## Best Place to Visit, Worst Place to Live:

Low wages, high prices, corruption, and most are assholes

EDITORIAL - CITY

San Diego is looking to increase how much propaganda it uses (PR, Public Relations) to try to look like a nice place to live, and sucker more folks into buying real estate here. Public Relations is the fine art of telling lies in order to use people. America's Finest City (to visit) has a lot of amenities, attractions, and scenic beauty, making it a great place to have fun and spend money. You can visit pandas at the zoo, get wet in a water park, dine like a king in the Gaslamp or Little Italy, ride a bike thru downtown, and sun yourself at a beach (even a European-style nude beach). So much for visiting. Nice.

When you buy real estate in San Diego, however, to live here, the chances are you will never be able to sell it, unless a sucker comes along willing to pay 7 times what it is worth, like you did. Get a non-recourse loan so you can walk away anytime, because the property values are so inflated that they can only go down. San Diego has some of the most lunatic real estate prices in the world, so don't be a sucker!

There are over 20,000 people who have been unable to sell their homes at all for the past ten years of trying. Ask an honest real estate agent, if you can find one. Also remember the Mello-Roos and other secret taxes that wipe so many people out. San Diego wants to maroon you here, unable to sell out and move, and forced to work for 1/2 of what most folks in the country make.

**The homeless make the same mistake: They listened to all that bullshit about San Diego being about sun and surf and nice weather that San Diego pays millions of dollars to**

get published, and ignored the warnings about SD being a truly AWFUL place to live.

### Assholes are the biggest problem in San Diego

By far the biggest problem, bigger than the low wages, high prices, and rampant government corruption where the Mafia controls everything, including the police, is the fact that most San Diegans are rude, inconsiderate, slime-bag assholes. Sorry, but that puts it truthfully.

**It's difficult to find suckers to move to San Diego, and far more difficult to find super-suckers to pay our high rent and real estate prices.** This is doubly-true because, statistically, San Diegans only get 56% of the money that jobs pay on the average in the U.S. And, as far as personalities go, if you're an asshole, you will fit right in. So, if you're visiting, be thankful that our high prices, low wages, corrupt government and asshole citizens are just temporary for you. **You get the one thing that most people who live here really want: To leave.** Be thankful you don't own a home that you need to sell in order to do that. Big shortage of suckers out there.

On, Sunday, May 3, there were a huge number of insults against the poor and homeless downtown and in the Central Library. San Diego's "Resident Assholes" want some sort of fight, but fail to understand just how much anger is involved in becoming homeless thru no fault of your own, which is the case for most of us. **Society lies, and says things like "Anyone can get a job"**

**and makes promises that if you work hard, you will be alright. Bullshit.** So, here you are on the sidewalk, pissed-off that society is not keeping its promises to you. Add insults on top of that?

Should we return insults with insults, or use weapons? A better plan would be to have housing that can be afforded on whatever wages are being paid, and plenty of jobs that pay well. Reducing housing prices can be done thru lots of graffiti, poop and pee, vandalism and other crime, noise, overcrowding, stink, polluted air, filthy streets and sidewalks, and high prices, the stuff that downtown is famous for, but it would take the wealthy moving out to really bring rents down, like what happened in Las Vegas. **Way better to have increased wages and employment. Are you wealthy folks listening? Obviously not. I want my United States back, because this isn't it.**

# Meetings:

The **Girls Think Tank met Thursday, May 7**, with 14 present: 2 new, 6 leaders of the community, 2 lawyers, 4 homeless. • Very disorganized meeting. We were told that the PATH legal clinic operated by GTT had been closed, and that an East Village Cleanup was organized in cooperation between GTT and Clean and Safe (Civic San Diego), but these things were denied by their Administrator, in an e-mail, after she read my account of the meeting. So, if you were there, take note. We were also told that for the answers to many of our questions, we could refer to the Minutes of the Girls Think Tank - Coalition For Basic Dignity Board Meeting, which are supposedly posted on-line, but nobody could find. The Board admitted, days later by e-mail, that the Minutes are NOT public. **This left all of our questions unanswered. Hereafter, I need to cover their Board Meetings, because their General Public meetings appear to be useless propaganda.** • The **Temporary Storage Center (TSC)** was a topic of concern, the homeless saying it needs toilets, bottled water handouts, sun and rain canopies, tables for sorting, clothing re-use containers, wi-fi, and better hours that it is open. Many questions were asked about costs, the waterproofing of lockers (since they are outdoors), square footage, and many others, and there were also concerns that the new lockers are smaller than the former wheeled bins. Suggestions made included an osmosis water purification machine, and asking the San Diego Library to turn on its wi-fi 24 hours, with an outdoor antenna. • Toilets have been a concern, with complaints about the Portland Loo at 14th and K attracting drug sales. As we have stated, most dope deals occur near traffic lights, so banning traffic lights will eliminate drug sales, right? Toilets attract a crowd in general due to their scarcity, silly. • We suggested Clivus Multrum toilets, because they have no sewer nor water connection whatsoever. They do connect to electricity or solar cells. Bacteria keep them stink-free, and an electrically-operated bunch of machinery puts out lawn fertilizer in bags, useful for golf courses, cemeteries, or park lawns. • There are many legal clinics, not just GTT, which we DO NOT recommend as useful if your issue deals with homeless issues! GTT is part of the City Cabal, part of the Bar (New World Order, *Novus Ordo Seclorum*), maintains

