

San Diego Homeless News

December 30, 2019 • **San Diego's Underground Newspaper** • Our Tenth Year

CORRECTING THE CLASS WARFARE LIES WHICH PERPETUATE HOMELESSNESS

Death Season Continues!

In This Issue: News and Education, Meetings. Way more left out than included, and this edition WAS NOT EDITED.

More wasted money, more propaganda, more spin, more deaths, more government and news media corruption, more confusion, and less housing, per usual.

When practical to post an advanced preview, view this newspaper becoming assembled at NZ9F.com/SDHNpreview. • There is also a Media List if a "Proposed" Edition is issued, and you can get onto that e-mail list and comment before or after publication at nz9f@hotmail.com, or on Facebook at facebook.com/San-Diego-Homeless-News-1477984309115791/ Donations are accepted at Paypal.Com, Account nz9f@hotmail.com.

There was no November edition. And, this is the weakest edition in years, but it got published.

News, Non-News, Fake News, and More Media-Sponsored Propaganda

Getting this edition out at all was a big challenge, with bad weather, excessive lines to cross the border, and even the death of one of my best friends. My stroke, and the Clinical Depression (non-standard) that everyone is refusing to treat me for, contributed heavily. I am only out of bed 3 hours a day. I am not sad nor depressed at all. I have Asperger's Syndrome, the same disease as Greta Thunberg, and am possibly the oldest person with the disease. I have seen or tried to see all 57 Psychologists and Psychiatrists on the list of doctors who accept my health insurance plan. No takers. Each of them has different advice, too. I will do my best to at least touch upon that which is important.

Impeachment, of course, is the most important news in the last 40 years, and I was personally involved in many related issues. When Nixon faced Impeachment, I had "Impeach The Bigger" bumper stickers printed, and wrote scathing editorials in the nation's newspapers. He had to resign, because a deeper investigation would have brought out his role in the death of President Kennedy, Robert Kennedy, and Martin Luther King. Donald Trump faces the same problem, which is why he has been withholding evidence and testimony. At stake is the revealing of hundreds of extremely serious crimes, but Trump controls the FBI, CIA, NSA, Justice Dept., and even the Military. It is only the news media that he does not control, and he even has a slice of that, promoting complete BULLSHIT. The solution? A six-year trial in the Senate, which ends with different Senators than it started with. Yes, that cannot happen.

The Impeachment of Bill Clinton was purely political, and Ken Star, who investigated the Whitewater real estate matter, admitted he knew Clinton was not guilty, but continued the matter as harassment. In the end, Clinton was convicted of lying to Congress, about having sex in the Oval Office. First of all, how many times has Donald Trump lied to Congress? Every day? Secondly, you get to lie about your sex life, unless it involves children or rape. Monica Lewinsky was an ordinary Intern, doing what political Interns did in that day. Nowadays these bodily functions are done by Lobbyists. That's awful? Yes, but what is truly awful is that the news media help to cover it all up.

I seem to be the only Journalist (if you consider me that) in San Diego who has a beat of Corruption in Journalism. Everybody else gets fired for that. The purpose of Underground News is to tell the public what the government is using the news media to hide. Working together, governments and media can hide the proof behind anything, so Underground News involves things that are true but cannot be proven. Unless, of course, you violate the Official Secrets Act, and do 30 years in prison. You can talk or write about

anything you want, but providing proof is a big felony. If you ask me for proof, you are attempting to conspire to commit a Treasonable Act. I have to report you to the FBI or I become a co-conspirator. Other countries just send secret police to kill Journalists for knowing too much. Born with Asperger's Syndrome and excessive intelligence, I have known way too much all my life.

More News:

According to **Matt Potter** in the **San Diego Reader**, (Under the Radar, Nov. 21), **Mayor Faulconer** is stumping for a new job elsewhere, selling himself as an expert on **how to beat homelessness**. Time Out! That's as laughable as Donald Trump being an expert on creating successful new businesses. Faulconer did more to waste homeless abatement money and cause more homeless via Redevelopment than any other Mayor, except perhaps Mayor Jerry Sanders.

