Published by San Diego
County's 10% (310,000) Homeless, 15,000 to 40,000
(on any given day) Unhoused, and 2 Million+ Nearly-
Homeless* *(Official HUD Statistic for what THEY call San
Diego's "Cost Burdened". The State of California calls them
"Financially Stressed.")

We go out to 178,000 in the first ten days of every month, more
often when necessary, plus 500 of the 2-page Street Edition.
Paid advertising not accepted, free ads sometimes provided.
COPYRIGHT 2014, ALL RIGHTS RESERVED, Dr. John
Kitchin, Ph.D. (Psychology), Chancellor (and all that's left of)
Milwaukee Free University.

No one WANTS to be homeless, and no one
CHOOSES to be homeless. It happens when
everything you do to prevent it fails to work. Making
anything illegal that cannot be prevented makes no
sense. Instead, make it illegal for circumstances to
force people to become homeless against their will.

Once homeless, people will need to use booze
or dope, just to stay sane, and many lose that fight,
too, becoming mentally ill and often killing
themselves. This ends the problems that society
forced upon them. SelfServatives (Conservatives)
cause funerals, but they don't mind, because they
don't believe in God. •

Was it Smith-Barney or Morgan Stanley that said,
"The object of Free Enterprise is to make money by
cheating people, and here we make money the old-
fashioned way: We steal it." • You know that you
are having an impact when both Microsoft and
Google interfere with you at the same time. • Our
huge apartment and condo complexes downtown
are like giant cockroaches, devouring the city. If we
don't get an exterminator in here soon, we are
doomed to become as bad a stink-hole as awful New
York or Los Angeles. • Welcome to San Diego,
where your rent is twice as much as your salary! •
Downtown keeps getting more crowded, polluted,
stinky, and ugly, but will never be as bad as the **BIG
SNOT RAG (formerly the Big Apple)** even though it is
a putrid, dangerous, stinky mess. **TIME TO BAN
FURTHER DOWNTOWN CONSTRUCTION!**

Latest News:

City Has No Comment on Homeless Demands, Passes Meaningless Wage Hike; County Issuing Free MTS Bus Passes

HUD says you need \$32 an hour, 40 hours, per household, to live in San Diego. That is 4 to a rental unit, at Minimum Wage each. The new \$11.50 wage permits three to a rental unit, but largely the increase will go to those who come up from Tijuana to work every day, which does include many homeless. Useful, except that the California State Minimum Wage is going to \$12 an hour, and so, useless except to make folks think nice thoughts about the Mayor and Council. The Minimum Wage also deals with children working part-time and living at home, and those working part-time secondary jobs. Australia, Iceland, and Switzerland have an \$18 Minimum Wage, and that has resulted in Full Employment and a robust economy in those nations, as folks have more to spend. • Free County Bus Passes for anyone who gets Food Stamps. Tell your worker that you want to look for a job, and need a bus pass.

News Censored Out:

Milwaukee **Police brutally beat and kill a homeless man, then cover it up** in the news media. The real story from Revolution-News.Com (You MUST have the hyphen in the address or it will not go.) <http://revolution-news.com/new-account-witness-shooting-homeless-man-milwaukee-police/>

British bishops warn that there are **thousands of new and recent allegations of Catholic Priest pedophilia** more recent than past lawsuits. <http://www.independent.co.uk/news/uk/crime/church-child-abuse-scandal-archbishop-of-canterbury-justin-welby-warns-of-morerevelations-9603554.html>

Israeli soldier confesses as to mistreatment of Palestinians. <http://www.intifada->

palestine.com/2014/06/israeli-soldiers-speak-abuse-palestinians/

Nazi-Zion Terrorists Attack Palestine, Continue Ethnic Cleansing (Genocide)

Welcome to Gaza, where we are happy to help you with your problem of living here...or living at all. It is SO unfortunate that Hitler's Third Reich is still alive, operated by Israelis. Gaza responded with rockets against Israel, which caused no damage, as usual.

