The meeting of the San Diego City Council Committee on Livability and Neighborhoods (see "Meetings") I also give an inside look at the Press, who are usually long gone before I ever get to speak, and a Facebook perspective from Occupy, "Bankers Behind Bars". Also, the "Big Belly" trash receptacles that keep getting their solar cells stolen.

## IN THIS ISSUE:

**Editorials:** Mexico wants passports, Psychiatric medicines being not given to patients. **Page Two:** Sleeping in public not a crime, MTS \$1.25 Day Pass, City Council On Leave, Free birth certificate and State ID info, Meetings. **Page 3:** Getting SSI, Cell phone scam, Bananas Republicans, Financial Advice, Why Me?, Snide Comments, Masthead.

### Mexico requiring passports causes tourism, poverty problems

Mexico wants a passport to enter the country, first time ever, but very few US tourists have one. Traditionally, for over a hundred years, a passport was not required of a citizen of the US, Canada, or Mexico, to visit the other two nations. Right now, Mexicans visiting the US do NOT need a Mexican passport. They do need a US visa, typically a DSP-150, which is FREE, or an I-94, which costs \$6 for 6 months. I complained to the Mexican Federal, State, and Local tourism officials, the SAT Aduanal (Customs), and even the Godfather and the Jewish Rabbinical Council, and got some results. Still working on this problem. A passport can cost \$200 US when you add up all the "extra" costs. They want me to get a passport, but with what money? I need special shoes, eyeglasses, cellular air-time (my "free" phone company is charging me for California Lifeline!), and I need medicine that nobody will pay for, abatement of toxic mold and bedbugs, and computer-use fees, including my annual website payment. Total, \$600. Add a jaywalking ticket from the San Diego Police, and now we are up to \$800. Suicide? Looks tempting.

If you need to cross into Mexico at San Ysidro, here are a few options: 1.) Cross at Otay. 2.) Get a passport. 3.) Pretend you applied for a passport and carry around realistic-looking documents. 4.) Get a \$20 FM-1 Mexican visa which allows you to live there, but not work there, for 6 months. When you enter the San Ysidro crossing, it is the extreme right lane. 5.) Get to know the Chief of Immigration. He has an office there, and will talk to you. 6.) Visit the Mexican Consulate in Little Italy and explain your problem. They can issue you papers. Tourism is down 40%, so this cannot last long.

On Saturday, August 29, I became the victim of a hate-crime against Americans in Tijuana. Mistaken for a tourist, I was pelted with rocks, as a crowd shouted "Tourists go home! Get out of my country, asshole American!" This never happens when I am with the folks I help and give food to, so it is a rare instance. If you visit Mexico, try Tecate or Ensenada, not Tijuana. Too dangerous. I have had a food mission in TJ for 25 years, and its web page is [www.NZ9F.com/TJRM](http://www.NZ9F.com/TJRM). Food donations accepted.

### Psychiatric Medicines need to be given to those who need them

**Psychiatric Medicines.** We have all heard of the persons who refuse to take them, and end up committing crimes, but what about persons who want their medicine, and want to take it, and the Healthcare system refuses to give it to them? How many innocent people will be harmed by Society refusing to spend some of the Health Insurance money because of the **Corporate Greed** of the health insurance providers? Medicine is a way less expensive cost than more prisons, harmed people, and all sorts of other difficulties this can cause. This is a no-brainer, and Society obviously has no brains. (You already knew that.)

I got my **Psychological and Psychiatric evaluations** on Friday, August 21, and **surprisingly have NO mental illnesses**. I have a Developmental Disability, Asperger's Syndrome. As the First U.S. Asperger's Autistic ever known to exist (1952, and debatable), and now reaching retirement age, I have a lot of data as a Psychologist that Society does not want. The disease did not exist, technically, in the 1970's when I studied Psychology, although it was known in Austria since 1945. What are the principal characteristics of the disease that Medicine **refuses to admit** (although they do know!)? What drugs help? What developmental things help? I call Asperger's "The Secret Disease", because of half a dozen reasons, including the Religious Secrets it involves, and the truth about Non-Coding DNA, and the completely BOGUS studies on it. Autistics cannot feel love nor pleasure except in huge excessive amounts.

