Correction, Thanks, Apology, Feedback

Correction: We gave the figure of the tents not helping any more than 1% of the homeless, which was a typographical error and should have been 10%. The point made was that most homeless are not being helped by any current plans, not because they refuse help, but because those plans were designed only for people who "fit" about a dozen different "plans". There is currently NO help for over 50% of our homeless, nor is there currently any new proposed help for those who do not fit the "plans". These plans deal with drug addiction, alcoholism, mental illness, veterans, children, the elderly, handicaps, violent crime, and a few more causes, but most homeless do not fit into any of those categories. People are homeless because the cheapest rent is more than jobs pay.

Thanks to all those who donated money and/or useful items to help recover from the major fire at our offices. Thanks especially to Kathryn Rhodes, Think Dignity, Jim Lovell, and Mark Smith.

Apologies that I have been far behind in my work here, with some loss of interest in it. I lost interest in being alive nearly a year ago, which is how homelessness goes. Much has to do with my being prevented from getting my prescribed psychiatric medicines for Dopamine-Related ADD (Attention Deficit Disorder), a disease caused by my becoming a Religious Victim. It only consists of a chemical imbalance in my brain, and does not affect my work, but it greatly affects how much fun or pain life is. I am doing my best to survive, dating a 20-year-old.

Feedback Tom Theisen, former Chair of RTFH (Regional Task Force on the Homeless) made this comment on the Advance (Provisional) Edition of this issue: Tom Theisen: "Hi John. I am out of town for the next 6 months. Took a quick look at your proposed newsletter, and generally liked it. My only comment was that there was no mention of the games RTFH played with the point in time count numbers. Lisa Halverstadt did a real nice story on this. Rather than going down by 8%, the number of homeless has probably increased since last year."

Article by Lisa Halverstadt: <https://www.voiceofsandiego.org/topics/government/of-ficials-excluded-hundreds-of-homeless-san-diegans-from-latest-homeless-census/> • We estimate (San Diego Homeless News) that the real number of homeless increased by 900 in the past year, instead of the usual 700 per year. See "Numbers" in the lower-right of this page.

Also in Feedback, there is still not room nor time to answer some of the questions regarding the alien planets and life forms, so that will have to wait until an edition with more available space and time. Sorry.

JUNE LEAD EDITORIAL

The Big Election is Over: San Diego Lost

Change will be minimal or not at all, with our government continuing to be 5 times more corrupt than Tijuana. We speak of Politicians losing elections, but it really isn't they who win or lose. It is We The People. A low voter turnout, apathy that anything useful can be done, pessimism, burnout, and even Big Money Politics is to blame. It is your fault, San Diego Voter, that we will continue to have 700 more homeless each year for the next 8 years, just like the past 16 years. It is your fault that a large percentage of our Black population will be unfairly Racially targeted and sent to jail. It is your fault that MTS will continue to become more Racist and the San Diego Police more violent and corrupt.

It is your fault, San Diego Voter, that the cheapest apartment rentals (non-subsidized) will continue to cost more than jobs pay. It is your fault that people get unemployed and end up living on the sidewalk, with NO HELP that is real help available for most. It is also your fault that the San Diego City Pension Fund has thoroughly bankrupted the City. It is your fault that nobody can get a decent job even after completing a college education. It is your fault that both tourism and businesses are failing.

It's your fault that San Diego will be forced into Chapter Nine Municipal Bankruptcy, even before the Real Estate Bubble bursts, cutting housing prices in half. All of this could have been prevented, but no more. You drank the poison and now wonder why you are so sick. The future will use for-profit and non-profit prisons, privately owned, to house a large percentage of San Diegans, private prisons being something that our corrupt leaders and their friends and families can make money on.

It's sad news but you can delude yourself by being In Denial. Stop blaming the government. Blame yourself for being so stupid as to believe what you believe and vote the way you do.

Dr. John Kitchin, NZ9F, for the Homeless Editorial Board, in Representation of the San Diego Homeless.

JULY LEAD EDITORIAL

The State of the Homeless Issue: A Historical Perspective on Homeless Innovations

As homelessness becomes more complex, its history and the mechanics of its operation require more and more editorial enlightenment so that people can understand it. Simple it is not. Above all, the press and media need to have reporters that understand the issues, so that they can provide adequate and unbiased coverage of the news as it applies to poverty. As the de-facto Historian Laureate of the San Diego homeless issue, 30 years an advocate and 11 years homeless myself, with 9 years Editor and/or

Publisher of the San Diego Homeless News, my task is clear. Educate.