How does this involve the homeless? Many of the same banks and wealthy individuals backing the Genocide also tear down housing in San Diego, making us homeless, a different tactic in Ethnic Cleansing than destroying homes by war. We are getting Ethnically Cleansed (Genocided) as we die of pneumonia on the sidewalks. Homeless is homeless, regardless of cause or blame.

Censored Out of the San Diego Homeless News!

I visited the Mayor's Office to give him a copy of the Street Edition of the San Diego Homeless News and noticed that he had cute young escorts. I remember when I occasionally hung out with Organized Crime Bosses, and they had the sexy 18-year-old females who flirted with everyone. I mentioned to someone in the news media that the **Page Two** LAST thing SD needs is another

Mayoral sex scandal, so the last I knew they are no longer part of the staff there. This is better for the image of the City, anyway.

Iraqi Freedom is Just Months Away!

As soon as all US troops leave, whatever they left behind, such as governments and people, will be rounded up and killed. Those who helped the American Military Occupation will be executed, those who voted for an American as President will be punished, and the nation will elect a new Dictator to replace their beloved Saddam Hussein. The Bathe will again reign, much like the Bar reigns in the United States. Bathe and Bar sounds a lot like soap, but nothing is clean about either government.

Solar Hydrogen Trends has a

device that makes free chemical energy available by converting oxygen atoms in water into hydrogen fuel atoms via De-Fusion.

The De-Fusion Reaction (DFR) is Molecular Disassembly, the opposite of Nuclear Fusion. This process uses radio-frequency energy to dismantle the nucleus of atoms (atom smash), causing other elements to form. What it does is to convert water into hydrogen, not by electrolysis, but by nuclear de-fusion that makes one oxygen atom into 16 hydrogen atoms. This requires extremely high voltages, and RF (radio frequency) energy applied on the **resonant frequency of the oxygen atom**. I am an RF Engineer, and had always suspected this could be done. This applies electronic energy to convert nuclear energy into chemical energy. It is 10,000% efficient, meaning you get more chemical energy out of the nuclear reaction than you put in via RF (radio frequency) electricity. It is actually very simple and not dangerous. ••• Once the hydrogen is created, it can be stored in pressure tanks and used the same as propane. Hydrogen will power your gas home heating system, your swimming pool heater, your gas hot water heater, a generator, a gas RV refrigerator, or even an RV or semi truck engine that was already converted to propane. Conversion from propane to natural gas involves the same things as converting propane to hydrogen, just different orifices, pressures, and **Page Three** carburetion adjustments. With this

tech, a semi truck can go coast-to-coast on 50 gallons of ordinary water, and no electrical current or other energy added except that coming off the alternator, fed into a microwave radio transmitter to convert the water into fuel. **This will put the pigs at the gas pumps out of business. (I already hear oinks of complaining.)**

Solar Hydrogen Trends Inc., 525 Middlefield Road, Suite 250, Menlo Park, CA 94025.

CitiBank Gets Fine For Fraud Reduced From \$12 Billion to \$7 Billion, NO Arrests, NO Jail Terms

Mike Garcia, on Facebook: New York A.G. Schneiderman announced fraud charges against Barclays in connection with the marketing and operation of its "Dark Pool". I wrote: "So we've seen this play out so many times that I can tell you exactly what will happen. In the next six months or so, Barclays will settle this suit and their stock price will go up 3% or more because Wall Street will think (and rightly so) that Barclays got off easy. No one will go to jail and that will be that." <https://www.facebook.com/M.G.onFB/posts/945750435441973>

Today Citigroup announced its settlement with the U.S. Justice Department. The settlement is more than twice what many analysts expected but less than the \$12 billion the government sought in negotiations with Citi, the third largest U.S. bank. **NO CRIMINAL CHARGES WILL BE BROUGHT.** Today Citi shares rose 3.2%. This has become so predictable you can take it to the bank (pun intended)! **NO JUSTICE NO PEACE #PitchforksAndTorches Citi to pay \$7 billion to settle U.S. mortgage securities probe.**

BIG Press on Bank of America Treatment of U.S. Whistleblower - But, You'll Have to Read German!

