Downtown Partnership – Civic San Diego

The cause of our homeless problem plus failure to fix it, is now getting heat from the **Community Budget Alliance**, the **Center on Policy Initiatives**, and the **State Legislature**. **Assemblymember Lorena Gonzalez** is sponsoring AB 504, to regulate this agency. Cited as problems are local hiring, construction wages, affordable housing, and public input, as well as accountability. Civic San Diego operates the gang-mob “enforcers” of Clean and Safe, and supplies the human poop bags (page 3) with pictures of dogs on them to deal with the homeless problem it created. They are currently being asked to prove that there is benefit for the millions of taxpayer dollars that they receive.

On Wed., Mar. 18, 2 PM, City Hall, the City Public Safety and Liveable Neighborhoods Committee will hold a public meeting. In the past, the Downtown Partnership has used abusive and even violent Spirituality against my being able to speak critically of it on the issues of toilets and homeless storage.

San Diego is the only California city that has delegated its Eminent Domain, Redevelopment, and similar powers to a Mafia “nonprofit”, resulting in our highest percentage of homeless in the world. This also creates a Welfare Fund of taxpayer money that goes only to billionaires, at the expense of everybody else. These wealthy gangsters do not need General Relief money while the poor

We represent the world's fastest-growing ethnic group, the homeless, the **only** group that gets **NO** protection from discrimination in employment, housing, education, or hate-crimes. We are those who suffer because the wealthy own everything.

Published by San Diego County's 11% (330,000) Homeless Rotation, 15,000 to 40,000 (on any given day) Un-housed, and 2 Million+ Nearly-Homeless* *(Official HUD Statistic for what THEY call San Diego's "Cost Burdened". The State of California calls them "Financially Stressed.")

live on sidewalks and starve. Godfather Papa Gambino opposes any measure to control **HIS** "boys" in **HIS** city. Paying 71% of your rent to the Mafia is why the Genovese Crime Syndicate can have control over our politicians and television stations, and why high rents have plagued San Diegans, causing so many homeless.

Support Lorena Gonzalez and her Assembly Bill 504, and just say "NO" to overpriced MOB real estate. Opinions? City Hall, Civic Center Trolley Stop, 3rd and C, 2 PM, Wed., Mar. 18. More information in the CityBeat article "Civic San Diego Showdown" by Joshua Emerson Smith,

IN-YOUR-FACE EDITORIAL

Goodbye, Chargers! Hello Italian-Style Fascism

The new stadium in Orange County will deprive San Diego's team of 30% of its revenues, and it is already in trouble on ticket sales. This means the average game will be only half-full. **Should they leave San Diego, or lose money, file bankruptcy, and go out of business?** A new stadium in San Diego would not help anything. Even Los Angeles could not keep a football team, such as the Raiders. Do you get up to watch your home team play at 10 AM on the East Coast? A football game schedule that has all games 2 hours later than currently might bring the West Coast into the game of football.

As far as a Downtown stadium goes, Petco Park cost 4 thousand San Diegans their homes, which were demolished to build it. One thousand are still homeless, and about 200

have died from related complications such as pneumonia or suicide. So, was use of taxpayer money to do that a good idea? Did any of you go to the 200 funerals caused? Did any of you news media cover them? **What a motherfucking sick bunch of turd-heads in San Diego! Go FUCK yourself, slime-ball.** (Gee, news and truth both at the same time, including a really great, valid opinion. I kinda like In-Your-Face editorials.) **I welcome comments, except from those nut-cases that San Diego has so many of.** John Kitchin, nz9f@hotmail.com. PS: The lunatics hate, me, but I like it that way. Answering them is sort of like talking to your pet, or Jehovah's Witnesses.

California Assembly Speaker Toni Atkins, along with her wife **Jennifer Lesar of Lesar Development**, came up with San Diego's Downtown and Hillcrest development plans years ago that caused us to have **more homeless here by percent of total population than anywhere else.** The **Downtown Partnership** (and its previous incarnations) helped to carry this "development" out, not only making more homeless, but also demoralizing, harassing, and even terrifying those homeless that they caused, usually leading to suicides. Some of the master plans for all this mistreatment came from the playbook of the **Little Italy Association, the other IBM (Italian Businessman's Association).**

The recent shake-up in small newspaper ownership and control has meant that now the **San Diego Downtown News** has given each one of the three homeless-creation mechanisms its own column (**Toni Atkins, Downtown Partnership - Clean and Safe, Little Italy Association**) but they have also been publishing my editorials, and told my personal story in their December edition (2014). A homeless column? No, the Godfather would object, the Lincoln Club would make trouble, and the City Cabal (who tried to kill me in 2010) would have a heart attack. Calm down, it can never happen for fear of losing too many advertisers. Just the same, if **PAGE TWO** the homeless problem were

solved, that would be very good for real estate, business, and tourism.