The two tore down nearly 40,000 low-rent housing units, claiming them "blighted", and that resulted in 40,000 homeless. In San Diego, "blighted" is any hotel room or apartment that rents for under \$500 a week, (not per month) such as the many which rented for \$25 a week or less. Rents were increased over 2,000% (two thousand percent). Then, these Mayors initiated Cover-Up and Disinformation campaigns to lie about the number of homeless being only 9,000 and going down. Lots of smoke, lots of mirrors, lots of "cooperation" (bribes and political favors) with San Diego's notoriously corrupt news media, and all of that cooking of the books equals "success". Expert gurus were actually brought into San Diego because they were so good at cooking the numbers.

Today, we only count 10-20% of San Diego's homeless, plus we use famous Public Relations firms to buy off the news media, adding maximum confusion. It's sort of like how Donald Trump buys off Fox and Friends. Make America Great Again does not mean Make America Stupid Again. Your Editor wants to be appointed an Ambassador? Faulconer would actually make a good one of those. Diplomacy is sort of like fried bullshit, and I am no stranger to that. I did a little bit of Public Relations for the State Dept. using shortwave radio, 40 years ago.

Praise Mayor Faulconer for quintupling the price of real estate in some areas, causing many new billionaires. Your house is now probably your biggest retirement asset. Did he fail at Soccer City, a downtown Chargers stadium, a Mission Valley stadium and (soon) a Convention Center expansion? No, he never really backed any of that. Those were things that his Ruling Class donors wanted, not him. Failures, zero, except the homeless issue, and that was not really a failure, either, depending upon your perspective.

I address this particular issue in my article "Faulconer's Mess", in this edition. It comes to the conclusion that not understanding the homeless problem was the thing that did the most damage.

Yet More News

In addition to the usual story about the "new" winter shelter that opens every year, there were several more non-news news articles.

Years ago, San Diego cited a Court Order or Court Settlement that it had to open a homeless shelter because it got caught tearing down so much low-rent housing. The City Council argued for years where to put the rubber tent, and usually Barrio Logan,

represented at that time by now-Mayor Kevin Faulconer, lost the contest and had the shelter. It didn't have to be open until December, so some years the homeless died of pneumonia on the sidewalk in November. The several times I was forced to hit the sidewalk, I could never get a shelter bed. San Diego has over 40,000 homeless, at least 5,000 on the sidewalk at any given time, and (full) shelter space for only 4,000.

Plans that include building 5,000 rental units for the 5,000 San Diego sidewalk homeless fail to account for the fact that we have 35,000 homeless that are NOT on the sidewalk today. Wait until tomorrow. **Each and every night we have a DIFFERENT five thousand homeless on the sidewalk, understand? There are a total of 40,000 homeless in San Diego, and it is a game of "musical chairs". Each night 35,000 manage to scrape up some sort of temporary place or hiding place, and the other 5,000 are on the sidewalk in plain view. Housing those 5,000 will only result in a different 5,000 on the sidewalk, but the number of homeless would go down from 40,000 to 35,000. Understand?**

Can you afford triple the property-taxes to help pay for replacement of all the low-income housing which Redevelopment tore down? Can you afford your rent? Does your employer force you to be a slave, because loss of your job would immediately make you homeless? Sorry, just asking the right questions. ••

The PBS Frontline program "Zero Tolerance" covers exactly how President Trump got his lunatic ideas, and exactly how he managed to develop them into a Presidency. A must-watch. Aired Oct. 22, 2019 and can also be had online. <https://www.pbs.org/wgbh/frontline/film/zero-tolerance/>

Faulconer's Mess:

I am greatly inspired by **Greta Thunberg** in that she took **Time Magazine's "Person of the Year" award**, founded a new **Climate Change movement**, and also demonstrated what those of us with **Asperger's Syndrome** can accomplish. Kudos. I suffer from the same disease, if it gets considered a disease as opposed to a new evolutionary brain advancement. People looking at my brain scan usually want to distance themselves from me. 57 Psychologists or Psychiatrists don't want me for a client.

Thunberg had the guts to tell a Climatic Convention that they are all hypocrites trying for an accord that sounds wonderful but does nothing of any change nor sacrifice. My message to Mayor Faulconer and San Diego is the same: Nearly all the homeless money spent in the past, present, and planned future is wasted on things that sound nice but have no value except propaganda and Public Relations. We are spray-painting an old rock and calling it solid gold.