**The Bar (Mafia, New World Order, Novus Ordo Seclorum) has always been a TOOL of Class Dominance, but now it is a WEAPON of Class Warfare.**

---

propaganda websites that tout the official government bullshit, and has supported organizations like Civic San Diego, (Clean and Safe), a group which seems to want to terrorize the homeless. The law clinics in general seem to want homeless to shut up and plead guilty, or use the Homeless Court, or go away, or agree to move to a different city, rather than **fighting and suing San Diego for**

**damages.** • For legal clinic information on **homeless issues**, see our companion newspaper, "Homeless City News", [http://nz9f.com/yahoo\\_site\\_admin/assets/docs/StreetAprMay2015.98135954.pdf](http://nz9f.com/yahoo_site_admin/assets/docs/StreetAprMay2015.98135954.pdf) • It was also suggested that the City is not giving folks housing, just scattering the homeless, playing a game of "Whack-A-Mole". There were disagreements and some agreements. It looks like they give housing, provided they do not have to pay for it. • **See Editorial on the Girls Think Tank, elsewhere in this edition, and their presentation at the MAPSS meeting, which follows.** ♦♦♦♦♦

**The Metropolitan Association of Providers of Social Services, MAPSS, met May 27**, with 22 present, which is average, all professionals providing services to the homeless, poor, indigent, veterans, and similar. There are current JOB OPENINGS for Outreach Workers at Family Health Centers, and a Housing Coordinator at Interfaith Shelter Network. • Heather Pollock, Staff Attorney for the Girls Think Tank did a short presentation on that group: Despite the title "Girls", they help both men and women and are a group of both men and women. They got that name because initially they were a group of female attorneys who assembled a think tank. They try to advance basic dignity, providing 353 storage spaces for the property of the homeless, which will be expanding to 494. They also advocated more downtown toilets, succeeding in getting 2 more installed. **The Dept. Of Public Works wants to shut down one of these at 14<sup>th</sup> and L, and there will be a hearing at City Hall, 12<sup>th</sup> floor, June 10 at 2 PM.** GTT also operates a number of Legal Clinics, at PATH Housing, Father Joe's Village, the San Diego Rescue Mission, and the Downtown Library. In addition to handling specific legal case referrals, they sponsor law courses for those who need to know about homeless issues. 47 attended their course on Spencer, covering sleeping on the streets. They also have a course on expungement of criminal records and on Prop 47 Felony Reductions. Their meetings, which are now called meetings of the Basic Dignity Coalition, are on 4<sup>th</sup> and A (330 A St.), 6 PM on the First Thursday of each month. Their next meeting is on June 4. Their website is at [www.GirlsThinkTank.Org](http://www.GirlsThinkTank.Org). • The Agency Highlight was on Family Health Centers, which provides immunizations, help with diabetes and asthma, sexually-transmitted disease screenings, HIV tests, and many clinics for general healthcare. They have departments for Women's Health, Family Planning, Mental Health, Dental Care, Healthcare for the Gay and Lesbian Community, Healthcare for Teens, and Healthcare For the Homeless. They bill Medi-Cal, and can also expedite processing applications for Cal-Fresh, which is also called SNAP, Food Stamps, and EBT. Even if you have nothing at all, not even ObamaCare, you get 3 free visits with a doctor per year. They also provide vision care, with both eye exams and eyeglasses themselves. Phone 619-515-2300, or visit their website at [www.fhcsd.org](http://www.fhcsd.org). • In Problem Solving Forum there was a problem regarding getting a service pet into a housing situation where pets are not

allowed, and this is done by getting certification papers from the Gaines St. Humane Society in Morena, which is free and easy to do. Landlords cannot refuse needed service pets under ADA. • There were also problems with Homeless Outreach, with very few teams out there. Clean and Safe, Episcopal Community Services, the Veterans Administration, San Diego Police Homeless Outreach Team, Connections Housing, and Family Healthcare Centers all have outreach programs.