Every 8 years, when the position of District Attorney comes up for new election, the City and County each give undesired and not-needed expensive things to the homeless. In 2010, six years into the Great Recession of 2004, there was a push to establish a new type of prison here, popular in Los Angeles. PATH, Persons Assisting (or Ass-kicking) the Homeless, wanted one of their inhumane prisons here, and Underground Press from all over the state and nation were at the City Council meetings involved, trying to block PATH because of their reputation in Los Angeles.

Out of the fracas which resulted was born the San Diego Homeless News. We were not able to block PATH Connections Housing, but were able to lobby successfully for their being run locally by Alpha Project, which at that time was one of the most humane institutions in San Diego, despite their Baptist affiliations. Traditionally, Baptists have blamed poor people for poverty and suggested that punishment is appropriate for that blame, meting out some form of emotional torture. Many more commit Indirect Suicide than become converts. "Connections" Housing is an appropriate name, as the word is used by the poor and dispossessed as a reference to the institutions and drug and Mafia gangsters who pimp for rich people. (Admiring my eloquence.)

That was 2010, the last time we had a "Reorganization" election before our June 2018 one. Key positions such as Sheriff, DA, and key City and County districts were up for grabs. In 2018 there were four times as many homeless (in truth but not in fake propaganda statistics), so the City moved to pacify its critics on the homeless issue.

Mayor Faulconer, who had closed the circus tent shelters after the departure of Mayor Filner, re-opened the tents. Other programs curtailed after Filner, such as sleeping in cars, were also re-opened. This year, the homeless got a new Sherman Heights Black Ghetto Possessions Storage Center, and a new Housing Navigation Center in the Father Joe's Villages Ghetto, near 14th and Imperial, downtown. Both are within the old "Bottoms Ghetto" where traditionally all the San Diego homeless were forced to move to the past 30 years. It used to begin on 6th Avenue, right in the present Gaslamp District.

Now, several issues, one at a time:

NUMBERS: The number of homeless increased by 900 last year instead of the usual 700 per year, because some of the housing money was used for other programs, such as the rubber tents. Normally, the 1,000 low-income housing units torn down each year are replaced by 300 new low-income units, but there were only 100 new units in 2017, leading to 900 new homeless instead of the usual 700 per year. Is this bad? Well, hundreds of homeless had tent shelters and such as a result. It is not progress, of course, because there has never been any.

MONEY: There will never be enough money to end the homeless problem in San Diego because the City and its largest Slum-Lord, Father Joe's Villages, insist on spending a minimum of \$300,000 for each and every one homeless housed. What? Okay, do the math on our last year's 17,500 (best true estimate) un-housed Categories One, Two, and Three

homeless (*), and the minimum cost to house us using present means adds up to **\$5.25 Billion dollars**, plus an extra **\$270 Million a year** for the 900 new homeless coming in since last year.

* Definitions of the different types of homeless are on [Preview Page](#), low down it, at NZ9F.com/SDHNpreview.

Whoever is doing the math on all this couldn't balance a checkbook. Tiny Homes, proposed by Amikas.Org and earlier (2011) by Floyd Morrow (who helped end homelessness in Tijuana) would cost only \$2,000 per homeless person housed, which is \$35 million total, but under our present system that \$35 million would only house 100 homeless, not 17,500. Get real, okay? Fire your Accountant. That helps everybody. Cooking government books never produced anything useful. The real current number of homeless is last year's 17,500, plus 900 since then, or 18,400. I welcome your disagreement, too.

ILLEGAL LODGING: The City was ordered by the Federal Court System to allow the homeless to sleep overnight unmolested by Fake Outreach, between the hours of 9 PM to 5:30 AM, 7 nights a week, forever. This was since modified to exclude downtown San Diego, and you can only be ticketed for Illegal Lodging if there are no shelter beds available. That proviso was to get San Diego to build more shelters. Instead City contracted with shelters to keep some beds vacant, so that they would always have "vacant beds", although none of them can become filled, and shelters turn people away, not giving them those vacant beds. These beds must remain vacant, per contract. Full? No. Space is available, but no one will be accepted into the shelter to use those vacant beds, because they must remain vacant, by agreement with the City of San Diego. Understand? Your tax money in action!

POSSESSIONS: Now we have the same thing likely to occur with storage of street possessions. The City may now warn just 3 hours in advance of mass destruction of street-homes instead of the 72 hours (3 days) required previously for the past 8 years or so. So, the City can force homeless to move every 3 hours, but where? The next block down? They can only do this if there is a storage area for those possessions that has space available. So, of course, there will be **storage space contracted to be available but which no one may use**. Same scam as the shelter beds that are vacant but not available.