Years ago we asked the City to allow us to place human poop bags on poles Downtown, to provide better disposal. The City said that we needed to put photos of dogs on the bags, with the text "Clean up after your pet".

New Auschwitz Shelter, Three Points Military Poverty Prison, both Close March 31

The rubber circus tent Poverty Prison downtown, next to the 16th and National Deadly Toxic Hazmat Fumes site, dubbed **New Auschwitz**, is scheduled to close on March 31. Auschwitz is operated by San Diego City pursuant to a Federal Court Order that it provide winter shelter for those persons enduring oppression from its city-caused homeless problem. This reduces the number who die every year from pneumonia and other complications, including suicide. **In a three-year-long trial, the Courts determined the City of San Diego to be 100% at-fault for its homeless problem.** This led to homeless in San Diego being granted a RIGHT to occupy and sleep on all City lands from 10 PM to 6 AM, seven days a week, forever.

April traditionally brings a clash between baseball fans and the homeless that are newly thrown out of the shelter. Some such clashes have been violent. The exception was the one year that **Mayor Filner** kept the shelter open. Some of the Petco Park parking lots are actually in **Machine Gun Alley**, the epicenter of **The Bottoms Ghetto**, the extremely dangerous area that all of the homeless are being forcibly shoved into, possibly to kill them

off. At least San Diego's homeless are not being required to wear sign badges, like Hitler did to the Jews, and like homeless must do in some cities in France.

Brainstorming

Take cover, because ideas often **reign really hard, and you don't want to be all wet**

Panhandling and Recycling Bureau. Helps the poor and homeless get money via recycling and panhandling, the only two things that currently help. Has a "Sign Bureau" that makes signs like: "I remember when anybody who wanted a job could get one" and "Need money for bus, photocopies, computer sessions, clothing, shower, blankets. All I have is tons of food." Distributes recycling center maps, with rate cards and hours, and provides non-leaking bags for transporting recyclables.

Press Corps. Educates the news media as to the truths about homelessness, and how to cover homeless-related issues.

Independent Network Count Commission. Counts the number of homeless using psychological experimental techniques.

Local Meetings Council. Convenes meetings between court, government, police, fire, community leaders, press, lawmakers, etc.

Meetings:

The **San Diego City Council met Tuesday, March 10**, with about 100 present. The City continued its **State of Emergency** regarding non-availability of **Affordable Housing**. • Occupy San Diego said that many are complaining that their identification cards and other personal **documents are being STOLEN by the San Diego Police and Clean and Safe.** We want a mandatory long jail sentence for officers who do this, because in Mexico same is very common, and the "spare" ID cards are left at the scenes of crimes committed by the police, in order to incriminate **PAGE THREE** others. Does America's Most

Corrupt City have its Most Corrupt Police Dept.? • A member of the press complained that whenever he photographs **evidence of ethics and law violations at the Torrey Pines Glider Port**, 10010 N. Torrey Pines Rd., he gets harassed, punched, kicked, intimidated, and has even been improperly arrested, as determined by a judge. ♦♦♦♦♦

The **Girls Think Tank (GTT) met March 5** with 13 present, including 3 attorneys, 3 homeless, and 2 new members. • Updates are that Attorney Scott Dreher is continuing to fight for storage of our possessions. • The MTS is being petitioned to accept homelessness as a reason for discounted bus and trolley fares. • There is a State Senate Bill proposed by Carol Lieu called the "Right to Rest" which would specify your right to sleep in a vehicle, give food to homeless persons, and live on the street. • There is still concern that the residents of **The Bottoms Ghetto** are not getting cleaning and trashcans that they paid for. In addition, the garbage is not collected often enough, allowing huge mounds of garbage. Cleanups have been featured by GTT and even the Downtown Fellowship, but is duplicating services that taxpayers have supposedly paid for a good use of volunteer time and services? •

Secrets: A Summary of those things taught to Ruling Class children, early in life

If you were born into a Ruling Class family, you already know all of this, and if your parents are Professionals (in the Controlling Class), you know some of this, depending upon their Social Rank. All others, who are not Ruling Class nor Controlling Class Professionals are in the Slave Class, so this will be new to you. In the February 1 edition, I went into some of these secrets in my article called "Cops Fabricate Evidence", and I repeat that here, but also go into many other secrets of Social Class, the News Media, Society, Elections, and the Educational System. The secrets above all this are called "Government Secrets" and "Top Secret" and "Cosmos", none of which can be revealed without going to prison, so I cannot

cover all sorts of secrets, only those that I can legally write about.