EDITORIAL: ELECTIONS

## Homeless Action: June 7, 2016, is the BIG Election

Mark Kersey, Scott Sherman, and Marti Emerald are up for re-election, with Sherri Lightner, Todd Gloria, and City Attorney Jan Goldsmith timed-out and not eligible, and Todd Gloria seeking a higher elected office. Mayor Kevin Faulconer is also up for re-election.

---

**Extremely important that you REGISTER TO VOTE, IMMEDIATELY!**

---

It is the Primary election in June that will determine politics in San Diego, such as a new Minimum Wage, and NOT the "big" election in November! I want to see viable opponents for Kersey, Sherman, and Faulconer, plus reasonable replacements for Lightner and Gloria. This would also be a great opportunity to restore Mike Aguirre to his former position as City Attorney and Chief Prosecutor.

Voter registration forms can be had at any library, and are easy to fill out. Note that it asks for your COUNTY, not COUNTRY, in some blanks. If you live on the sidewalk, give an approximate location such as "5th and C, Downtown San Diego", and you must give your Mailing Address so they can send you official mail about the election. If you need help filling it out, ask. Some helpful folks are Jim Lovell, TACO of the First Lutheran Church (3rd and Ash), and Ray Lutz on Facebook, and myself, John Kitchin, [nz9f@hotmail.com](mailto:nz9f@hotmail.com).

None of the San Diego broadcast news media is Democrat, which is probably a violation of FCC Rules, and the Republicans have apparently taken over leadership of the San Diego Democratic Party, too, leading to chaos. Nobody even knows who is running. Can Marti Emerald both run for re-election to the City Council, and for Mayor, at the same time? Tough to get any REAL Democrat to run, because they will get charged in the news media with some crime they did not commit, and ousted, just like Mayor Filner.

**EDITOR'S NOTE:** Two of our people were in Hollywood when the actresses were hired to "testify" against Filner. They had to be really good to fool the lawyers. **PAGE TWO**

## Propaganda, Lies, Fake Fundraising, Fake Surveys, Welcome to San Diego!

Our City has established that it will be taking the route of increased propaganda, rather than accomplishing more, so it is going into the lies business, even more so than it already is. We were contacted by a UCSD student in Public Relations about a new survey being prepared regarding the poor and homeless which could become a part of the City's new propaganda-enriched website. It asks about the importance of taking care of the poor, and the importance of food, housing, and domestic violence abatement, all very important issues. Then it asks us to donate money to a FAKE nonprofit agency that is part of County government. Most donating suckers out there don't know that their donations do nothing except decrease taxes on the wealthy. Every dollar donated by you means one less tax dollar is needed.

Donating makes people feel better, sort of like folks actually helped, which they did not. Public Relations is the art of suckering people with smoke and mirrors, media spin, lies, half-truths, deception, skewed statistics, omissions, and corruption. Every "volunteer" this group gets is one less person that San Diego County needs to pay wages to. This reduces taxes on rich people. The survey goes on to ask why we did not donate, and we said that this is a government agency masquerading as a nonprofit, under-funded, suckering people out of time (volunteers) and money (donations) that is incompetent, corrupt, disorganized, inefficient, and completely out-of-touch with reality. It goes a long way towards making it look like help is available and everywhere, without actually providing much at all. This agency, like many others, needs to be banned, abolished, outlawed, maybe even indicted. San Diego is LAST, #1600 of the 1600 counties in the US per capita at providing government help for families in need. So, we should help to continue this insanity? Public Relations, the telling of lies and getting away with it, pays very well, whether you be in government, news media, religion, the universities, intelligence, or even banking.

Now, another Nonprofit, **National Geographic** (or perhaps National Geo-Propaganda) has San Diego portrayed as a wonderful city, not the rotten stink-hole that it actually is. Your water and electric bills would pay your rent in some other towns. It looks like if you pay enough cash, you can buy some National Geo-Bullshit on television.