Do we build new housing? No, we build institutions to care for drug addiction, mental illness, crime, alcoholism, and also poverty prisons, instead. And, we invest in Housing Navigators to try to convince homeless that poverty-prisons are somehow housing. It is the concept of the Poor House, going way back before the (first century) London Salvation Army to the Ancient Romans and Ancient Greeks. Their message: You are a meaningless oaf, devoid of all worthiness as a human being. You are a scum, a problem for those of us with wealth, demeanor, position, and purpose. We need to find a way to exterminate you unworthy people, as you worship us

in thinking that our words represent God. There. It is the attitude that prevents homeless dignity and perpetuates Repression.

Invited to dine with the RTFH (Regional Task Force on the Homeless) at the end of the 2016 season, I was treated awful despite my intellect being superior to most of them. I was the homeless one. I had covered two years of meetings of their organization, as a Journalist, and continuously had to field the question from spectators at meetings, "How come you are the only one here making any sense?" It's complicated. I would refuse twice the opportunity to be on that board, because it would be a recipe for disaster, not change.

In the homeless issue today, we are encouraged to lie, saying that we have some problem or issue that we really do not have. This is used to bring in federal money to treat alcoholism, drug abuse, mental illness, and whatever else can be made up. Lie and admit to a problem, or you don't receive any help. Hence, services that are not necessary abound. That is the concept of "Unnecessary Professionals".

Even hypnosis, the kind used by religious ministers, is used to convince the homeless that they have some kind of a problem that they really don't have. Homeless become convinced. San Diego brings in lots of federal money. The children of wealthy people find jobs when they get out of college. Everybody is happy running an enormous scam that pays really well. Except that my people are suffering as a result. Unnecessary Psychiatry is as bad as shooting puppies for sport. That comes from a Psychologist, too, whether you believe in me or not.

Money – Waste – and Politics

Money earmarked for the homeless problem goes to nonprofit organizations, to avoid having to take bids from for-profit companies. Then, the non-profits hire for-profit corporations to do work for them, often construction, spending that money. After that, the for-profit companies donate politically back to the politicians, in addition to hiring their children, grandchildren, friends, etc. Other favors are often also involved. I volunteered both with the Red Cross and the American Cancer Society, and in roles where I came to understand the inside workings of nonprofit organizations. Editing underground news gave me a good feel for the inner workings of government, too.

The news media have always cooperated, encouraging donations to nonprofits that will figure out a way to re-purpose the money into politics, without actually doing anything important with that money. Your donation will find its way to a wealthy construction firm, which will donate it to a political candidate. Thank you for your generosity and your stupidity. Some solutions build new housing, but if we build 5,000 apartments for those on the sidewalk tonight, what about the other 40,000 to 75,000 who are not on the sidewalk until next week or next month? What you see on any one day is just one frame from a very long movie. An entirely different 5,000 people will be on the sidewalk one day later. **I do cover solutions in the Meetings section.**

Fake News:

Every year in January, San Diego County and the RTFH, Regional Task Force on the Homeless, conduct the Annual Fake Count, called the Point-In-Time Count, required by HUD, the United States Dept. of Housing and Urban Development. This is intended to count those homeless living on the sidewalk during the one night of the count. I always had a motel voucher given to me by the College Republicans, valid for that one night only, so I never got counted on the sidewalk on Count Night. It was nice getting a hot bath, B & B food, ice, and a relaxing night watching HBO. Loved it. Free coffee and a pizza in Hillcrest.

The problem with counting one night is that an entirely different group of people is on the sidewalk each night. There is a data-base of 80,000, and 10%, a different 10%, are on the sidewalk each night. Since we have shelter space for 3,000, the City and County want to build housing (probably drug and mental hospitals, not real housing) for the 5,000 counted as on the sidewalk but not sheltered. Okay, but if you do that, the number on the sidewalk will not change, just become a different 5,000 people. You will, however, change the total homeless from 80,000 to only 75,000. Do you understand?

We use the number of homeless 40,000, figuring that about half in the 80,000 data-base have found some sort of a permanent housing solution, such as death or leaving San Diego. The San Diego County School District estimates 26,000 homeless in families which have children in their district. The 2016 census of homeless found 17,500 people who asked for help because of being homeless. An unscientific survey of poor people in San Diego indicated that 15,000 were

homeless but refused to give their personal information to avoid lifetime retaliation and Repression. I am in this group. Persons contributing to the writing of this newspaper need to stay anonymous to avoid being on the black-ball list, and never getting a GOOD job nor GOOD housing, the rest of their lives. Understand? Paranoid? No, extremely fearless, the opposite of Paranoid. I can speak up because at Retirement Age plus poor, I am not likely to get a decent job nor housing anyway.

