Mayoral Election "Smelly"

Falconer vs. Alvarez stinks like our no-toilets downtown (streets as an outhouse) district

Gangsters win, San Diegans lose

"Something stinks...it's the campaigns for mayor of San Diego, each generating a unique, foul aroma, all swirling together to create a massive, putrid cloud of stench that's engulfed the city." -- David Rolland, Editor, San Diego CityBeat, Nov. 13, 2013.

I appreciate it when others state something better than I know how to.

Voters can choose from the Mormon Mafia* of Kevin Falconer and Jerry Sanders, which is anti-union, pro super-wealthy, and pro-slavery (of the Catholic Church type of slavery, low wages and lots of children), or the Jewish Mafia and David Alvarez, the real estate magnates who make special deals with only selected labor unions (and not others) to keep the money and good wages in the hands of certain people only. Both candidates are City Council members, so they had a hand in making San Diego as off-course and screwed up as it is, such as the Pension Nightmare and the demise of Mayor Filner. * (If you are ignorant of how the Mafia works, read my article on it, below.)

As a Mafia Democrat and pro-Catholic, we count David Alvarez as a Republican pretending to be a Democrat, much like Nathan Fletcher. This sort of thing is very common in San Diego politics, and, if you don't get elected to begin with, you have no power, so do what you need to. Alvarez is unfortunately naive, but intelligent enough to see that he needs to oppose the gangsters who run San Diego, but not as much opposition as Mike Aguirre (who got de-elected as City Attorney by Mob politics) or Bob Filner (who got unlawfully denied Due Process and was forced to plead guilty to crimes he did not commit, to avoid going to prison.) Hell of a choice!

What we need from Mayor Alvarez is as follows:

1.) Learn how the Mafia corruption works. Your staff, both as Mayor and on the City Council, will mis-advise you and gets money to "groom" you for the Mafia. You have already been subjected to this, know it or not. All part of how government corruption works. Please do not sell out, because the people mean more than the gangsters in the news media and the real estate and banking moguls.

2.) Hold the Police Department accountable and in check. The Review Board is a joke, the other control on police, the news media, is in the hands of the very gansters who use them to do their dirty work, and the only other option is the Mayor. Bob Filner was an effective tool for dealing with police misconduct, and that is the primary reason that he will be missed.

3.) Help to unionize the UNSKILLED workers, like restaurant workers and office cleaners, to get wages higher in San Diego. Also expand the reach of current skilled worker unions so that they represent ALL workers. Real estate can only take a nose-dive without way better wages here. San Diegans currently average 40% less pay than average Americans, in IRS statistics.

4.) Regarding the homeless and downtown redevelopment, realize that homelessness here was decided in 3 years of trial testimony to be 100% the fault of the City, is caused by gentrification and redevelopment (along with other politics) and can ONLY be remedied by politics. We call for an END to the over-development of Downtown, including the Harbor District, East Village, North Barrio Logan, and Hillcrest, because it is now too crowded, too noisy, too expensive, too dirty, and too dangerous. Learn from the mistakes of New York, Chicago, Detroit, and Los Angeles, rather than making that mess here.

The labor unions are corrupt, but less so than the Lincoln Club. Hell, the Police are corrupt, but could we do without them? Not hardly. So, we must hold corruption in line, accountable, transparent, and help to uncover it, prosecute it, and prevent it. And we absolutely need to give long prison terms to those guilty of it. Else is to invite it. Right now 50% of all rent money goes to the terrorist gangsters who run real estate and banking, "The Boys" of the Mafia. That makes San Diego expensive to live in, and too expensive for

Page Two

Small Business to start up, expand, stay in business, or hire employees. Not having Small Business makes jobs scarce in San Diego, and lack of jobs and employment leads to unemployment, poverty, and homelessness. This in turn leads to drug abuse, alcoholism, suicides, despair, and criminal behavior. Let us never become another Los Angeles or Detroit.

Major Government Scams:

Voting, Roswell, Pearl Harbor, JFK, 9-11

"Conspiracy Theory" Defined

Government scams go back to at least Ancient Egypt. The Ancient Greeks invented a scam called "Democracy" where citizens vote for a candidate, the ballots are discarded instead of being counted, and everyone is told that the winner got 90% of the vote, so they should listen to their elected official. George W. Bush got less than 15% of the vote both times he was elected.

Roswell in 1947 involved a crashed UFO and the original edition of the local newspaper showed photos of alien bodies, tools, communications devices, and the insides of a UFO. Autopsies were conducted on the dead aliens, and then the 8 Army physicians who performed those autopsies were killed for knowing too much. You can see film clips of those autopsies on the web.