On to the **Girls Think Tank**, and we have always had a lot to say about them. Some of the homeless intellectuals joined them near the beginning, because they allowed homeless at their meetings, while other groups (such as the RTFH, Regional Task Force on Homelessness) did not. Hence, they would be playing with a full deck on those issues involving the homeless. They did have public

think-tank meetings looking for solutions, and involved us. Nowadays, that has deteriorated into a Public Relations exercise in telling us what to believe, and not seeking input. Most of the intelligent homeless have left, and the rest of us are complaining. Have another slice of pizza, and after 2 or 3 more, you will believe whatever we tell you. Even some of the Community Leaders at the meetings have been giving them heat lately.

Always Judeo-Centric, that is okay, and some of us have degrees from Jewish universities. Lately, however, more Judeo-Supremist, which is just as unacceptable as White-Supremist. Much on our website at [www.NZ9F.com/GTT](http://www.NZ9F.com/GTT). Their law clinics may have benefit, but may also steer the poor into those paths the City wants explored, rather than fighting for their rights. The storage center would have to be operated with or without GTT, and there are about a dozen other possible providers. Overhead tarps and realistic hours of service have been repeatedly asked for to deaf ears. Girls Think Tank should be called a Public Relations Tank, because a think tank develops solutions and a Public Relations Tank ignores and denies problems.

Conclusions: The Girls Think Tank is a Classist group of Fat Cats, completely out-of-touch with reality, that merely forms yet another Public Relations arm of the City of San Diego and the gangsters of the City Cabals, the [REDACTED], which runs our local government. This does way more harm than good. Fund-raising is used way more for more propaganda than for any sort of help. – ***This is the opinion of the San Diego Homeless Board, and not of this newspaper.***

Girls Think Tank: Just Another Cookie.

**Publisher John Kitchin Responds:** This group of lawyers has not volunteered to file any Class Action Lawsuits, nor represent clients Pro-Bono who oppose City Oppression, nor sue the City for Cash Damages on behalf of the Homeless, and seems to tout the same opinions as agencies like Civic San Diego, which has done more to foster Repression of the homeless than to help. They also partner with the Religious Right (Downtown Fellowship) and in general all religious organizations have done more to make the homeless problem worse, not better. It was pointed out at their latest meeting that I function as their Secretary, de-facto, since my news reports of their meetings are something like the "unofficial Minutes". GTT is now sufficiently secret as to not have transparency, sort of like Civic San Diego, and even Monsanto: Ingredients: Food. Details: None of your business. The obvious propaganda **PAGE THREE** Facebook site, Coalition

For Basic Dignity, which lets people "post", but not really, and is mostly all pinned posts, is really a shame, and reminds me of the government propaganda website "Homeless News San Diego" on Facebook, which does the same thing.

Conclusions: Usefulness, marginal. Incompetent at storage and toilets, raises funds for propaganda, conducts what we view as "misleading" legal clinics. A "wolf" enemy of the homeless in sheep's clothing? We are opposed to who and what they are, Classist, Arrogant, Self-Worshippers, and what they do as well as how they do it is of primarily negative benefit to the homeless. Their lack of transparency and oversight by the homeless underscores this. Besides being very Classist, they have lately given at least the impression that they are Judeo-Supremist. Anybody with brains want to argue this one? Be leaders and develop new ways that work, instead of following in the same path as 50 years of failure. Neither Brute Force (Clean and Safe, Downtown Partnership, Civic San Diego, all the same thing) nor Religious Brainwashing (Downtown Fellowship, Rescue Mission, Father Joe's) seems to have worked so far.

**EDITOR'S NOTE:** Kitchin has often said that the Girls Think Tank members try really hard and really care, but their mind-set comes from years of brainwashing in places like Law School, so their entire concept of what should be done, as well as their concept of reality, is extremely skewed.

**PUBLISHER'S NOTE:** The response I got from GTT was that they neither endorse nor agree with the information, but I offered to publish what they had to say, and they declined. I think they are the best of a bad type of organization called a Nonprofit.

## How Do We Evaluate a Nonprofit Organization?

I have worked with several, including Red Cross and American Cancer Society. Does your group help the poor and/or homeless? Good. **Do you make any permanent differences, or does it all go away when you do?** Our criteria address the 6 branches of our government: Legislative, Executive, Judicial, Press, Religion, and Banking.

