Alvarez Backed By the Corrupt Organized Crime Side of Labor

Half your rent money goes to
Organized Crime, the Mafia
Gangsters in Real Estate

**Alvarez lacks the "moxy" and
experience to deal with Organized
Crime and its Entrenched Mafia
Bosses that run Real Estate,
Drugs, and Street Gangs in San
Diego**

Anybody with brains backs Mike Aguirre

Matt Potter correctly asserts in the San Diego Reader that the "Union Support" and backing that David Alvarez is getting is from the same Mafia Organization gangsters that control the Real Estate and Banking Mob. Their union members average \$55 an hour under special deals. Their endorsement of Alvarez means he would be an awful Mayor and require our time and money to become recalled immediately. Who do the Office Cleaners Union, the Hotel Maids Union, the Taxicab Drivers Union, the Bus Drivers Union and other "ordinary folks" labor unions support, such as the Fast

Food Workers Union? Who do the teachers back? **The Police Unions are Mafia, so who do they HATE? Which candidate is hated by the rich billionaires?**

Nathan Fletcher? Is he the guy who molests little boys, or the guy who masturbates openly in public rest rooms, or the guy who sexually harasses women? I get all these "candidates" confused. Oh, I remember. He's the one that the gangsters who run the corrupt Real Estate Mafia want, so they can increase the amount of extortion money they get from everyone. **Half of your rent money gets paid by your landlord to "The Boys" every month, making it expensive to live here. Businesses pay this "double rent", too, making all prices high in San Diego, plus smaller businesses cannot afford to start up, stay in business, nor hire employees, leading to job scarcity.** Can't mess with "The Boys" of the banking and real estate biz, either, or you end up dead in the river. Your rent should be 15%, and no more than 20% of your income. You heard differently from the Real Estate Mafia news reporters on television, too, of course. **Mike Aguirre would be a good choice for Mayor because he has fought Organized Crime, including the deadly Banking and Real Estate Mafia.**

Filner Deprived of Justice

**Goodbye to the ONLY good
Mayor SD ever had
Broadcasters could face
criminal prosecution and/or
loss of FCC licenses**

Forced to plead guilty to crimes he definitely did not commit, Bob Filner avoided the alternative of being unjustly convicted and sentenced to prison. The "fix" of having the

Mafia use their news media to remove him was in place the moment he won the election. Don Bauder says more in the San Diego Reader sandiegoreader.com/news/2013/oct/18/ticker-goldsmith-worked-filner-ouster-8-mo/ City Attorney Jan Goldsmith and the La Costa Faction of the Bildenberg Group, the Mafia, helped orchestrate this crime. The group is part of the IMF, International Monetary Fund, which owns the Federal Reserve System and the Social Security System. See more at www.NZ9F.com/Gnosis. You will not find dirt on this group using Google, because they own Google. Bing might help.

As has been previously stated in other editions, no one has been willing to show any video of any alleged misconduct, despite there being a lot of very inexpensive recording devices available, plus lot of cameras inside City Hall. This is because if people saw what really occurred, Filner would never have been criminally charged nor forced to resign. A **New Low** in slime-ball Mafia Gestapo corruption, from the ONLY profession less-respected than elderly prostitutes, the **television news journalists!** Smile, wave, look sexy, and lie your ass off, right into the camera. Dontcha love it?

Now what needs to be done is to prosecute the San Diego Broadcasters for **Felony Obstruction of Justice**, in not allowing Due Process, and permanently revoke all their FCC broadcast licenses. Any lawyers want to file the papers? Any FRN Licensee, including myself, can file that, but criminal prosecution will not take place because the legal system is too corrupt. The Court System is more concerned with "proving" things that are false than establishing any sort of "truth" or "justice", and this one deals with saving their own ass. News media help to obscure, hide, complicate, and confuse the truth, which is their function for the Ruling Class Mobsters. Same as pro sports keeps peoples' minds off of what is really going on.

Were Filner a Republican who committed some misconduct, he would have been treated like Newt Gingrich and Arnold Schwarzenegger, instead of Bill Clinton. Several of the actresses

hired to lie on TV have been identified as fakes. However, if Mike Aguirre gets elected Mayor, which is very likely, the removal of Filner will have not destroyed San Diego.