Germany's respected Handelsblatt, that country's parallel to the Wall Street Journal, recently devoted an entire section and a featured interview to the deliberate and ongoing crushing of American Michael Winston's finances and spirit by one of our country's largest banks.

"A Life Like in the Detective Novel" was the headline, and the article traced Winston's frustrating path from the time in 2005 when he discovered full-scale fraud at Countrywide, their attempts to get him to make false statements to Moody's rating agency, their board members lying under oath, forged documents, and the triumph in 2011 in receiving an award of \$3.8 million in compensation in a jury trial. In the U.S., that caused him to become a 2011 media -- if not banking industry -- hero.

A New York Times headline screamed: "How a Whistleblower Conquered Countrywide." The Consumer Rights Publication, The Corporate Observer, applauded journalist Gretchen Morgan for the story and for "continuing to 'shine a light on practices in American business that -- while not pretty -- must be exposed.'" It declared:

"The story has a happy ending. In a jury trial against Countrywide and Bank of America, Michael Winston prevails and the jury awards him \$3.8 million. For Mr. Winston, surely a man of principle, it likely not just about the money."

Three Years Later -- Not Quite a Happy Ending. **Winston never received one penny** (pfennig, to my German readers) of the damages. The new owner of Countrywide, the Bank of America, began to use its money, might and influence to overturn the jury's verdict and judgment and to do to Michael Winston what every malfeasant business wants to do with those who break ranks and

reveal dark secrets -- break them financially and have that experience serve as a clear message to other employees of the dangers inherent in truth-telling.

<http://huff.to/1r6mxbx> Editor's Note: Perhaps some ex-military sniper will secretly get involved and kill the judge in this matter. We can only hope.

Concerning the murder of Shane Hayes by San Diego County Deputy Sheriffs

Meetings:

The Girls Think Tank,

www.GirlsThinkTank.Org, met July 3 at 330 A St., with 13 present, average for a Holiday Weekend. Only one Director, Emily, the Chairman, was present, and there were 6 new people, including an attorney, a social services intern and student, and two community leaders. There were also 4 intelligent homeless, and one official from San Diego County present. • Bike San Diego wants to help solve the homeless transportation problem by providing free bicycle repairs. They have worked with Alpha Project in the past. • Ideas were sought regarding the Free Backpack Distribution. • Toilets were updated and are still mired in thousands of red tape items. I presented the info that the Homeless are in the process of SUING the City for toilets, promised over 5 years ago (2009). • It was mentioned that on KPBS and Voice of San Diego forums the Homeless are being crudely and ruthlessly bashed, and not defended. • Ideas are being sought for where the Legal Clinic should be held. The New Downtown Library is a possibility. I mentioned that less-intelligent homeless hang out at recycling centers, and intelligent homeless hang out in libraries. • Free volunteers for Nonprofits and **Page Four** Help Orgs are available from San

Diego County right now, those who need to complete their Work Assignment for General Relief. Contact Gilbert Jimenez. I am NOT permitted to provide any link or telephone number. Those on Welfare are given these work assignments to ready them for work, and give them job skills. They are also supposed to be considered if a job opens up. This is the Poor Man's Internship, and no, you do not have to do a Monica Lewinski like most rich family interns. • I was not permitted to ask about 5 or 6 questions, such as why there are suddenly so many homeless possessions on the sidewalks. • UCSD now has a new bike program for the homeless.