1. How has your group enabled the passage of new laws giving more privileges, more rights, and an easier life for the homeless? (Legislative)
2. How has your group caused law enforcement regarding the poor and homeless to be increasingly fair, honest, and transparent? (Executive)
3. How has your group fought in the legal system for homeless rights, damages, injunctions, court orders and/or similar? (Judicial)
4. How has your group caused a better understanding of the homeless, their situation, their needs, the truths and realities of the problem? (Press)
5. How has your group helped to abate the religious slavery, abuses of Spirituality, religious propaganda, and other uses of religion to control

the poor and homeless rather than to truly help them? (Religion)

6. How has your group helped to fund the above groups and organizations? (Banking)

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, or hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (ConServatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

**Ken Williams is the new Editor of Uptown News and Mission Valley News of SDCNN, the San Diego Community News Network, which also includes the San Diego Downtown News, the La Mesa Courier, the Mission Times Courier, and Gay San Diego.** He was also Editor of the San Diego Gay and Lesbian News for 5 years. He worked for newspapers in Texas, Florida, Ohio, and even our own San Diego Union-Tribune before the economy soured (the Great 2006 George W. Bush Second Depression). He has 40 years in Journalism, peer to my 53 years, another of us Don Bauder types. I can only hope that he stands for increased wages, lower prices, less corruption (especially in the media), and the effort to make San Diegans, known for being very unfriendly on the average, friendlier. He does extend an invitation

to write him at [ken@sdccn.com](mailto:ken@sdccn.com) with your concerns.

**CityBeat is back!** After a few issues of fine tuning, and lots of criticism, Ron Donaho writes a magnificent editorial on UT San Diego and its owner-of-the-month, plus the future of the press in San Diego. Better than David Rolland, so that ought to silence the critics. The whole "Up Front" of the May 13 edition was excellent. Ron wanted to know how the homeless could be helped. As far as the Press goes, tell the truth. Nonprofits make money on the problem getting worse, and homelessness can only be reduced in reality by having more jobs at higher wages, and/or less expensive housing. People are homeless because housing costs more than jobs pay. Very simple. It has nothing to do with drugs, alcohol, or mental illness, except that being homeless always causes those three things to follow, and then suicide. Most suicides are "Indirect Suicide", where a person just does not care anymore, and so does not take shelter from the rain, or go see a doctor, or get out of the way of a fast-moving truck. These do not get recorded as suicides.

Japanese style cube-tels would be one possibility, but they must be in the area of downtown that the homeless are trying to get back into.

The May 20 edition of CityBeat was more back to so-so, and Editor Ron again tackled the Chargers Stadium issue. Okay editorial, except his statement, "Standing up to the Chargers will eliminate the only roadblock along his (Mayor Faulconer's) path to re-election." Earth to Ron: He got booted as a viable candidate by going against a tiny Minimum Wage increase, and his chances of re-election now that UT San Diego is no longer solidly Republican are poor. What may save him is that the Dems do not have any big names to run. So, he may get re-elected and make all of our lives worse.

Little or no difference between the Democrats and the Republicans. Which party will end over-redevelopment? Which will bring wages and rent prices in line with each other? Which party will put enough money in the hands of San Diegans that they spend it, making jobs and prosperity in all businesses? Any? Which party will reduce high prices in San Diego, especially rents and real estate payments? Which party will end slavery to major corporations? **We need things to get 400% better, but an election can only make them get 10% better, and could even make things get 20% worse, via the re-election of Mayor Faulconer.** Toni Atkins? Worse. The fake Democrats like Lightner, Gloria, and even President Obama are a huge threat.

**The sale of UT San Diego** is exciting because for the first time in over 30 years, San Diego will have a real, professional daily newspaper that is not either a shill for the Copley Family, nor a rag that runs headlines like: **“Now Save 40% on Plumbing Fixtures at Joe’s!”** I propose they temporarily use a vintage trademark from long ago, updated to color. That would draw attention to the change, and welcome back those who stopped reading it, like most of us. Also, run 4 liberal editorials in the first issue. Minimum Wage in San Diego: Is \$26 an Hour Enough?

The **San Diego Downtown News** we suspect may have been one of Doug Manchester’s new acquisitions, because they still tout the 3 big past homeless-creators (Toni Atkins, Little Italy Association, Civic San Diego – Downtown Partnership – Clean and Safe) as the answer, but here they cross over the line, just like many newspapers did in Mexico, where everyone just disregards all that as nonsense and propaganda. Not effective as a tool of control, because propaganda bullshit cannot be obvious. Look at their advertisers. Mega-bucks real estate? Get real! Downtown stinks really bad, is full of poop-trash-slime-construction, parking problems, traffic congestion, overflowing, crammed super-full with crowds, and the residents are so ornery that even the homeless are assholes. You want to LIVE there? How much are you being paid to live downtown? I hope it’s a lot. The small Manchester papers were sold to the Chicago Tribune, which will improve them a lot.