Society has a lot of secrets. The term "**Religious Secrets**" refers to controlling people via placing DNA (usually blood or semen) into everybody's food. This enables a type of hypnosis called Gnosis. It is also a religious secret that ministers do not believe in God, heaven, hell, Satan, or a Life Hereafter. They know better. Those things are for you sheep to believe. Also part of the Religious Secrets is that there are secret underground conspiracy groups, called Cabals, millions of them, and they run all hospitals, governments, courts, churches, corporations, etc. The Cabals are the Conspiracy Groups that collect blood and semen from their members, and take it to the food manufacturing businesses that they own. Often these Conspiracy Groups kill police who get in the way, and even District Attorneys. This is nothing new, and has been this way for thousands of years. Religious Beliefs are caused by eating the food that has been inseminated, allowing the religious leaders hypnotic control over those who eat it. Other drugs are also used in all food sold, such as Rohypnol and flouride. • The term "**Military Secrets**" refers to the fact that there are many other planets with intelligent life, and none of those beings considers a human intelligent, just another animal. Also in the Military Secrets is the fact that there are dozens of control drugs, the names of which are Top Secret, added to all food to make people work hard, shut up, and obey. The military adds a lot of drugs to its chow for soldiers, too, because they handle weapons and so need to be thoroughly brainwashed and obedient. Unfortunately, the Military adds so much control-dope to the military chow that soldiers often commit suicide as a result. • The term "**Bar Secrets**" refers to the ONE political party, a secret organization, that controls all of the other political parties in English-speaking countries plus Mexico, and the news media. It is called The Bar of London, and it licenses attorneys and operates our "Justice" System. Justice is a word meaning that the wealthy have their way, and for everybody else, too bad. It is derived from the phrase "Just This",

PAGE FOUR indicating presentation of only

those facts which support the Bar objectives, and the suppression of the truth and all other evidence. A very small percentage of people understand how the system really works.

Bar Secrets: To know the bigger Secrets of The Bar, you must either be a judge, top experienced criminal lawyer, or have been victimized yourself. When a judge's son rapes and kills a little girl, someone else is proven guilty. That is how our system works, or fails to work. Detectives, expert witnesses, evidence processors, the police, prosecutors, and other folks plus lots of money go up against some poor accused person, who has no expert witnesses, no private investigator, and a lawyer with no experience. That's fair, right? To make matters worse, evidence is intentionally tampered with to get a conviction. I was a Police Detective for 8 years, and so I know. Welcome to Reality. There are a small number of persons, maybe 5%, who were innocent yet convicted because of flaws within the system. Most get convicted because of intentional misconduct within the system. I now continue with other Secrets, that are not a part of this previous article:

Social Class Secrets: There are 3 social classes, often called the Upper, Middle, and Lower Classes, but they are really the **Ruling Class** (billionaires), **Controlling Class** (Professionals) and the **Slave Class** (everyone else). All class rank is inherited, not earned, and class changes are rare. The Ruling Class gives good jobs with high wages to the Professional or Controlling Class, plus Spirituality privileges (their blood and semen in everyone's food) in return for their keeping the Slave Class under control, dominated, kept busy, and working hard to make more money for the Ruling Class. Been this way for thousands of years.

News Media Secrets: One form of control exercised by the Controlling Class is the News Media, consisting of television news, newspapers, radio, movies, and now even things like Facebook. These media are used to keep people busy, wandering around wasting time, amused, minding their own business, and out of touch with reality. Each major city has a meeting about 1 PM every day

of all the news media, usually at one of its television stations, where the group decides which 95% of the news will be kept secret, and which 5% will be broadcast and written about. I have been at many such a meeting. We will tell you about Beyonce's new dress, and the Royal Family's pet frog, but not about scandals, corruption, and political secrets. To know what is really going on, you need to be in on this meeting, or know someone who is.