The biggest abuse possible (the City always looks for those kind of loopholes) is for homeless in La Jolla to be forced far away into Black Sherman Heights via the Three Hour Harassment Plan. No word on that abuse, but the rumor is that homeless can only be forced to move 4 to 6 city blocks, so maybe La Jolla wants a homeless storage center there, to get all the junk off the streets. Good plan, but with huge abuse potential, and the City makes sure it abuses each and every legal loophole to its maximum.

A current abuse recently uncovered is that the new storage bins at the new Sherman Heights homeless storage facility are too small to be useful.

Our biggest need for storage is at the Downtown Library, so homeless can use it without placing all their belongings at risk outside. And, of course, wi-fi needs to be turned on 24/7, too. Oh, you want there to be wi-fi in Sherman Heights, instead? **Moving the homeless has even more opposition than leaving us in our long-ago designated area, The Bottoms of East Village. If you bought real estate, were you not warned?** I see both negatives and positives in the new homeless storage 3-hour-notice plan.

HOUSING NAVIGATION CENTER: Navigate what housing? The rubber tents cost the same per person as the least expensive apartments or rooms in San Diego, about \$425 per person per week. Who is making huge money on the rubber tents? How are the books being cooked? This is government, not Enron. The accounting sucks so bad that the fraud and waste are obvious. Fairy tales do not solve economic issues.

Back on point, a Housing Navigation Center can only find real housing, but we do not have any. The Town Hall Meeting held June 20 (See "Meetings", next group of articles) regarding this issue had the Mayor's Representative suggesting that we need to re-define "housing" to include rubber circus tents, Hitler-camps, poverty prisons, and other schemes. Well, we largely already did that, but it didn't change the real numbers.

Here is the Homeless Issue, for Dummies:

The City tore down 1,000 low-income housing units each year for the past 20 years, and 4,000 during the building of Petco Park. FACT.

Of the 1,000 additional homeless created by those 1,000 units torn down, 300 get new "housing" every year, the other 700 being flushed onto the sidewalk. This makes 700 new homeless each and every year for the past 20 years. FACT.

Of those 300 of the 1,000 who get "housing", half of them (150) get rooms or apartments in invasive no-privacy check-in-at-the-main-desk restrictive hotels, but it is, nonetheless, "real" housing, sort of.

The other 150 of those 300 who get housing receive "fake housing" in poverty jails, internment camps, rubber circus tents, Hitler-camps, or the back seat of an old Buick. Ah, the luxury of old cars. Some of these folks are "housed" in County Jail, too, which can cost over a billion dollars a year of your money. This money could be better spent building Convention Center expansions or even new stadiums, right? Someday all of San Diego's poor will live in private prisons. And, all this ends with Loss of Citizenship for being homeless, resulting in Deportation. That's better than the Nazi Stalags and Russian Gulags that seem to be upcoming first.

Nothing is getting better, only sneakier. There are over ten times the suicides (Direct or Indirect) than County admits. Stuff like this, and Police Brutality, along with the mysterious deaths in the County Jail, are why it is important to have a corrupt District Attorney. After all, you might want to murder someone in Coronado (or County Jail) and make it just look like a suicide, right?

Currently, attorneys are intimidated into not proving the corruption, lest they be murdered or disbarred. Mexico is the same way. When we say that San Diego is 5 times as corrupt as Tijuana, we are talking dollar-value, of course, because there is no other way to measure it. There is more money in real estate corruption in San Diego than drug corruption in Tijuana.

Sorry about the slight ramble, but that was necessary, to fit all of the related homeless issues into a single editorial. This was an editing nightmare.

Action shots called: Vote out all Incumbents, so as to not reward failure. Support the Sherman Heights residents and East Village Residents in our disapproval of the new Homeless Storage and Housing Navigation Centers. Complain about so much tax money wasted. Rework all of the fake accounting on the homeless issue to make it less of a laugh or at least less obvious as a fraud, okay? None of these things are something to laugh about. Keep it real, the opposite of the City Propaganda Dept.

Collaborative Project of the San Diego Homeless Editorial Board, edited by Dr. John Kitchin, NZ9F.