## Secrets 089: Continued

**Part 4: College course on things taught young Ruling Class children: Medical Secrets, Continued. Circumcision, Abortion, Military Drugs. This course is on-line at**

[http://nz9f.com/yahoo\\_site\\_admin/assets/docs/Secrets\\_089.143163608.pdf](http://nz9f.com/yahoo_site_admin/assets/docs/Secrets_089.143163608.pdf)

One of the absolute worst medical procedures fraudulently stated to have benefit is the circumcision of males. A staple of Judaism for centuries, the cutting off of the tip of the male penis eliminates the primary nerve endings used in sex. The semi-castrated male can then never achieve complete sexual satisfaction, only orgasm, due to the nerves to accomplish further satisfaction having been cut off. It is not analogous to the removal of the female clitoris, done (in history) by many Native American tribes to baby girls, but is akin to the removal of the female g-spot. All partial castrations, be they Jewish or Native American, go back to trying to interest citizens in hard work instead of sex. Often the altered citizens find drugs, alcohol, overeating, or even murder, instead of finding hard work, as a substitute for the complete sexual satisfaction they will never get. Men who are circumcised usually also develop Erectile Dysfunction later in life, often not treatable with ED drugs, which breaks up families and relationships. Circumcision is thought to play a role in 20% of all male suicides, and it does permit both anal sex and rape, which may otherwise be too painful, as the foreskin is very sensitive. **PAGE FIVE**

**Abortion:** Herbs to cause a woman to get un-pregnant easily have been around for thousands of years and kept secret. This topic is covered in the May 1 Edition of the San Diego Homeless News, under “News Media News”. The news media have helped keep this a secret.

**Military Control Drugs exist**, used in a lot of food, especially that given to the military as chow. Agencies that feed the poor often have deals with the military to give “Spirituality” privileges to officers (meaning their blood and semen in the food given to the poor) in return for being supplied RH-7 and M-48J, substances used by the military to force conformity of beliefs, obedience, similar. The actual names of these drugs have been changed, to avoid violation of OSA, the Official Secrets Act. They were developed in Israel in the 1960’s, and joined the insecticide Fluoride, also in use at that time. Nothing happened, so I complained to their management that they add too much blood in the coffee and was told, “Yes we do, but you keep coming back here every day, don’t you?” Yes, but it is for laboratory analysis.

### Transitional Jesus Center Being Investigated

**El Cajon Transitional Living Center**, which took over Aunt Emma’s Pancakes on East Main St. in El Cajon many years ago to form the “Jesus Center” has been receiving federal HUD money as a “Shelter”, even though it primarily teaches people to be ministers. HUD and several taxpayer groups are investigating.

### Underground Press History: The Alternate Universities

**Introduction:** In the 1960’s, universities did not allow the Vietnam War to be taught as an evil ploy to rape the

government of money so that super-wealthy folks could get richer selling bombs to it. Universities made money training soldiers to be officers, and conducted experiments in psychological control. Professors objected, and started a handful of universities of their own. One of these was Milwaukee Free University, started by professors in the University of Wisconsin (Madison and Milwaukee) System. This was a violation of their contracts with the universities, so it was kept secret. It is fitting that I write the history of the Alternate Universities, because I am one of the few people to hold a Doctorate from one.

*Dr. John Kitchin, Ph.D., Psychology, Milwaukee Free University (1979)*

**Milwaukee Free University** started in 1969, originally had no name, was entirely secret, and featured only academic things such as Political Science. It eventually grew to a group of 3 colleges: One academic, one employment skills, and another, personal skills. Officially founded a few years later and given a name by Dr. William Draves, Ph.D. (Education), it picked up funding from the U.S. Dept. of Labor, and an office in the Jewish Community Center on Ogden Ave. in Milwaukee. The College of Employment Skills taught welding, vehicle repair, electronic repair (including telephones), machine repair, and also basic teaching and nursing. The College of Personal Skills taught mostly in the homes of the teachers, and included chess, brewing beer, baking, culinary arts, art, needlepoint, and fundamental adult remedial reading. It resembled City College in San Diego, or even CET, the Center for Employment Training. The College of Academics taught Political Science, Psychology, Sociology, Social Welfare, Media-Communications, History, Culture, Economics, and Education, with an M.A. or Ph.D. possible, as appropriate.