Autistics all consider suicide frequently, but as an **academic exercise**. The average Asperger's Autistic is more intelligent than 90% of all college professors, but not permitted to go to Graduate School. How the hell do you deal with that, truthfully? Very difficult, but if I get Commissioned, I will write a book on it, giving all the secrets. **"I do not believe you."** That is what we super-intelligent have heard every single day of our lives.

From legal papers on my Disability: ADA Considerations: Those of us with Asperger's Syndrome, even at 63 years of age now, are still not that good at verbal communications. I became good at the written word as a result. I do not think that having a Representative helps any, as they could not represent my position any better than my written words. The big problems are Severe Low-Dopamine-Depression, which is not Serotonin-based, and so neither the Antidepressants nor the SSRI's (like Prozac or Welbutrin) work on it at all; and this LD Depression causes massive memory loss, as bad as Alzheimer's Disease. It was even thought that I had that, since shown not true. Other problems include Extreme Intelligence, which is the biggest problem of all.

Being ten to thirty times more intelligent than those who are considered to be the most intelligent, those with Asperger's Syndrome have an enormous problem. How would you feel if you thoroughly understood every detail about how the Corruption in government and society works? How would you feel if you knew that most of what is in the news media is lies to obscure the truth? What if you knew that universities conduct fake "studies" to determine whatever the government pays them to "prove"? What do you do if you are too intelligent to believe in God, despite being only ten years old? I am often on 3 computers at the same time. We feel no love nor pleasure, except in huge quantities, and nobody believes anything we say. We need to make up lies that people can believe, because they cannot handle the truth. We then get accused of telling lies. We need to say, "Look, little human ape, if I told you the truth, your little human ape-brain could not load it." So we hear "I don't believe you", constantly, because you can't teach Calculus to an alligator. We wonder how we ended up on this planet with so many stinky and stupid human-apes. My website is NZ9F.com, and I often write web pages to **explain concepts**, because most people have way too much to learn to understand any of us.

# Meetings:

**The Coalition For Basic Dignity - San Diego, (CBDSD)** met August 6 as guests of the Girls Think Tank (GTT), with 10 present, including 1 Board Member of GTT, 3 homeless, 2 ACLU attorneys, and 2 persons in the news media.

- The **Toilets Issue** is being discussed in City committees, with some saying that the Portland Loo on 14th and K is causing problems in the community. • Father Joe will be probably taking on more toilets, keeping the 10 contracted to the City on 15th and Imperial open 24/7 instead of just 5:30 AM to 9:30 PM. **Homeless present objected to the additional cost** to the City to do this, saying that late-night toilet use needs are adequately served by the outhouses one block west of Father Joe's. • Neil Good Homeless Center is probably being moved to Mosaic Baptist (Catholic-Mormon) church, next to the 12th and Imperial Transit Center, adjacent (west) of Father Joe's. Plans are to make toilets available there, including for MTS passengers at 12th and Imperial. This would conform with the demands of the Grand Jury Committee on Toilets, requiring cooperation between agencies for better toilet coverage. **We are highly in favor of the new location for the Homeless Intake Center.** • Girls Think Tank has a new name, "Think Dignity". If you read very old editions of this newspaper, and my blog, I long ago suggested that calling women "girls" is sexist, plus the name suggests a group of women only, not the men and women that comprise the group. There was objection, including from the GTT board member present, because GTT is well-known worldwide, and highly respected in Australia, for example, as well as in China (largely because of the circulation of this newspaper). My objection, a minor one, is that it no longer uses the phrase "think tank", which is a very respectable group to be in, in our society. Dignity Think Tank would be better. Not my call, but I do come up with a fair number of the group's ideas. • New lockers are being constructed at the Homeless Storage Facility operated by GTT, to replace the trash bins currently used to store the possessions of the poor and homeless. • GTT is pricing portable truck-mounted showers, and the Episcopal Churches already have one or more of them. • I was several times insulted, demeaned, similar at this meeting, and have frequently complained about that sort of behavior in the past, but I always maintain my objectivity. What GTT, MAPSS (Metropolitan Association of Providers of Social Services) and ACLU have in common is that they are the **ONLY** groups that allowed homeless into their meetings, back when that was researched in 2009. • **Operation Stand-Down** for Veterans had much fewer participants this year, even though the news media stated otherwise. I had to explain that the media get together in a secret meeting everyday to determine what they will all say in unison. Stand Down is a "cookie" to distract attention from how badly our government treats veterans. Have a cookie (or a parade) and you will feel better, hero. They gave their arms, their legs, sometimes even their sanity, and were rewarded with life living on the sidewalk or in a human-circus-tent concentration camp. They deserve better. • Next meeting was Sept. 3, covered below. ♦♦♦♦♦