Pearl Harbor was a scam to get our citizens interested in becoming involved in World War Two. We had cracked the Japanese Radio Code, and so knew everything they were doing in advance. We sacrificed our own troops.

The killing of President John F. Kennedy was a scam perpetrated by Richard Nixon, who was chief of the Republican Party, and Lyndon Baines Johnson, Vice-President and chief of the Democrats. It was to make LBJ, a racist who wanted to expand the Vietnam War and make lots of money on it, President. I was 11 years old and watched on television Walter Cronkite on CBS News, saying that Lee Harvey Oswald had on-duty CIA papers and identification. He was supposed to be shot dead by police, but ran into a crowded theatre, so CIA had him killed by terminally-ill CIA agent Jack Ruby in an underground police tunnel. The deaths of Robert Kennedy and Martin Luther King were part of the same group, Richard Nixon's Watergate Plumbers. Nixon was pardoned so that none of this could come out in trial.

September 11 involved Arabs and Palestinians, some with Israeli Citizenship, hijacking jets and slamming them into US landmarks. There are so many problems with the government story told in the news media that I cannot even list it all here. Witnesses were held at Guantanamo Bay, Cuba, so that they had no contact with the news media, not even the underground press. CBRE, the Real Estate group that owned the Twin Towers, took out a huge

billions-of-dollars insurance policy on the buildings just a few days earlier. They have been accused of being Israeli Terrorists. The end idea, whoever did it, was to have the public accept the George W. Bush "War on Terror" and to eliminate our banking, internet, and telephone privacy, as well as having an excuse to invade Iraq and Afghanistan.

Conspiracy Theory? Whoever uses that phrase is trying to hide the fact that ALL governments are run by a large group of secret underground organizations that together we call "The Mafia". Hollywood tries to confuse the issue by creating fictional Mafia characters like The Godfather and The Sopranos. Keeps people from knowing the truth. Right now, plans to have Navy hackers shut down the web and then blame it on other nations and internet terrorists were recently declared a US Government Secret. The next article is on how the Mafia works, especially in San Diego.

Mafia Groups Control Everything

You will not read this anywhere else

La Costa Sanction owns SD

Mafia Groups are called "Sanctions", and the Sanctions have sub-Sanctions, such as the Democratic Division and the Republican Division, here in San Diego. Real Estate, Banking, Professions (doctors, lawyers, etc.), and Universities are controlled in San Diego by the La Costa Sanction of the Bildenberg Group, which is the Mafia, headed by the Godfather, David Rockefeller. San Diego's Democrats and Republicans belong to the same Sanction. This is the group that mixes blood, semen, rohypnal, and even flouride into the food that everyone eats, so that their religious ministers can keep everyone hypnotized and controlled. They also own and operate the news media, such as radio, television, newspapers, and magazines. That is why you never read an article like this before or saw a story about it on TV.

Mafia Licensing to become a big wage-earner and one of the Controlling Class ("Professionals") goes by the "Hoosier" process, which stands for "Who's Your Daddy?". Small Business licensing to be an agency of the Mob is controlled by the Better Business Bureau, which is the Jewish Mafia and of course they deny that. All throughout, the Mafia insists that if you cannot PROVE something, then it is not true. They also manipulate the standards of what "proof" consists of. The gangsters keep control by creating, modifying, and destroying whatever may be considered valid "proof", so that there is never any proof of what is really true, unless they want it to be seen. This is especially true in the legal system, particularly in Criminal Justice, where if a judge's son (high ranking Mafia) rapes and kills someone, the crime is

Page Three

blamed on someone else, by police placing different fingerprints on the murder weapon, and having an "Expert Witness" lie in court. I was an Expert Witness when I worked as a Police Detective in Milwaukee, Wisconsin (Milwaukee Alarm Company, Home Police Division) and once refused to lie under oath for the District Attorney. I was then charged with a crime I did not commit, and sent to prison. This is how the Mafia exercises "control" over everyone, along with the blood and semen and control drugs in the food supply, of course. Since they also regulate the Professions, they can have some doctor in some hospital kill you if they want to, and make sure there is no evidence of wrong. See more about the Mafia and the blood and semen in the food supply at NZ9F.com/Gnosis, and more about my situation at NZ9F.com/Me and NZ9F.com/Me2.