Some of the homeless never counted live in unheated garages with no electricity, sewer, nor water. Some live in the attics or crawl-space basements of relatives. Some live in storm sewers. A few live in ocean caves. Many live in rural encampments, east of Alpine or east of the Anza-Borrego State Park. No attempt to count them has ever been done. That might cost a million dollars to do.

San Diego (city and county) tore down 39,500 low-cost rental units the past 25 years, resulting in 39,500 homeless. That's the long and the short of it. So, welcome to San Diego, America's Homeless City.

Governor Newsome and Donald Trump spar over who is responsible for California having double or triple the homeless of the other 49 states combined. Trump even blames Nancy Pelosi (D-San Francisco) for the homeless problem, but SF is one place that the problem was handled correctly, a project of the San Francisco Chronicle newspaper. In San Francisco, homeless do not have to sue the city and police department for their RIGHT to live on all public sidewalks.

The United States Supreme Court recently refused to hear an Appeals Court appeal, which involved the homeless of Boise, Idaho, claiming they had a right to live on the sidewalk, in violation of local ordinances. That makes all arrests of homeless on the sidewalk, nationwide, illegal, including arrests for Encroachment, which means having your tent, backpack, or sleeping bag on the sidewalk. San Diego never follows laws dealing with the homeless, so expect billions of dollars in lawsuits to follow, which is not good use of your tax money. The number of lawsuits claiming real estate fraud supported by the City and County currently tops a quarter of a million lawsuits pending. Makes you want to invest in real estate, right?

Not ready for this edition: A whole lot regarding Impeachment and lots more done by the Trump Administration. **Did you know that Trump reduced SSI benefits from \$650 a month to \$515 a month, nationwide?** In California, the state is making up the \$135 deficit each month, to avoid starvation and death. If you are a Journalist and write an article about some of these things, you will probably lose your job. I suppose that is better than being shot to death, like in many countries, right? There have been attempts to kill me because of the type of Journalism that I do. There were both police reports and intelligence reports on these attempts, but secrecy is probably the best medicine.

In Presidential Politics, the only slate I see for the Democrats is Sanders-Warren, with Joe Biden getting his choice of any Ambassador or Cabinet position. If Sanders would have been nominated in 2016, he would have been elected, but would have been Impeached purely out of politics. Russia had 8 people working for the Democratic National Committee murdered using covert spy substances, in order to make Hillary Clinton, and not Bernie Sanders, the nominee. Hillary knew nothing of this. That's why the Mueller Report is so heavily censored, and why the Trump Administration refuses to allow testimony and other evidence. Sorry, doing this is my job. Get used to it.

Trump is trying to use FEMA death-camps as new homeless housing, in addition to for-profit prisons. Gary Warth wrote an article Nov. 10 in the San Diego Union-Tribune called "Homeless Conservatorship Tried", but fails to mention that the self-reporting of 43% mentally ill and 23% substance abuse among the homeless has to do with Outreach workers telling the homeless they cannot get help unless they pretend to be one of these things. I was personally encouraged to think that I had Bipolar Disease, but since I have a Ph.D. in Psychology that made no sense at all. One nut-case Psychiatrist of the 57 I've seen tried to convince me I had Schizophrenia. I made the comment that his action was Schizophrenic, not mine. I write a summary on the Homeless-Owned Website, NZ9F.com/MH. MH is Mental Health Page. A must-know for all those who are homeless, plus all those who deal with homeless.

Homeless Navigation Center: Located downtown, all you need to do is somehow get all of your belongings down to the East Village from La Jolla, Escondido, or Vista, if you can. You must enter the homeless data-base, which will guarantee that you never get a decent job nor housing the rest of your life. This black-ball list is part of CES, the

Coordinated Entry System. **We call Mayor Faulconer's "Connect-Support-House" program by its real name, "Confuse-Repress-Imprison", for its concept of criminalizing homelessness. Under Faulconer, San Diego wastes ten times the money of ever before, all of it spent on programs proven not to work out.**

Meetings:

There will be no meeting of the Basic Dignity Coalition on Jan. 2.