**MAPSS, the Metropolitan Association of Providers of Social Services, met Wednesday, August 26**, with 29 present, 20% above average. • Various job openings exist at various agencies right now, so ask around. • TACO, the Third Avenue Charitable Organization of the First Lutheran Church, 3rd and A in Downtown San Diego, was the featured organization to give a presentation. Their main plus is that there are no qualifications to get services. Most Nonprofits require someone to meet their funding stipulations such as "Must be mentally ill" or "Must be a substance abuser" or "Must have a criminal record". Backed by private donations and with no restrictions on who gets served, TACO has the rare advantage of not needing to know who you are, and that suits everyone. There are now two licensed Social Workers who will provide services for absolutely anybody who is alive and a human being. You can even remain anonymous. For a full list of services, see [www.tacosd.org](http://www.tacosd.org). • Next, there was an evaluation of StreetLinks, which is the ongoing university course for social service providers that happens about four times a year. This latest edition, held on June 24, can be examined at [nz9f.com/yahoo\\_site\\_admin/assets/docs/July\\_1\\_SD\\_Homeless\\_News.180170650.pdf](http://nz9f.com/yahoo_site_admin/assets/docs/July_1_SD_Homeless_News.180170650.pdf). Page two, bottom center. The subject is Housing Options. • The next meeting of MAPSS is 10 AM on Sept. 23. ♦♦♦♦♦

**The Coalition For Basic Dignity, San Diego (CBDSD) also met** September 3, with 16 present (Labor Day Weekend), including **PAGE TWO** 5 homeless, 1 high school student, 2

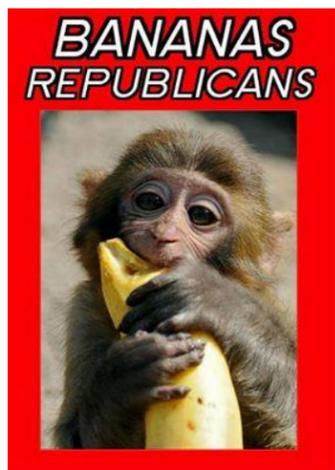

attorneys, 2 press, and 6 community leaders, 4 of which specialize in Religion or Faith. • The Girls Think Tank (GTT) got a donation for its Showers-On-Wheels program to cover half of its cost from the Burrito Boys of the Downtown Fellowship, San Diego Rescue Mission. Additional donations are being accepted at [www.GirlsThinkTank.Org](http://www.GirlsThinkTank.Org). • There are no restroom updates, as the City continues to debate the issue (and stall). Next meeting on toilets is at City Hall, 12<sup>th</sup> Floor, 2 PM Sept. 23. • There is an MTS Proposal being sponsored by GTT which would ask that discounted bus/trolley passes be given to the Unemployed (to look for work), and the Poor. This is not finished and is ongoing. ♦♦♦♦♦

## Hints and Kinks: Getting SSI

**Not as difficult as you think, and San Diego County will help, free.** You need to apply for General Relief Assistance, PLUS you need to disregard all of the false information you will be given about that. Even if you are an Axe Murderer out on Parole, in this country unlawfully, and convicted 300 times of Welfare Fraud, you CANNOT be denied General Relief. So, see an attorney about it. Once you are ON General Relief, the San Diego County Legal Aid Society will give you lawyers to help force your SSI money.

