related ADD (Attention Deficit Disorder), a disease caused by my being a Religious Victim. It only consists of a chemical imbalance in my brain, and does not affect my work, but it greatly affects how much fun or pain life is. I am doing my best to survive, dating a 20-year-old.

Feedback Tom Theisen, former Chair of RTFH (Regional Task Force on the Homeless) made this comment on the Advance (Provisional) Edition of this issue: Tom Theisen: “Hi John, I am out of town for the next 6 months. Took a quick look at your proposed newsletter, and generally liked it. My only comment was that there was no mention of the games RTH played with the point in time count numbers. Lisa Halverstadt did a real nice story on this. Rather than going down by 8%, the number of homeless has probably increased since last year.”

The State of the Homeless Issue: A Historical Perspective on Homeless Innovations

As homelessness becomes more complex, its history and the mechanics of its operation require more and more editorial enlightenment so that people can understand what is really going on. Above all, the press and media need to have reporters who understand the issues, so that they can provide adequate and unbiased coverage of the news as it applies to poverty. As the de-facto Historian Laureate of the San Diego homeless issue, 30 years an advocate and 11 years homeless myself, with 9 years Editor and/or Publisher of the San Diego Homeless News, my task is clear. Educate.

Every 8 years, when the position of District Attorney comes up for new election, the State and County each give undesired and not-needed expensive things to the homeless. In 2010, six years into the Great Recession of 2004, there was a new type of prison here, popular in Los Angeles. PATH, Persons Assisting (or Ass-kicking) the Homeless, wanted one of their inhuman prisons here, and Underpass Press from all over the state and nation were at the City Council meetings involved, trying to block PATH because of their reputation in Los Angeles.

Out of the fracas which resulted was born the San Diego Homeless News. We were not able to block PATH Connections Housing, but were able to lobby successfully for their being run locally by Alpha Project, which is that time one of the most human institutions in San Diego, despite their Baptist affiliations. Traditionally, Baptists have blamed poor people for poverty and suggested that punishment is appropriate for that blame, meting out some form of emotional torture. Many more commit Indirect Suicide than become converts. “Connections” Housing is an appropriate name, as the word is used by the poor and dispossessed as a reference to the institutions and drug and Mafia gangsters who pimp for rich people. (Admiring my eloquence.)

That was 2010, the last time we had a “reorganization” election before our June 2018 one. Key positions such as Sheriff, DA, and key City and County districts were up for grabs. In 2018 there were four times more homeless (in truth but not in fake propaganda statistics), so the City moved to pacify its critics on the homeless issue.

Mayor Faulconer, who had closed the circus tent shortly after his September appearance, re-opened the tents. Other programs curtailed after Filner, such as sleeping in cars, were also re-opened. This year, the homeless got a new Sherman Heights Black Ghost Possessions Storage Center, and a new Homeless Navigation Center in the Father Joe’s Villages Ghettos near 14th and Imperial, downtown. Both are within the old “Bottoms Ghettos” where traditionally all the San Diego homeless were forced to move to the past 30 years. It used to begin on 6th Avenue, right in the present Gaslamp District.

Now, several issues, one at a time:

NUMBERS: The number of homeless increased by 900 last year instead of the usual 700 per year, because some other housing money was used for other programs, such as the rubber tents. Normally, the 1,000 low-income housing units torn down each year are replaced by 300 new low-income units, but there were only 100 new units in 2017, leading to 900 new homeless instead of the usual 700 per year. Is this bad? Well, hundreds of homeless had tent shelters and such as a result. It is not progress, of course, because there has never been any.

MONEY: There will never be enough money to end the homeless problem in San Diego because the City and its largest Slum-Lord, Father Joe’s villages, insist on spending a minimum of $300,000 for each and every one homeless house. What? Okay, do the math on our last year’s 17,500 (best true estimate) un-housed Categories One, Two, and Three.
handy (*), and the minimum cost to house us using present means adds up to $25.5 billion dollars, plus about $270 million dollars for the 900 new homeless coming in since last year.