News Censored Out of the mainstream press:

All Protests Considered Terrorism

Report cites Freedom of Information Act, contains years of study information

"How the Nation's Counter Terrorism Apparatus, in Partnership with Corporate America, Turned on Occupy Wall Street"

DBA Press and the Center for Media and Democracy (DBA/CMD) have spent more than the past year gathering records, through state and federal open records/freedom of information laws, from various law enforcement agencies tasked with "counter-terrorism"/"homeland security" operations. The resultant stacks of documentation, numbering in the thousands of pages, form a grim mosaic of "counter-terrorism" agency operations and attitudes toward activists and other socially/politically-engaged citizens over the course of 2011 and 2012. As such, records show that methods employed by the nation's "counter-terrorism" apparatus against these citizens has ranged from the use of undercover officers tasked with infiltrating activist groups, to constant monitoring and the use of advanced technologies in the tracking and identification of certain individuals.

Put simply, the pattern that emerges from these pages shows that heavily-funded municipal, county, state and federal "counter-terrorism" agencies (often acting in concert through state/regional "fusion centers") view citizens engaged in movements of political and social dissent, such as Occupy Wall Street (and its regional incarnations), as nothing less than nascent, if not bonafide, "terrorist" threats.

This takes several minutes to load, and your screen is blank in the meantime. If you do not have time, I published a copy of it at www.NZ9F.com/SDHNpreview/x.

This sort of reasoning is why the police had snipers overlooking the City Hall Complex when Occupy was protesting with its tents, waiting to open fire, "if necessary". Keep in mind that the so-called "Protesters/Terrorists" were unarmed.

Police are calling any protest a terrorist threat, so if you complain about the high price of gasoline, you may get banned from air travel or whatever. Much of the nastier police work is done by affiliated organizations, too, such as the Freemasons, Kiwanis, John Birch Society, Eagles, or even the Ku Klux Klan, so not all information can be obtained under the Freedom of Information Act, as these groups are all exempt from having to provide it, because they are not government. Much police information is exempt, too, because it is only kept electronically, or stated verbally, and FOIA covers only PAPER documents.

Ray Lutz, a major organizer politically, was arrested with Occupy San Diego and **received a HUGE settlement from the city**, the details of which are secret. **Your City is so broke because it has to pay out millions of dollars frequently when it violates laws regarding Free Speech, Civil Rights, and Restraining Orders.**

News Censored Out of the San Diego Homeless News by the City of San Diego:

Nazi Censorship by City includes San Diego Homeless News

The San Diego Homeless News started getting censored by the City of San Diego, affecting the Nov. 1 and Nov. 13 editions, which were not permitted email delivery and the homeless posted copy at the side door of City Hall in the Homeless Information Area was not permitted to be posted. I have often compared what is going on in San Diego to Nazi Germany, and censorship of the news media is just one more thing. Hitler hated books, newspapers, and other means of thought, unless his people wrote them. There are many hundreds of other examples that I have previously cited. This is why I ask "Heil Hitler"? Not a good fellow to copy, methinks. If nobody, not even the Jews, have learned anything from World War Two, then we human "Enhanced Chimpanzees" are in real trouble.

or not -Many wonder why our "rich nation" does not solve its homeless problem this way. **You need about \$1,200 a month in needs such as food, basic clothing, and bus transportation that are not part of rent, before you can begin to consider what you can afford for housing.** The \$2,800 a month formula used by these two nations is the international standard to prevent homelessness. **Medical Marijuana - Is Grass the New "Holy Communion"? --
Pot works better at hypnosis and control** --Marijuana is an important medical hypnotic and hallucinogen that confuses people into thinking that their situation is better than it really is and their pain is less. THC, tetrahydrocannabinol, an insecticide and sunscreen produced by the marijuana plant, is its active ingredient. Some combination of THC, rohypnal, and Holy Communion (human blood and semen hidden in food) is probably the wave of the future, and works best for hypnosis and control of the commoners of the general public. **Look for THC to be someday added to ALL foods, the way rohypnal, blood, and semen already are, to maintain hypnosis and control of society.**

We do know that the Jewish Mafia, which would certainly include CBRE, knew about Sept. 11 in advance, because all of them decided not to be in the building that day. [Why Are Homeless Downtown?](#)

Storage, Transportation the 2 biggest problems

County has 12,000 unhoused, but only 2,000 are downtown [Page Five](#)

Storage and transportation problems are a big problem, but Downtown has all services within walking distance (solving the transportation problem) and there are places to legally and illegally keep your belongings, and plenty of folks to watch over your stuff, too. You can walk to medical care, internet access, food and meals, convenience stores, tent shelters, day use areas, showers, and good panhandling areas. The problems with downtown are overcrowding, lack of parks, scarcity of toilets, violence/fights/safety, and a lot of harassment from police, trolley security, and other security guards.