Think Dignity's Basic Dignity Coalition met on Nov. 7 and Dec. 5, the first Thursday of each month, and information on same follows. Think Dignity (dot org) is a nonprofit that helps the San Diego homeless.

On Nov. 7, there were 10 persons present, which is average for November. • The shower trailer program was explained to students at USD. • Voices of Our City Choir, an affiliated group, attended a Mayoral forum. One Republican is running for Mayor of San Diego, Richard Hanson, in addition to the three Democrats, previously reviewed. • Jean Fisher continued her talk on "Homelessness is Elder Abuse", suggesting that the elderly automatically get entolled for a free cell phone, Medi-Cal, food stamps, SSI, and rent subsidies all at the same time. If you wish to advocate for the elderly, contact her at jefisher@aquadog.net.

On Dec. 5, there were 13 present, including the Chief of Staff for City Council Member and Mayoral Candidate Barbara Bry. She did respond to my idea that voucher programs are actually starting to work, after basically 30 years of failure. That is a plus. It took a law that landlords MUST accept vouchers, plus it took prosecution of those who did not. • **Giving Tuesday**, four days after Black Friday every year, raised over \$2,000 for Think Dignity, plus another two thousand from an anonymous donor-matching contributor. The money will be used for legal advocacy, paying staff attorneys, showers, legal referrals and those other things that Think Dignity (dot org) does. • **Voices of Dignity**, a different committee of Think Dignity, attended meetings of public officials in an attempt to de-criminalize homelessness, and also attended meetings of the **MTS Board** in order to try to obtain free or low-cost bus passes for those homeless who are out looking for work every day and have no transportation. This particular problem is now in its eleventh year of trying to be negotiated, with no success. • **Voices of Dignity** also outreached third graders at several schools with a podcast of homeless awareness. Children growing up in society are often encouraged to look down upon the homeless, considering them inferior, and blaming them for becoming homeless. What is needed to overcome this thinking is early education in the truth, that the homeless are exactly the same as everybody else, and only became homeless because of all the inexpensive housing being torn down. Bravo! **The San Diego County Unified School District Board counts 26,000 homeless, even though the City of San Diego only admits 7,000, county-wide.** Our numbers, which include those homeless unwilling to provide their Social Security numbers and bank account information, is **39,500 homeless in San Diego County.** This includes an estimated 15,000 homeless who hide instead of being counted. I am in this category. We do know that 17,500 persons requested help for the problem of "being homeless" in 2017, the most recent update available, and we know that the Homeless Data-Base is or has been 70,000 people. Once again, that does include an estimated 15,000 who refuse to give their information, because they want to someday have a job or an apartment, as opposed to being refused due to a previous experience as being homeless. Once on the list, your life is over, because it all gets leaked everywhere. The stigma of having once been homeless is one of the major reasons why homelessness perpetuates itself. • HEAL was present, Homeless Empowerment through Art and Leadership, and they are currently selling homeless art. Our opinion in general has been that choirs, art, cleanups, churches, meetings, and other activities merely distract the homeless from their role in advocacy and protest. • **It was mentioned that many elderly San Diegans are currently losing their homes.**

My contribution to the meeting included the fact that we still do not have enough downtown toilets nor trash receptacles, plus there are no showers. It was mentioned that Father Joe's Villages has showers, but those are only for those living there, which we consider a prison. Enroll for prison, and you get showers. Else, you must travel out of downtown to get a shower.

Solutions:

I was asked for my analysis of what would cure the San Diego homeless problem, and I answered that building new apartment buildings might work. Both HEAL and the representative of Barbara Bry wanted my input. **Most of the homeless want to live in ordinary apartment buildings that are NOT institutions, communes, help agencies, just regular apartments.** I want to have a landlord that is NOT a warden, nonprofit organization, religious group, government agency, disguised government agency, or even a real estate developer. Years ago, ordinary people owned apartment buildings as a retirement investment, and they operated them themselves.

I propose the building of as many as a thousand 40-to-60-unit apartment buildings using no taxpayer money, and enabling ordinary San Diegans to enter the apartment rental business.