Ray Lutz, Arrested With Occupy, Gets Huge Settlement from City

Voter Registration Station Torn Down

Details Must Remain Secret

The lawsuits from San Diego unlawfully arresting Occupy Wall Street - San Diego protesters over two years ago are starting to make their way into the legal system. The first of them, organizer Ray Lutz, who heads a citizen fairness group and is active with Activist San Diego, just settled out of court. It is hoped that San Diego has learned its lesson and that violation of First Amendment rights to protest will not be abridged in the future. Ray commented on Facebook: "It's the private parties that made the demand. We wanted it public and at least I am allowed to say whatever I want to about it other than that. I see the non-monetary concessions as even more important. The City Attorney has to publish a statement about the fact that they will follow the law and the office building has to send around a memo to all employees in the building telling them they must respect peaceful political activity in the public square. I'm sure some of the settlement details are public record once all the paperwork is completed." He continues: "I agree that the City was mostly behind the citizens arrest, that was just cover for them." My comment to him was: "Congratulations! Things like this make the City think twice, we hope, when it gets tough merely for doing things peacefully and legally. Plus, voter registration is PATRIOTIC!" Lutz also stated: "It could have been much more painful to them if we had actually going through the trial, due to the incredible negative publicity they would get. But I had to weigh the

stress factor and decided to take the settlement as negotiated. But I think I really blew it by not including a sexual harassment charge from the looks of that frame from the video." The video can be seen at sandiegolovesgreen.com/ray-lutz-settles-with-city-of-san-diego-for-voter-registration-arrest/

Just an update that the security guards at the City Hall Concourse were still harassing people for "trespassing" and claiming same to be "private property", including the 3rd Avenue sidewalk, on October 25, more than a week later.

Criminals, Street Gangs, Force Nonprofit Help Program to Close

Dreams For Change at Cornerstone Church in Vista harassed by drunk neighbors with guns, dope pushers

53 Persons Made Homeless

Due to threats of violence by criminal elements in Vista, **Dreams For Change Program** was forced to close its program, causing 25 who were enrolled and 28 on waiting lists to be forced back into the streets. Neighbors of the church, some carrying weapons and other with open containers of alcohol, accosted the program members several times and the Center had to be permanently closed for security reasons. The City of Vista has expressed the opinion that those doing the harassing are part of the same group as is being harassed, but the Nonprofit Organization which runs the program is said to have evidence to the contrary. As yet, the San Diego County Sheriff, which patrols Vista, has neither taken action nor commented. The San Diego Reader rejected a similar article as "short on facts". Dr. Teresa Smith, Ph.D., at DreamsForChange.Org, is the Organizational Chair, and the org is sponsored by United Way, SD Co. Health & Human Services, Jewish

Community Foundation, Rotary, Lion's Club, USD, SDSU, USC, Verizon, Walmart, several churches, and the Downtown Fellowship.

Swiss Give Each Citizen **\$700 a Week, same as** **Australian Minimum** **Wage**

Covers All Basic Needs,
whether you work or not

Many wonder why our "rich nation" does not solve its homeless problem this way. Republicans called "Morons" by prestigious Esquire Magazine.

You need about \$1,200 a month in needs such as food, basic clothing, and bus transportation that are not part of rent. The \$2,800 a month formula used by these two nations allows another \$1,600 a month for rent, utilities, and disposable income (discretionary spending) which can be used for entertainment, cell phones, computers, and other things, if not used for rent. In San Diego, your rent may easily be \$1,200 with utilities, especially because San Diego electric rates are the highest in the world, not just the United States. Even in San Diego, the Swiss and Australian \$2800 A Month Plan leaves you with \$400 a month for entertainment, emergencies, and getting ahead such as saving up to buy a car. In Australia, you do not just get the money, but you do get a job that pays that much.

Meetings

Girls Think Tank (GTT) met Thursday, Oct. 3, . with 18 present, including 6 lawyers, and 3 super-intelligent homeless. • GTT is still wrestling with the City over **toilets**, possible use of toilets at the Padres' Petco Park, **MTS** problems, and the new Portland Loos. • The

suggestion of using the old Downtown Library as a **homeless shelter** was discussed. All of these issues have bond problems, some of the bonds issued stating right on them that "homeless persons shall never be permitted access to this facility." We have NO rights whatsoever! **Many get turned down for housing because they were in the past homeless. If this is the case, how do you EVER get non-homeless?** • The **winter backpack distribution** will be at 9:30 AM on Thanksgiving Day, across from the Neil Good Center, 299 Seventeenth St. • Project Homestart has a maternity **shelter for homeless mothers**, phone 619-692-0727. • The working committee groups, **Police Abuse and Misconduct**, and **MTS Transit**, did not have new material since last month. I commented that MTS, the Metropolitan Transit System of San Diego seems to act like a "redacted" or Secret Government Gestapo group, such as a Christian Council of Knights or a Jewish Kabbal. Member identities are often secret, as are work addresses, email addresses, functions of the person, etc. And, MTS makes its own laws, which apparently supercede regular government laws, and even has its own police enforcers of those laws. • GTT has a new paid administrator, who is a lawyer, and will be representing them legally. More at GirlsThinkTank.Org. ♦ **Occupy San Diego (OSD) met Monday, Oct. 7**. and held discussions for about two hours regarding **labor organizing**, making San Diego **better for families, past history**, and the new radio station friendly to Labor and Occupy at **89.1 FM, KNSJ**. Everyone got something out of the meeting, but in-person meetings are very rare and sparsely attended because of the risk of being arrested, beaten up, sent to prison, and being added to the "Do Not Employ" or "Do Not House" lists. About 25 people braved the event. Occupy normally meets on its 2,000 Facebook sites, 40 of which are in San Diego, such as Occupy Pacific Beach, Occupy Mission Beach, Occupy SD, Occupy San Diego, Occupy Wall St.-San Diego, and many more. •

The meeting was attended by some members of the **International Association of Machinists**, who represent San Diego aircraft workers, and who indicated their solidarity with Occupy.