The solution is to have more homeless areas, not just downtown, which will ease overcrowding, reduce demand on existing toilets (and the poop and piss on the sidewalks that produces), and reduced harassment because of less homeless on the streets. Any new area should have, in a one square mile area (walking distance for the handicapped) storage facilities for homeless, medical clinics, tent or other overnight shelters, day use areas, food and meals, convenience stores, and either good panhandling or CRV collection areas (for those applications when only cash is acceptable, such as bus, trolley, cellular, postage, etc.) And, of course, the area has to be a place that the homeless appreciate, such as Mission Beach, Ocean Beach, Pacific Beach, etc.

Alternatively, the Transportation Crunch could be solved by being able to eat lunch downtown, then relax in the sand in Ocean Beach, followed by sleeping overnight in rural East County. So far, the Girls Think Tank, GTT, at [GirlsThinkTank.Org](#) is the only organization attempting to get the Homeless declared a class of handicapped (income handicapped) and included in the S/D/M, Senior-Disabled-Medicare bus and trolley pass system, which would become S/D/M/H, with H for homeless. Cost? Well, if the homeless are no longer a problem downtown, because they are out on the beach instead of in front of your bank, that might make Clean & Safe unnecessary. **How much do they cost?**

[Union-Tribune Helps Lie, Protect City Attorney Jan Goldsmith](#)

[Says Goldsmith did not know about "Felony Hopscotch" prosecution for sidewalk chalk](#)

Lawyers in case say he negotiated the terms

utsandiego.com/news/2013/nov/22/tp-goldsmith-not-told-before-sd-prosecuted-chalk/ San Diego is so broke because the City Attorney and police are sufficiently out-of-control as to get the city SUED a lot, for millions of dollars each case, when the City ignores the First Amendment and all other laws, and proceeds with illegal charges, illegal suppression of civil

rights, the complete ignoring of Federal Restraining Orders, and similar. How much will the taxpayers have to pay for his famous Felony Hopscotch lawsuit is unclear, but \$5 million is my best guess. The legal papers in the case specifically indicate that it was Jan Goldsmith, personally, who was involved in negotiations, so how is it that he is saying he did not know?

What bothers me about this sordid mess is that the US Attorney General supported this prosecution. Is selecting an incompetent A.G. grounds for the impeachment of President Obama? Can you say, "Heil Hitler"? A Black Hitler running a Jewish-Nazi Gestapo and Mafia? Truth is certainly stranger than fiction! Work in some sex, drugs, violence, and a few UFO aliens, and we can make a TV movie, "The Reich Lives Forever!" (Simulated vampire blood sold separately.)

Flouride is for Control, not Teeth

Used for years to control the public

Similar to the blood, semen, rohypnal, and even clonazepam added to all foods

Stannous Flouride, Sodium Flouride, and other flourine compounds were found to be a significant way to control people, brainwash them, "veg" them out, and make them less violent, less desiring of fairness, and similar, as early as the 1950s. Ten years later, flourides were introduced to the public drinking water supplies in much of the United States, and people were told that it helps to prevent tooth decay, which it does, especially in young children, but not so much in adults. Its real purpose is to help make people just a tiny bit "high" so that they can be confused into working harder for less money, and shut up about their wants and needs. It atrophies the Pineal Gland of the brain, which puts out some of the hormones that make humans intelligent. Flouride and flourine also destroy the auditory nerve, gradually making people deaf, and thus more tolerant of ever-louder noise. In countries such as Mexico, where bottled water is used instead of tap water, flouride is added to table salt. Many workers who deal with flouride compounds, such as refrigeration and air conditioning workers, eventually go deaf from breathing in small amounts of refrigerant gases containing flourine. Flourine is a rare substance, in that it can react with sand or glass, etching it, and can even form compounds with the noble inert gases such as neon and xenon. Never mind, I do not want to hear all this truth. Just give me another glass of that tap water, with the nice chlorine and flourine odor. Flourine goes right through filters, by the way.

Thanksgiving Cancelled

Many Families Had No Money

Selfishness, Greed Abound

Thanksgiving was cancelled for many poor families in the San Diego Area, who could not afford it and got no help from the government, churches, and nonprofits. My poor families in Tijuana, too, San Diegans who had to escape high San Diego rent prices, got no help and I could give them none. Do I cry or get angry? Reminds me of one Thanksgiving where all I had was a can of tuna. Back when I had lots of money I gave free turkeys to poor families, but wealthy folks must be a lot more greedy and selfish now. A friend of mine in San Diego, who lived in the Soviet Union, said that they went down the same way. He is trying to move to Australia, which guarantees everyone a job at \$17 an hour, \$700 a week, with much lower prices than the US. They do not allow very many immigrants, however.