Loans would be arranged to permit these buildings to be built, and the City, County, and State would hold a lien and make some sort of a loan guarantee to the banks. The government may be able to purchase loan insurance, if needed. To qualify as a landlord, you must have lived in San Diego at least 20 years, have no criminal record, not be involved in other real estate nor development the past 10 years, and you must be an individual or couple, not any sort of a business nor corporation. You are an ordinary San Diegan, of any Social Class, and you will be given schooling on how to manage apartments. You may be wealthy.

You must live in the building, and it must be your only residence, worldwide. You must employ a caretaker or caretaker couple, plus a security guard or security couple, and all must live in the building. If you are wise, your caretaker and security guard will both be good at repairs, maybe one is a plumber and electrician and the other a locksmith and painter.

END OF MEETING. END OF MEETINGS SECTION.

Quotable quote: Think of Bridge Housing as a no-kill animal shelter for humans. Then it makes sense.

Asperger's Syndrome Summary:

I promised to write a treatise on Asperger's Syndrome, the interesting disease that I share with Greta Thunberg. It will take months, will then need months of editing, and is an extremely major project. I will, however, write a summary here:

Asperger's Syndrome did not exist in the United States for many years after being discovered in France, Germany, and Austria. Considered a form of Autism, treatment is via the drug Ritalin (generic word methylphenidate) from age 8 or 10 until age 20 or 25. A large portion of what is on the internet is false, and some of it just old information since debunked. I was never diagnosed nor treated because there was no such disease yet discovered when I was that age. I was on television a lot in the late 1950's and early 1960's but my message was not climate change. It was Civil Rights and Human Rights. We now know that Asperger's requires drug treatment for life, but I am not getting treatment because doctors do not know how to treat Geriatric Asperger's Syndrome. I lucked out and found a Psychiatrist with 40-50 years experience who accepted Medi-Cal. We found stuff that works.

Asperger's Syndrome involves 5 different problems of varying difficulty. First, there is **Autism**, at least somewhat. Autism is a defect of expressing communications, either verbally, or through non-verbal communications, such as smiling when appropriate. Autistics have the same emotions as everyone else, but cannot express them. Courses in acting, theatre, and public speaking (communications) are warranted as a cure. In my case, I learned to write extremely well in order to communicate. I could not deliver this material verbally.

The second problem with Asperger's is ADD, **Attention Deficit Disorder**, with or without Hyperactivity. This is a defect of communications inputs, just like Autism is a defect of communications outputs. The two are related. ADD involves poor attention span and poor networking and multi-tasking. It also involves poor memory, especially short-term memory. It can make someone very disorganized, but it is easily treated with Ritalin and Strattera (generic name atomoxetine), a hefty dose of both required to do anything. Both of these drugs are relatively instant-acting, so you know in a week or less whether or not 80 mg. methylphenidate and 100 mg. atomoxetine will work out or not. Less in children, but in myself 60 mg. Ritalin is the minimum to have any effect, and 100 mg. Strattera is the least amount to have an effect, even though it is the biggest size they make.

Up to now, we could just be talking about Autism. Now we get to the specific problems that make Asperger's far worse. The third and most difficult problem with Asperger's Syndrome is the **Excessive Intelligence** that differentiates it from Autism alone. Intelligence is an extreme disadvantage in life, because from a very young age, we know a huge amount that we are not supposed to know. When I was 9 years old I already knew that there was no God, heaven, hell, or Satan, and I knew that Catholic Priests have been traditionally both gay and pedophilic for thousands of years. I knew that the news media and governments were entirely corrupt. I knew about the secret underground police agencies like the Bar Association, Freemasons, MAFIA, MOB (Men-Of-Black), and even how all that involved the Rotary Club, Kiwanis, and Eagles. I even knew about the Roman Catholic Jesuit Illuminati and their relationship to the Italian Mafia. All mentioned here is only a fraction of a percentage of what I knew as a young child. Try being an ordinary kid and getting along with other children, much less adults. I learned to keep my intelligence a secret at all costs. Didn't work out.

This third problem, excessive intelligence, automatically brings about another problem, contact with the **Space Aliens** who created this planet. Most people call them "God" or "the gods", but they are not a mysterious spirit. They are real aliens that the bible calls "angels". My desire to be alone in a wilderness setting a lot played right into contact, and led to knowing a lot more yet that I was not supposed to know. They can tell from space that your DNA contains Asperger's and will land and talk to you, provided you are the only human for many miles. All else causes too many people to freak out. I was specifically asked to write this about them.