KNSJ Radio is experiencing organizational problems, and the Nonprofit Board at **Activist San Diego**, which owns the station, dissolved the Radio Board, causing much confusion. The station is still operating, but with very few local programs, no advertising sales donations, much infighting, no work being done except by those with programs on the air, no plans for marketing or development, no leadership, and huge voids. Reminds me of HAT, the Homeless Advocacy Team, which also pays no help. I was on the Technical Committee, being a radio/tv engineer, and it was very disorganized; I was universally disliked by the leadership, but liked by the rank-and-file ordinary members. I am no longer involved.

(Full disclosure of a journalist's personal relationship to those being written about.)

OCCUPY PHOTOS BY KALI KATT (Denise Goochmansky) The author is shown behind the flag.

♦ **HAT, the Homeless Advocacy Team**, met Monday, Oct. 14, with an insufficient number present to transact business. All persons are both transportationally challenged, plus would have to re-work their plans for obtaining food or other needs that day, so this is to be understood. So, HAT is temporarily shut down, and those who are part of it need to use all of their efforts for survival. Even getting a library computer involves first getting some form of transportation to a library, plus often a long wait. ♦ **TACO, the Third Avenue Charitable Organization**, also met Monday, Oct. 14, with about 35 persons present, and announced that they had acquired a lot of socks for clothing distribution. Rachel Line, the Church Secretary, will no longer be in charge of volunteers, so that task falls upon Jim Lovell, making him no longer able to assist HAT on Mondays and Fridays. A new Volunteer Coordinator will be sought, because Jim is very busy, being one of the very FEW Social Workers who is permitted to help anyone, regardless of programs, funding, etc. ♦ **MAPSS, the Metropolitan Area Providers of Social Services met** Oct. 23, and I could not attend due to illness. I am told that the only pressing issue is that Obamacare begins in 2 months, and there will be no more LIHP or CMS health services. The good news is that everyone now qualifies for Medi-Cal, which will save the taxpayers billions of dollars a year. The news media lie about this, too. See the truth at www.NZ9F.com/Health. The rich Republicans who perform surgery or own hospitals will no longer be able to rape the government for expensive surgery, so they hate Obamacare.

Medical Marijuana

Is Grass the New "Holy Communion"? Pot works better at hypnosis and control

Marijuana is an important medical hypnotic and hallucinogen that confuses people into thinking that their situation is better than it really is and their pain is less. THC, tetra-hydro-cannabinol, an insecticide and sunscreen produced by the marijuana plant, is its active ingredient. The only direct medical benefit of THC is reduced optical pressure, so it could be used for that, except that we currently have much better drugs for treating glaucoma. Marijuana does work very well as a placating placebo-hypnotic drug, so patients can be told that it cures anything, and will believe that it helps. It makes you "high", confusing your judgement, for about 4 months when smoked. After the first few hours, you are actually still high for months and do not even know it. All of this helps in treating pain or emotional trauma. Bad music sounds good, awful art looks great, and everything is okay. Don't worry, be happy. You are the Happy Hippie.

So, do we need dispensaries? Yes, and we need to keep them from buying Black Market dope, from the same guys who teach schoolkids to shoot heroin. Pot costs ten dollars a pound to produce in volume, so we should allow a 400% markup for profits, and require it be sold at no more than \$40 per pound, which is five dollars for 2 ounces. This would allow those interested in providing a needed medical service to operate, without gangsters looking for a fast buck. And, it would allow a valuable drug to be purchased with a minimum amount of economic abuse. The grower making 400% is more realistic than the current 425,000%, because the super-profits

bring in Organized Crime like the heroin pushers and real estate agents.

If you are confused, get off pot for 4 months, and with a clear head, think. Grass hypnotizes people far better than Holy Communion, so it is a good drug, but like Communion, there are a lot of lies told about it, by both sides. Some combination of THC, rohypnal, and Holy Communion (human blood and semen hidden in food) is probably the wave of the future, and works best for hypnosis and control of the commoners of the general public. Look for THC to be someday added to ALL foods, the way rohypnal, blood, and semen already are, to maintain hypnosis and control of society.