SIDE SHIT: The Housing Navigation Center is really a Services Center, not housing, helping to find what program, if any, that a particular homeless person will fit. **Over 50% fit no program at all.**

This begs the problem that "housing" will be found in an abusive (religious) setting, seeking to use Human Spirituality (blood and semen in food) to brainwash and hypnotize the less-intelligent into beliefs in the bible, religion, Jesus, heaven, hell, Satan, and other complete nonsense. **VOMIT NOW.** It all reeks of the British Bar trying to regulate religion and the news media, prohibiting Free Press and Repressive of Anti-Royalty ideas. We killed a lot of those Racist, Classist, Slave-holder Queen Motherfucker Brits back around 1776. Australia was actually a prison camp for poor people unjustly convicted of Trumped-up "crimes", hence the term "Kangaroo Court". Here in the Americas people were burned to death for being "witches" instead. British Empire Imperialism (sounds redundant to me) sought to steal all of the land, people, and resources in the whole world, and our fucked-up military, Racism, Sexism, anti-LGBT, Classist puke are holdovers from these royal assholes.

Meetings

The Basic Dignity Coalition met June 7, 2018, at the Monicker Warehouse in East Village, downtown San Diego. 19 were present, which is well above average for this time of year. The group included 3 attorneys, 3 press, 4 Blacks (rare) and 8 new people (also rare). • The Tony Diaz case which challenged the Constitutionality of San Diego's ban on sleeping in cars has been lost. • The other lawsuit on the car sleeping topic will proceed in court, a Class Action suit by Disability Rights California. • There are now ten shower sites. ThinkDignity.org. • It was again pointed out that MTS granting Disability status for bus and trolley use is very complicated and probably violates HIPAA. When applying for a disability permit, use NCTD, North County Transit District, which follows applicable laws. • Summer Survival distribution of needed gear such as sunscreen, insect repellent, backpacks, soap, etc., to be held Sunday, June 24, at the Petco Park Tailgate lot. • It was noted that each person staying in one of the tents bears the same cost, \$1,700 per month, as the least-expensive real housing, \$1,700 per month, and that is the same as San Diego Minimum Wage, 40 hours a week at \$11.50 per hour, which is \$1,700 per month. Same price for an apartment or a tent. ♦♦♦♦♦ This group also met July 5, 2018:

Real Estate Department:

Affordable Housing Now Available in San Diego!

• **Windowless Design keeps out the putrid toilet-free downtown stink and stench from car and truck exhaust, urine, feces, construction, discarded food, and body odors** • **Noise-Resistant to deaden the car horns, bus and trolley noise, dogs barking, neighbors arguing, construction noise, and drunk tourists late at night** • **It's Vomit Resistant!** • **Hides the view of the ugly construction-filled skyline** • **Great ground level view of Downtown!** • **Entry ladder and mattress included, a \$6,000 extra value!** • **A steal at just \$6.2 million!**

MEETINGS, CONTINUED

The Basic Dignity Coalition also met July 5 with 11 present. • Over 200 people were helped at the Summer Survival Stuff give-away, plus pet foods were given out and there was a free veterinarian. The next give-away of basic needs will be between Thanksgiving and early December. • Think Dignity sponsored a Teach-In in Southeast San Diego, covering arrest rights, immigration rights, and more. • Today's main topic is the decriminalization of homelessness. A lot of problems with tickets given by MTS on the trolley, and Think Dignity has advocated discounted passes for the poor and homeless, since MTS does not collect any money on the tickets issued now. There has not been much cooperation. • Also, on decriminalization advocacy, here is the plan: 1.) Humanize the homeless. Talk to them. 2.) Volunteer with an agency. 3.) Attend City Council Meetings. 4.) Call out local officials via telephone or letter. 5.) Use the Social Media for a grassroots effort. 6.) Document police harassment. • It was lamented that all of the work that went into the Portland Loos did not shift the culture at all. • A new poverty slogan that is now being circulated: **Love is for Suckers.** Gay Pride Parade is Sat. July 14, 11 AM, and we march with ACLU. • The City of San Diego Homeless Committee meets July 30, 9 AM, 12th floor of City Hall, 3rd and C. ♦♦♦♦♦

The Downtown Partnership – Civic San Diego – Successor Development Agency – Clean and Safe had a Town Hall Meeting to discuss the new Homeless Housing

Navigation Center, June 20 at the Downtown Library, with 67 people present. This is planned for the old Indoor Skydiving building located a block or so from the 12th and Imperial Transit Station, and a block or so west of Father Joe's Villages. So far, this Center is opposed by the East Village Residents Group and also by the homeless (see Editorial in this edition).