I took courses in psychology, baking breads, and brewing beer, and taught brewing, telephone repair and installation, and chess. I also taught psychology, both at MFU and at UWM, the University of Wisconsin – Milwaukee. Because funding, classrooms, books, photocopies, and all that had costs, and MFU charged no tuition, often the facilities of a real university were “pirated” by using classrooms not in use, running photocopies secretly on university equipment, and the like. Often the actual classes were used, and we just added a few people who were not on the class roster, with the permission of the professor, who was in on it. Most of my graduate classes were done in this way, where I took the class but was not officially even there. No one took the time to determine that there were fewer students enrolled than present. There were also class sessions with only the MFU students present, held in parks and in private homes, where the professors could speak the truth.

None of our degrees was officially recognized by society until about the year 2000, when we came to recognize Honorary, Alternate, and For-Profit degrees as having validity. All of us have passed muster in the meantime, and I have no trouble at all in

conversations with a group of Psychologists. This was a very real and very tough university. It was also very Jewish, but, well, universities often associate with religions and cultures. Golda Meir, a founder of Israel, got her college education at UWM in 1916. (College-educated women were rare in those days, and UWM had several previous names, including Downer College and Normal State Teachers' College.)

MFU was insolvent by 1979, and I bought it for a dollar, since I held a Doctorate. My Thesis was on how universities "prove" things that are false, to "earn" grant money, so all research is bogus. Anything valid to know about societal control has all "proof" disappear, except that "proof" approved by the New World Order (Novus Ordo Seclorum, the Bar or Mafia with their Ruling Councils of the Knights Templar and Illuminati). It was declared a government secret, so that "proof" that all "proof" is fake cannot be "proven".

POLITICAL CARTOONS

[countercurrentnews.com/2014/07/explain-the-difference-between-these-two-women/](http://countercurrentnews.com/2014/07/explain-the-difference-between-these-two-women/) Did you know that the same committee of 72 men wrote both the New Testament and the Quran of Islam?

## Censored out of San Diego Homeless News:

Planned for this spot, the true story of the Nazis and Adolph Hitler, but it has been so controversial that same has been withheld for over 2 years, and the committee of Jews in Tijuana who did the research all quit. Was there a Holocaust? If so, what did that consist of? How were the Jews involved? What parts of our history on all this were true, and what is false? No real uncontaminated answers on the web. This took news accounts written in the 1920's through 1940's in paper and ink, which cannot be deleted. Library copies

have all been tampered with, so this took private collections.

I have been getting some accusations of anti-Semitism, which is ridiculous, because I always stand up for the Jews when there are wrong things being said or written. I am also getting a lot of "I am better than you", suggestions from many in society, and do not take that to mean only Jews. If you look at the very scant resources I've had to work with, and what enormous things I accomplished with that, I am way better than you.

I will cover in this article the truth about the Nazi Holocaust, but must first cover three important things: 1.) What is a Nazi? 2.) What is anti-Semitism? 3.) What is the difference between Judaism and Israel? I studied at 2 Jewish universities and dated mostly Jewish women, incidentally.

**What is a Nazi?** A concept, a form of thinking involving a "Fascist" society (government-controlled, supremacist, closed, dictatorially-organized) that justifies the notion that inherited wealth is "earned" and that "our group" is better than all other groups. We are the Master Race, or Chosen People. Its leaders are atheist, but promote religions to control people, along with huge amounts of propaganda in the media, which control perceptions of "the truth" and "proof". World War Two seems to have been a fight between the German Nazis and the British Nazis, for control of the Swiss World Bank System. This was also a fight for control of the food supply, (Nestle, Con-Agra) which of course is also the source of the world Spirituality supply.

**What is Anti-Semitism?** It can be a hatred of the Jews, either the culture or religion or both, but it can also be any unfair treatment of them. For example, saying that the Jews crucified Jesus is wrong, because Romans crucified people while Jews stoned them to death. Jesus was tried in a Roman court with a Roman judge under Roman law. Judaism was under Roman military occupation at the time. And, if you want to criticize the Jews for placing their blood and semen in the food supply, what about the Moslems? What about the Christians? **Criticism of the Jews, in an article critical of all religions, is NOT anti-Semitic.** Be as fair and truthful as you can. Is whatever the Jews do as a religion as bad as the Catholic priests having sex with boys? I have been a victim of a whole bunch of religions, so I became the Ancient Pagan Bishop. We do NOT believe in God(s).