- Definitions of the different types of homeless are on Preview Page, low down it, at http://www Preview.

Whoever is doing the math on all this couldn’t balance a checkbook. Tiny Homes, proposed by Amikas.org and earlier (2011) by Floyd Morrow (who helped end homelessness of the over 2,000 per homeless person housed, which is $35 million total, but under our present system that $35 million would only house 78 homeless. Get real, okay? Fire your Accountant. That helps everybody. Cooking government books never produced anything useful. The real current number of homeless is last year’s 17,500, plus 900 since then, or 18,400. I welcome your disagreement, too.

ILLEGAL LODGING: The City was ordered by the Federal Court System to come up with an overnight solution to house all the overnight homeless by Fake Outreach, between the hours of 9 PM to 5 AM, 7 nights a week, forever. This was since mandated to exclude downtown San Diego, and you can only be ticketed for Illegal Lodging if this option is available. This proviso was to get San Diego to build more shelters. Instead City contracted with shelters to keep some beds vacant, so that they would always have ‘vacant beds’, although none of them can become filled, and shelters cannot even allow them those vacant beds. These beds must remain vacant, per contract. Full? No, Space is available, but no one will accept these beds because they cannot get the beds, because they must remain vacant, by agreement with the City of San Diego. Understand? You may not know in advance.

POSESSIONS: Now we have the same thing likely to occur with storage of street possessions. The City may now warn just 3 hours in advance of mass dispossession of all the Street Possessions of homeless. This is the same as the Portland Loos did not of the work that went into the Portland Loos did not of the work that went into the Portland Loos did not of the work that went into the Portland Loos did not of the work that went into the Portland Loos did not of the work that went into the Portland Loos did not of the work that went into the Portland Loos did not. Today’s main topic is the decriminalization of homelessness. There has not been much cooperation. Also, on decriminalization advocacy, here is the plan. 1.) Humanize the homeless. Talk to them. 2.) Volunteer with an agency. 3.) Attend City Council Meetings. 4.) Call out local officials via telephone or letter. 5.) Use the Social Media as a grassroots effort. 6.) Document police harassment. 7.) Meetings

The Basic Dignity Coalition met June 7, 2018, at the Mondiker Warehouse in East Village, downtown San Diego. 19 were present, which is well above average for this time of year. The group included 3 attorneys, 3 press, 4 blocks (rare) for 8 new people (also rare). • The Tony Diaz case which challenged the City’s ban on sleeping in San Diego’s ban on sleeping in cars has been lost. • The other observation on the car sleeping topic will proceed in court, a Class Action suit by Disability Rights California. • There are now ten shower sites. • It was again pointed out that MTV grants Disability status for bus and trolley use is very complicated and probably violates HIPAA. When applying for a disability permit, use NICTD, North County Transit District, which follows applicable laws. • Summer Survival distribution of needed gear such as sunscreen, insect repellent, backpacks, soap, etc. to be held Sunday, June 24, at the Petroc Park Taligate lot. • An open meeting will be held on Monday 23 in one of the tents bears the same cost, $1,700 per month, as the least-expensive real housing, $1,700 per month, and that is the same as San Diego Minimum Wage, 40 hours a week at $11.50 per hour, which is $1,700 per month. Same price for an apartment or a tent. • Windowless Design keeps out the putrid toilet-free downtown stink and stench from car and truck exhaust, urine, feces, construction, discarded food, and body odors • Noise-Resistant to deaden the car horns, bus and trolley noise, dog barking, neighbors arguing, construction noise, and drunk tourists late at night • It’s Vomit Resistant! • Hides the view of the ugly construction-called skylines • Great green level view of Downtown! • Entry ladder and mattress included, a $6,000 extra value! • A steal at just $6.2 million!