## Cell Phone Scam! Your "free" phone gets pirated by bandits in the cell biz, and they charge you money for your California Lifeline Service!

I am currently having this problem with Assurance Wireless Division of Virgin Mobile. I will let you know how it goes when it goes to complaint with the California Universal Lifeline Provider.

## Bananas Republicans

Courtesy Fox News: California state Sen. **Leland Yee**, an outspoken advocate for gun control, has been indicted on charges of arms trafficking and public corruption. Illinois State Rep. **Keith Farnham** has resigned after it was revealed he is being investigated for child pornography. Pennsylvania state Sen. **Leanna Washington** has been ordered to stand trial on corruption charges. The FBI and Internal Revenue Service have raided the home and office of Rhode Island House Speaker **Gordon Fox** in a "criminal investigation." **Patrick Cannon**, mayor of Charlotte, N.C., has been arrested by the FBI, and faces federal charges of theft and bribery.

## Financial Advice:

Stocks and Real Estate will need to decline to 20-25% of present values. Real Unemployment, using the method of computation changed to today's unrealistic crap by President Nixon, will go up from 70% (current) to at least 80%. Economic Depression? Yes, since 2006, because of declining real estate values. The only way out of an Economic Depression is a World War, or a Revolution. Sorry. Good Investments: Limited Partner in a solar company. They will make billions, then go bankrupt, leaving their customers holding the bag. Limited Partners are not liable, and so do not get bankrupted. Hydrogen tech is good, too, converting things that were already converted to propane, making them work on pure hydrogen. This includes cars, trucks, busses, home and commercial heating systems, etc. Hydrogen will be FREE in the near future. Obviously not a good time to invest in petroleum.

Avoid Insurance, Healthcare, Cell Phone Service, and Information Tech. Avoid gold, silver, platinum, and diamonds, as they are plentiful everywhere but Earth, and will be brought in by the truckload. Other planets line their trash dumps with nice, cheap pure gold, because it does not corrode. Good way to store nuclear waste. Start a business of your own, without any investment, to support you when you are laid off. Qualcomm was the canary in the coal mine. ## Why Me?

After last month's article on the UFO aliens, there were suggestions that I get a Psychiatric Evaluation, and I did. You may not be aware of this, but I have been ruled to have NO mental illness. I do have a defect of having super-extreme intelligence, that's all. What I suffer from is called Asperger's Syndrome, and it shares a few things in common with Autism, but it is not Autism. See further information on Page One of this edition, on the right of the page, "Psychiatric medicines..."

## Snide Comments:

Ancient Rome's pedophilic Reaganomics-welfare program: Three hots, a cot, and a tot. • The new Puppy-Burger is Chihuahua cheese with Chihuahua meat. • We have come so far that the NewAge people are now dying of OldAge. I always thought their message to be SewAge. • Healthcare Provider: You're still on hold? We've been waiting for you to hang up. • HSBC: Her Majesty's Sperm Bank California. • Best choice for San Diego Mayor in 2016? Bob Filner, of course! • Our coffee is made from the finest imported used socks and underwear. • Will curing the problems of Society require nuclear weapons? • The alien beings say that in all of the billions of universes only humans are stupid enough to believe in God. That makes us highly useful as hypnotized slaves. Not even cats or monkeys are that stupid, but dogs are. • Is a "Financial Advisor" for Small Business a Bankruptcy Attorney? •

sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (ConServatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

**Being homeless on the sidewalk is a lot like being at the zoo, except you're the exhibit.**