The **Metropolitan Association of Providers of Social Services met July 23 with 24 present**, which is average. The main scheduled topic is an upcoming presentation for professional case managers as to how to deal with troublesome clients, volunteers, and employees. • There is a new point-system used to determine who gets housing voucher help, called VI-SPDAT, Vulnerability Index - Service Prioritization Decision Assistance Tool. It scores points for various vulnerabilities such as being over 60 years old. • **You can get a free bus pass from San Diego County if you tell your "Food Stamp" Worker (also called SNAP, CalFresh, EBT) that you want to apply for jobs. This is a NEW program. Say that you want to get a Work Project.** You can also get gas vouchers, clothing vouchers, bus pass, resumes, etc., if you register with ANY employment service. • Welfare, called General Relief, got its amounts increased. Also, anyone who gets Food Stamps or equivalent can automatically get Medi-Cal. Anyone with Medi-Cal can get a free cellular telephone, including airtime. • It was mentioned that some violations such as urinating in public, illegal lodging, failure to move, etc., are being handled by Attorneys Cory Briggs and Robert Scott Dreher, NOT the Homeless Court. • There is a new project to develop a MAP for the homeless that has the most important services on it. • There is a new project to present what services are available in Tijuana, for those who cannot find same in San Diego. • The presentation was on Veterans Village San Diego. VVSD has a shelter for Veterans, in Old Town, that supplies food, housing, clothing, substance abuse counseling, job training and search, and legal services for ANY veteran other than those Dishonorably Discharged. They also operate an Employment Service for all veterans whether they live in the VVSD village or not. www.VVSD.net, or 619-497-0142. Enrollment is Thursdays at 11 AM, 4141 Pacific Highway, which is just south of the Old Town Trolley Station. • **Page Five**

The **Citizens Oversight Projects (COPS) met Thursday, July 17, with Ray Lutz, Mike Aguirre, and 30 others present**, regarding the San Onofre Power Plant Ripoff. There is currently a struggle with the CPUC (California Public Utilities Commission) regarding this, and that is ongoing. The power companies bought a new replacement generator from Misubishi, without obtaining any license, nor any safety inspection, and that failed, causing billions of dollars in damage to the San Onofre (near Oceanside) Plant, and its becoming highly radioactive and permanently never repairable. The generator was not what was called for in the contract, and was experimental, never tested, and not as specified. The new generator itself was not necessary, as the old one had at least ten years more life on it available. Now, the utility companies want the rate payers to pay for their \$3.3 Billion in costs, plus cleanup. There were investigations of the reason for failure, one of them by the Chief Investigator of the Three Mile Island disaster, but all were fired for giving the truth. Their work was hushed up. There is still NO official cause for the failure. San Diego Gas and Electric rate payers are still being charged billions of dollars for San Onofre, even though it provides no electricity. Senator Barbara Boxer wants a Criminal Investigation, even though there was no criminal investigation of her and her husband's involvement in Sept. 11. Contact your elected officials and public.advisor@cpuc.ca.gov.

Downtown San Diego!

Help the Gambino, Gotti, and Genovese
Crime Families Extort More Rent Money

Toto, we're not in Kansas anymore. We're in Hell.**

A Message From Your Holy

Government: Stay hidden, because if we cannot find you, then you are not homeless.

Low homeless counts help us to ignore the problem, receive less funding, spend less money, and have an assortment of churches and nonprofit organizations, owned by our relatives, get rich on whatever money we do spend. We cannot be arrogant, fat, rich, self-loving pompous bastards unless we have second-class weasels as poverty-cases like you to walk on. Stay poor, beg for mercy and the scraps from our table, and we will chain you up economically, giving you a minimum-wage

slave-job. Otherwise, you starve and die, which is okay with us, because, after all, you are not a human life unless you have a lot of money. Everybody knows that except you bums. (Editor's Comment: For once, words of truth from our Government. How rare!)

Suggested Nonprofit Expense:

Hotel vouchers for homeless political speakers the night before press or government meetings / interviews.

Transportation to and from political meetings (event, hotel, airport) for homeless speakers.

Clothing provision, lending, rental, etc., as appropriate for those representing the homeless.

Limited photocopies provided of important materials.

Computer use fees, when library computers cannot be used.

Food and/or meals when attending meetings and on any journeys related to same, for homeless representatives.

Presented by **Eurapean Oryuzan Uranus**,
specialists in Portable Toilets.

END. PAGE SIX OF SIX.