Societal Secrets: Basic control over society is accomplished by two things, **housing** and **employment**. These are the things that allowed racism to flourish for centuries prior to the 1960's. Even today, people are never told that when they fill out an employment, loan, or housing application, it will be compared against all of the other forms they ever filled out in their lifetime, even the confidential government ones, and that this information will be shared with anyone who is on the "inside" of the Cabal and Bar-Mafia system. The persons who will be deciding who gets the job, loan, or housing, work for the Godfather, who runs the Secret Police of the Cabals. This is nothing new. There are also two lists, maintained by the Freemasons ever since the pyramids were being built in Egypt, called the **DNE List** and the **DNH List**. The initials stand for "**Do Not Employ**" and for "**Do Not House**". Much of our present homeless can trace their homelessness to being on either one of these lists. The lists are used to blackball anyone who dares speak up about the wealthy mistreating everyone else, and in some case anyone even knowing about any of this. Intelligent and/or well-educated homeless need to stay well-hidden and extremely secret or we get put onto one or both of these lists, because we are not "supposed" to exist. Of the 30 to 50 persons who contribute to the [San Diego Homeless News](#), I am the only one who can be identified without being black-balled for life.

Electoral Secrets: The Ancient Greeks invented Democracy, where everyone got a vote and was told that their participation in government decisions was through their elected representatives. The elected officials were then used as Public Relations persons for **PAGE FIVE** the government, helping to

explain why taxes will be higher and wages lower. Elections usually involved a tyrant that the wealthy liked, running against a populist, likeable liberal. Most everyone voted for the liberal, but the government counted the votes, saying their tyrant won. People were supposed to think "Maybe my fellow voters see something that I don't." The Commoners never knew that the elections were rigged, and so they obeyed the person that "they" elected. These processes continue today, where our news media are essential at making up all sorts of nonsense about elections.

Educational Secrets: Most things worth knowing cannot be proven. When you go to college, you learn that what you learned in high school was all wrong. Then, you go to Graduate School and learn that what you learned in college was all wrong, too. Finally, you get a Ph.D., and society gives you two choices: You can do government studies that "prove" whatever the government wants to be believed is true, or you can wash dishes and park cars the rest of your life. When governments and corporations pay millions of dollars to universities to prove things true or false, they had better get their money's worth. Professors are paid to create "studies" to "prove" things, that look good, and convince not only the public, but also college students. A huge amount is not true at all, just bought and paid for. Global Warming is a good example, where the universities shout that we are all gonna die, so fork over a few million dollars for this essential research. Anyone who cannot be fired, demoted, or have their pension siezed can tell you why. John Coleman, who founded The Weather Channel, will tell you that our climate is just going back to normal, the way it has always been, save for the past few thousand years. We human apes are curious, and want proof that our beliefs are reasonable. In the end, we welcome having our heads filled with bullshit. The more of a lie that something is, the more "proof" is required to sell it as true. Most things that are true cannot be proven, or no one wants, nor will accept, any proof. Children cause divorces. Marriage itself causes divorces. Suicide is usually a good thing for the person doing it.

We don't want to know any of these things. **Only the Ph.D. folks know some of this stuff for sure, and our paradigm for dealing with the real truth is at www.NZ9F.com/intelligence.**

Other Secrets: There are many more, such as government secrets, Top Secrets, and even above that such as things classified Cosmos, the inter-planetary secrets, but you go to prison for writing about these things.

Culinary Drivel - Hot Dogs

Yes, burritos once contained burro meat, but donkeys are vegetarian and their meat is eaten in most of the world, but not here. Hot dogs were never made from dog meat, but rather Kosher veal. The ranchers called veal beef calves "Little Doggies", and hence, the "Hot doggie sandwich". It started in Frankfurt, Germany, where a knackwurst got re-shaped to fit a hoagie bun, and was eventually spread to the US by Nathan's of Coney Island, New York City. Hot dogs are German Jewish.

Police Brutality and Crimes Committed by the San Diego Police

<http://voiceofsandiego.org/2014/05/14/9-cases-still-haunting-sdpc/>

Editor's Note: We elected not to write our own story on this issue as inappropriate, because the San Diego Police and its City Cabal tried to murder the Publisher of this newspaper in 2010. There is a police report on that, too. News media should not BE the news, just report it. Ever hear of Charlie Hebdo? • **More breaking news from Los Angeles**, where a former San Diego police officer convicted of sexually assaulting women while on-duty was just released after 5 months in custody: <http://www.latimes.com/local/lanow/la-me-ln-ex-officer-released-jail-20150302-story.html>

The comment received was "Would a common citizen get five months in jail for one rape and the sexual molestation of five women?"