The fifth problem with Asperger's Syndrome is that we **occasionally miss things** that either we are supposed to know or that everybody knows. I get embarrassed when I write or speak about a few things that I somehow missed. A combination of Autism and ADD will cause some things to be missed. I knew

nothing about Human Spirituality, for example, until I was 37 years old, despite my having earned a doctorate in an obscure branch of Psychology dealing with Genetic Memory (talent), including that talent acquired by the consumption of the DNA of another person. I knew Holy Communion and Kosher food contained DNA (usually human blood) and that same transferred digital knowledge to the grandchildren of those who consumed that DNA. I did not, however, know anything at all about the transfer of love, nor the hypnosis that results.

I have to give myself the "Big Dummy Award" and not knowing this one basic concept meant enduring over 7 years of extreme torture, most of it mentally. That was 1982 through 1989, when society did things to me so cruel and unbelievable that in my conception I am owed at least five billion dollars in damages. Yes, I know that will never happen. Even at that price what happened to me intentionally and unjustly can never be forgiven. Fortunately or unfortunately, I am way too gentle and non-violent for that to affect my behavior. I do make the case that society does not deserve to exist, however, because there are hundreds suffering for every one human doing well, worldwide. The space aliens agree, and even admit that they have experimented with my life, and that this whole planet is just an experiment to see if a species as stupid as a human can run a planet. That is why we were brought here. Humans are very common throughout the known 350 billion universes. Losing Earth will only be missed because of the cherries, grapes, berries, honey, and dairy products grown here. Our lives, art, music, and science are completely unimportant.

Other News:

There is a new Homeless Navigation Center and new Storage Unit area. The new storage area is in El Cerrito, one neighborhood south of San Diego State University. Unnecessary Professionals have been hired to find housing that isn't there. There is a new Voucher Program, one of the only things that has sometimes worked, but you cannot use a voucher for housing that does not exist. There are no additional downtown toilets, showers, nor trash receptacles. There is no plan to build additional housing, just not-needed mental hospitals and drug hospitals. Meth use has tripled in San Diego, per NBC-7 news. A new January Fake Count is planned, to prove that San Diego has only 5% of the homeless that it really has. President Trump wants to imprison homeless in FEMA camps, the ones designed to hold military prisoners in the case of a huge invasion. He also wants to make money on imprisoning homeless in private prisons. The Supreme Court of the United States let stand a Boise, Idaho, decision which gives all homeless the RIGHT to live on the sidewalk, without being moved nor ticketed for Encroachment. Are vehicles included?

SNIDE COMMENTS WAS NOT PRODUCED THIS EDITION BUT WILL RETURN NEXT EDITION.

DONATIONS were not accepted for many years because it caused too many problems of all different sorts. Now, you can donate if you want, using PayPal.Com, account nz9f@hotmail.com.

Money will be used to feed poor people, buy office supplies, provide antibiotics, house battered women and drug addicts that need help, and do some basic political activism.

Published by San Diego County's 12% (360,000) Homeless Rotation, 17,000 to 40,000 (on any given day) Un-housed, and 2 Million+ Nearly-Homeless* *(Official HUD Statistic for what THEY call San Diego's "Cost Burdened". The State of California calls them "Financially Stressed.") San Diego: At Least Triple the Homeless by Percent of Anywhere Else in the World (unless you accept the official Propaganda bullshit)

FREE by e-mail or on-line. We go out to 148,000, often every 40 days, more often when necessary. Over 35% of our Circulation is outside of the United States. COPYRIGHT 2019, ALL RIGHTS RESERVED. Dr. John Kitchin, Ph.D., Publisher. Kitchin wrote a published book on homelessness in 1995. Biography at nz9f.com/bio.

Being homeless on the sidewalk is a lot like being at the zoo, except you're the exhibit.

Dedicated to the journalistic principles of Joseph Pulitzer, World News, New York City, and the descendant of his Yellow Boy, WNET-13.

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.

Knights templar, see The pharaoh show, the swiss nazi templars, url: octogon.falconscafe.com

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vinces, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us", motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller-Hapsberg-Windsor Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.