**What is the difference between Israel and Judaism?** Judaism is both a culture and a religion. A culture, because it has at least 2 languages, Hebrew and Yiddish, marriage customs, burial customs, etc., and the religion fits the culture. Israel is a nation, not a culture, that calls itself the Jewish State. Countries with their own religion usually result in "holy" wars, and that would include Iran and even England. Israel has shown itself to be more an enemy of the Jews than a friend, because it engages in terrorism. This can change.

**PAGE SIX**

**The Truth About the Nazi Holocaust:** I recently ran into a woman who was part of the original committee of Jews, including a Rabbi, that sought to know the real truth behind Adolph Hitler. I have a web page on Hitler at [www.NZ9F.com/Hitler](http://www.NZ9F.com/Hitler), but you need to understand that my motivation is to PREVENT there from being another Hitler. There are NO uncorrupted things on the web, plus all library copies have become missing or had pages torn out, etc., so this committee used private collections in paper-and-ink from the era. There was a Holocaust, of sorts, because Hitler gave orders that upon the surrender of Germany, if any, all those held in Internment Camps, POW Camps, Jails, Prisons, Work Camps, etc., be put to death immediately. There are video accounts of some of this, taken by US and British soldiers after-the-fact. Hitler surrendered the first day the US tested its first Atomic Bomb, and this brutal Holocaust followed. The Jews were not targeted per se but there was a higher likelihood that they would be in these camps or a prison of some sort.

As far as Hitler running Death Camps, yes he did, but so did Britain and the United States, because this was a time of war. Both sides had Internment Camps, with the US locking up all Japanese, for example. The Nazis treated people well, and put them to work in war efforts. Those who sabotaged were sent to sabotage camps and worked harder, taken less good care of, and watched more closely by the Secret Police. Those who continued to commit sabotage were sent to Death Camps to extract as much work as possible with the least cost. Many were executed in all this, and each one got a trial for High Treason, and conviction required the testimony of 3 or more Secret Police.

Repeated Treason is punishable by death, even in the United States, and US law does not require a trial. Nazi law required a trial in absentia, with those sentenced to death taken by rail outside of town and upon arrival executed. The reason for not having the Accused present at trial was to protect the identities of the Secret Police. The United States and Great Britain did much worse things during World War Two. This was a Declared War, so those executed by either side were considered Terrorists.

Hitler was a friend of the Jews in the beginning, and restored society back to normal after the Great Depression by recruiting Jewish money and by banking laws that favored better treatment for the ordinary citizens. He tried to keep them from taking over all of Germany, unsuccessfully, and when he came to power politically, the Jews had all the professional jobs. He asked "What about the Germans?" This does not, of course, justify what he did, only provides an answer as to why. A very large number and percentage of people think that the wrong side won World War Two, also thinking that our present leadership is a worse and more cruel bunch than the Nazis under Hitler. I disagree, and feel that both sides were equally awful. Besides, nobody "wins" a war: Both

sides lose. One side just loses more than the other side does.

I lifted the 3 censorship holds that kept this article a secret for over 2 years because this issue is about Propaganda, and both the Nazis and Jews are tied for the world group in history to have used the most of same. If the Nazi Jews, who won World War Two and defeated the Nazi Germans decide to continue to take over the whole world and Repress all other cultures, then another Hitler becomes imminent. I pointed out to several Jewish help-group nonprofits, that discrimination against non-Jews in offering services is Religious Discrimination. Many had programs not related to religion, such as free psychiatric services, that had the requirement, "Must be Jewish". Imagine if Father Joe required folks being helped to be Catholic!

As far as "My Group is Better Than You", it has been the Nazis, the Jews, and the Mormons to teach this, and when you ask them about it, they say "Well, all groups favor their own people." Wrong. That is what all that "Master Race" and "Chosen People" stuff is all about. In the Time of Abraham thru the Time of Moses, Judaism received the ET knowledge, used to make their culture dominate in making Earth a better place. After Moses, they lost that, but there was Julius Caesar until Jesus came along, and there are accounts of his having a working relationship with the "angels", who were the ET folks. Move forward 1.5 dozen centuries to Joseph Smith, founder of the Mormons, and it is obvious that they were the "Chosen People" of that era, even having teachings about Moroni, the Mormon Angel. And, in the time of Germany's Adolph Hitler, it is very obvious that his science and technology were superior to any other. When Hitler went down, his empire was divided into East Berlin, which formed the Soviet space program, and West Berlin, which formed the US space program. So, are we now the Master Race or Chosen People? Or, are the Chinese?