Hints and Kinks:

The **Freight Maximums** are as follows: **San Diego City Libraries**, 12 inches by 15 inches by 24 inches, excluding handles. **MTS Bus and Trolley**, 18 inches by 18 inches by 30 inches, excluding wheels and handles. • More signs are going up quoting old laws that were thrown out of court, such as "Illegal Lodging", "Must Move", and "Cannot Return Within 48 Hours". What we need now is a Restraining Order making the posting of these Invalid Laws illegal. Even the Loitering law is not valid regarding homeless, because they have a valid reason to be there: They live on that sidewalk.

Government Corruption:

From Jerry Ashton, Occupy Wall St., via Facebook:

Matt DeHart, 30-year-old former US National Guard drone team member and alleged WikiLeaks courier was recently deported/extradited to US after his asylum claim was declined by Canada. For the past five years, DeHart has been at the center of a US national security investigation and has experienced extraordinary hardship as a result. In 2010, Matt was detained at the US–Canadian border by FBI agents, who administered an IV (intravenous line) to Matt against his will. They questioned him over several days regarding his military unit, his involvement with Anonymous and WikiLeaks. They denied him access to his lawyer, deprived him of sleep, food and water, and tortured him during this time. Although an FBI report confirms Matt was detained for an “espionage matter” and agents asked him nothing about pornography, Matt was presented with a hastily drafted criminal complaint alleging he solicited nude photos

from a teenager in 2008. Matt DeHart appeared before a judge in Buffalo and was ordered to be transferred to Tennessee for arraignment. Courage, the international organization dedicated to the protection of truth-tellers, has announced that its new beneficiary will be Matt DeHart. DeHart joins Edward Snowden and Jeremy Hammond as Courage beneficiaries. Matt worked with the hactivist group Anonymous. He has been deported/extradited from Canada to the United States to face charges that judges in two countries (the US and Canada) have found to lack credibility. WikiLeaks founder Julian Assange said: “Canada’s actions are shameful. It may as well not have a border.” Matt’s parents Leann and Paul DeHart say: “We are comforted knowing we do not stand up against the tide alone.”

Do you have Cancer from Asbestos?

MesotheliomaLawyerCenter.org offers comprehensive asbestos and mesothelioma information, with an emphasis on the legal options available to asbestos victims and their families. The legal options are important, so that victims and their families can pay for medical expenses and receive compensation for the pain and suffering they endure. Susan Kolb, Outreach Coordinator.

Snide Comments:

Burger Weak: The reason a burger smells like a cow's butt is that it is one, all ground up and served on a bun. • Cheezer Chavez invented the cheeseburger, or at least the one with Union Lettuce. • Prayer is what crazy people do who have convinced themselves they hear voices from God. • GigaBytes are snacks for Giga monsters. • Now what Jack-In-The-Box restaurants needs to go with the Jumbo Jack is the Late-Night Jack, One-Armed Jack, Sore Fingers Jack, and the Tired Hand Jack. Maybe a really tall burger, too, the High Jack. As for the Box, Chicken Box is illegal **PAGE SEVEN** except that chicken boxing is

permitted in Tijuana, so how about Cat Box, the sandwich prepared for your pet?

• San Diego is the only place you can buy a downtown sidewalk **human** pooper-scooper, to clean up after your pet human that lives in front of your building. • Now that Tom Brokaw admits having made up much of the news on NBC, what's next? Now that we know George W. Bush helped to plan Sept. 11, do you think he will get prosecuted? • **Food Trucks** are just like portable toilets, except that stuff comes out of them instead of going in. They are used to spread cockroach infestations, so most pest control companies sponsor at least one. Vegans object to the tiny roach pieces in the food, because it is meat. •

The Silver Line Trolley is very pretty and historic. I like it a lot, but for the same money San Diego could have housed all of its sidewalk homeless for an entire winter. More skewed priorities, rampant in America's Most Corrupt City. • Learn how to stretch your mouth: The Monica Lewinsky School of Political Internship has the course "PBJ", which is not "Peanut

Butter and Jelly",

but rather Presidential Blow Jobs. I know several hookers who were trained at our National Whorehouse, Congress (true story). Sexual favors as bribes were recently ruled to be okay, as they do not involve money. Lobbyists, as you know, frequently have sex with government regulators.

• **Warning: Suicide Carts** are legal in San Diego, so stay out of their way, lest you be run over by one that is out of control. •