Mexican Elections:

It was the Communist Party which first pointed out that Morena, the Brown Party, had ties to Nazi ideology. What remains to be seen is what will happen, now that they won the Mexican Election on July 1. Quotes from people I interviewed include, "Yes, AMLO is sort of Nazi, but that may be just what Mexico needs." Also, "In a nation where the Jews own everything and have all the good-paying jobs, what else could you expect from a Reform movement?" Well, Hitler was a reformist third-party candidate who promised peace between the Germans and Jews. He posed for photo-ops with both Christian and Jewish leaders, too. AMLO, Andres Manuel Lopez Obrador, got over 50% of the popular vote, the Democrats (PAN) and Republicans (PRI) getting only 20% each. I see no anti-Black Racism in Mexico, but considerable anti-White Racism, and whether or not AMLO makes a deal with the Jews is uncertain. In the United States, the Bar is our secret Mafia group that runs the government, and it has two sections, the Democrats and the Republicans. In Mexico, "M" is the Jewish Mafia that runs the nation. It looks to me that AMLO will have to make some deals if he even expects to stay alive.

News Media News:

Aaryn Belfer (CityBeat) had the most interesting article recently ("Dirty money times ten", July 4 issue) on private prisons. It demonstrates that California really doesn't have any Democrats. **Since prisons are the obvious future for all poor people, we need to make private prison operation a felony.** All else allows politicians and their friends and families to make money on same. That would be extremely corrupt, exactly like California politics.

Gary Warth's fine article in the San Diego Union-Tribune on June 11, 2018, is called "Additional Safe Parking For Homeless Discussed". City Council Member **Chris Ward** would help 200 the first year and 100 the second year, but of course we get 700 new homeless each year since the year 2000, and more than triple that when Petco Park Stadium was being built. This is calculated via the 1000 low-income units torn down each year, minus the 300 low-income units built to replace them. Currently a thousand sleep in cars, but only 150 legally. The "new" plans discussed involve **Job Training** (like we already have) and **Rapid Rehousing** (which generally does not work in San Diego because of low wages and high rent prices).

David Garrick reports that **Disability Rights California's Class Action lawsuit** may proceed to court, in his article "Suit to stop RV parking ordinance to go forward", San Diego Union-Tribune, Page B2, June 12, 2018. This would legalize sleeping in cars and RV's.

Gary Warth reports in the San Diego Union-Tribune, "**Storage For Homeless Opens**", June 13, 2018, Page B-1, that there is a new homeless storage center in Sherman Heights, despite resident protests. It is open 7-7 Mon. thru Fri. and 8-11 Sat. and Sun., which is longer hours than the current storage facility, operated in East Village. The new storage facility is operated by Mental Health Systems, which once had a reputation for a lot of disorganization, but which has undergone several radical changes. We all hope it goes well. So far, the storage bins are too small.

A new **homeless and low-income project in Hillcrest** has been proposed which would have 111 housing units on 6th and Robinson. It uses 35% more units than current zoning will permit. Designed for **Very-Low-Income** people, earning only \$39,000 a

year, which is only about **\$20 an hour, 40 hours a week.** **David Garrick**, SD-UT, June 13, 2018, "Project Could Help With Housing".

Ray Lucia's "Buckets of Money" will no longer be referred to as "Buckets of Fraud" because the courts ruled that investors should already know that get-rich-quick schemes are money-losers. Not his job to teach you that a \$5,000 Bic pen is not worth it. Stupidity rules, and that is why we don't have a queen, except maybe in Hillcrest, and there we are proud of our Royal Family.

AT&T is purchasing Time-Warner-CNN, creating a new entertainment monopoly.

A **UCLA study** has determined that **homelessness is caused by high housing costs.** **Andrew Khouri**, San Diego Union-Tribune, Business Page C-3, June 14, 2018. Housing goes up in price, job rates decline, wages decline, and the process is expected to greatly increase the number of homeless, ongoing.

Rules for short-term housing rentals have been proposed, which would limit same to 2 per owner except in Mission Beach (no limit). This will reduce the amount of housing available to San Diegans, and it was crafted by persons with **Conflicts of Interest.** The retirement fund programs of both the Democratic and Republican political parties in San Diego are heavily invested in San Diego real estate. Only **Barbara Bry** (D-La Jolla) has ever Recused herself on a real estate rules issue. "Falconer Proposes Rules For City's Short Term Rentals", SD-UT June 14, 2018, **Lori Weisberg and Rob Nikolewski.**

"**SD Tent Shelters Fall Short of Permanent Housing Goals**", SD-UT John Wilkens, Front Page, June 17, 2018. The shelter **success rate is only 12%** who move on to housing, not 35% as promised.

In the same issue, cartoonist **Steve Breen** shows a homeless man using newspapers for a blanket, those newspapers advertising real estate rentals and sales.

PHARISTOCRACY • SWISS NAZI TEMPLARS

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vinces, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us", motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.

Being homeless on the sidewalk is a lot like being at the zoo, except you're the exhibit.

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.