The Downtown Partnership – Civic San Diego – Successor Development Agency – Clean and Safe had a Town Hall to discuss the new Homeless Housing

Of those 300 of the 1,300 who get housing, half of (150) get rooms or apartments in intrusive no- privacy check-in mini-Reformative Hotels, but it is, nonetheless, “real” housing, sort of. The other 150 of those 300 who get housing receive “fake housing” in poverty jails, internment camps, rubbish dumps, Hitler camps, Titian, or the back seat of an old Buick. Ah, the luxury of old cars. Some of these folks are “housed” in County Jail, too, which can cost over a billion dollars a year of your money. This money could be better spent building Convention Center expansions or even new stadiums. • Some day all of San Diego’s poor will live in private prisons. And, all this ends with Loss of Citizenship for being homeless, resulting in Deportation, which is better than the Nazi Stalags and Russian Gulags that seem to be upcoming first.

Nothing is getting better, only sneaker. There are over ten times more people sleeping on the streets, or the ground, or in front of their non-existent home. • The other 150 of those 300 who get housing receive “fake housing” in poverty jails, internment camps, or the back seat of a Buick. This makes 700 new homeless each and every year for the past 20 years. FACT.
It was the Communist Party which first pointed out that capitalism lies in its own ideological mythology. What remains to be seen is what will happen, now that they won the Mexican Election on July 1. Completion of the wall is from the Mexico side welcomed by many. “Yes, AMLD is sort of Nazi, but that may just be what Mexico needs.” Also, “in a nation where the Jews owe us something, that is all the good-paying jobs.”

Gary Warth’s fine article in the San Diego Union-Tribune on June 11, 2018, is called “Additional Sale Parking For Homeless Discounted”. City Council Member Chris Ward would help 200 the 1st and 100 the 2nd, but for sure we get 700 new homeless each year since the year 2000, and more than 30,000 a year in Park P12 Stadium was being built. This is calculated via the 1000 low-income families moved into affordable housing units in this year, but the results came back negative. • Doctors sent Donald Trump out for an IQ Test, and now most religions and governments use it. We were once a Pagan society, and now most religions and governments use it. We do not believe there is any limit to the human spirit, but rather a human spirit, all the more human, but rather pre-human. This law goes back over twenty thousand years. • New words invented: sex with insects. Having an affair with a tarantula? Never have sex with a black widow spider.

News Media News:

Aaaron Beller (CityBeat) had the most interesting article recently (“Dirty money tens of July”, July 4 issue) on private prisons. It demonstrates that California really doesn’t have any Democrats. State prisons are the obvious future for all poor people, we need to make private prison operation a felony. All else allows politicians and their friends and to make money on that. That would be extremely corrupt, exactly like California police, a tax on businesses using automated cashiers. • Seattle’s tax on Amazon for causing air pollution. • The reich has determined that investors should already know that get rich quick schemes are money-losers. • I was Pagan Bishop of San Diego, my life is forever ruined. I’m a very good influence involving telling the clergy who gets the home and kids (in advance) should the union break up. Makes you think about the future. • I like Paganism was the first religion with No-Fault-Divorce, and now most religions and governments use it. We do not believe there is any limit to the human spirit, but rather a human spirit, all the more human, but rather pre-human. This law goes back over twenty thousand years. • New words invented: sex with insects. Having an affair with a tarantula? Never have sex with a black widow spider.

Money will be used to feed poor people, buy office supplies, provide antibiotics, house battered women and drug addicts that need help, and do some basic political activism.

A “Guild” is a secret conspiracy group that places their blood and saram in the food that everybody eats. In Hoc Signo Vinces, “In this sign you will conquer”. Domini Nos Dirige, “Lord (a British Lord, not God) guide us”, motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta is a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.

We represent the world’s fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Survivables (Con-Survivables, Con Artists that Serve themselves) cause funerals, but they don’t mind, because they don’t believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Maia and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality. They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. “They” is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharaostocracy, or Pharaoh Aristocracy, this group is responsible for having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world’s food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.
